Estimate of Burden: The amount of time to complete the agreements and other paperwork that comprise the U.S. Census Bureau and the U.S. Bureau of Economic Analysis's security requirements will vary based on the confidential data assets requested and the access modality. To obtain access to U.S. Census Bureau and U.S. Bureau of Economic Analysis confidential data assets, it is estimated that the average time to complete and submit the U.S. Census Bureau and the U.S. Bureau of Economic Analysis's data security agreements and other paperwork is 45 minutes for the U.S. Census Bureau and 12 minutes for the U.S. Bureau of Economic Analysis. This estimate does not include the time needed to complete and submit an application within the SAP Portal. All efforts related to SAP Portal applications occur prior to and separate from the U.S. Census Bureau and the U.S. Bureau of Economic

Analysis's effort to collect information related to data security requirements. In addition, annual trainings are required to obtain and maintain a security clearance. It is estimated that the average time to complete the Census Bureau's Data Handling University and Records Management Training is 300 minutes.

The expected number of applications in the SAP Portal that receive a positive determination from the U.S. Census Bureau and the U.S. Bureau of Economic Analysis in a given year may vary. Overall, per year, the U.S. Census Bureau and the U.S. Bureau of Economic Analysis estimate they will collect data security information for a total of 260 application submissions that received a positive determination within the SAP Portal. The U.S. Census Bureau and the U.S. Bureau of Economic Analysis estimate that the total burden for the collection of information for data security requirements and completion of training over the course of the three-year OMB clearance will be about 10,503 hours and, as a result, an average annual burden of 3,501 hours.
