**CMS–10830—Data Collection to Support CMS Burden Reduction and Health Informatics Efforts**

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

**Information Collection**

1. *Type of Information Collection Request:* New collection (Request for a new OMB control number); *Title of Information Collection:* Data Collection to Support CMS Burden Reduction and Health Informatics Efforts; *Use:* CMS seeks to establish a generic clearance that will be used to permit quick turnaround data collection projects that support CMS efforts to infuse customer perspectives, apply innovative solutions, advance standards and information technology (IT) interoperability, advance health equity, and respond to emerging priorities. CMS will utilize a range of methodologies through this generic clearance including surveys, focus groups, stakeholder/key informant interviews, cognitive

interviews, site visits, and usability testing. Data collected under this generic clearance will support CMS and OBRHI efforts to reduce the burden of CMS regulations, sub-regulations, and policies as well as increasing the use of digital health tools to improve the customer experience. Obtaining feedback from CMS stakeholders is a core component of OBRHI's work to assist CMS in improving service delivery.
