#### 21 CFR Parts 50, 56, and 812

[Docket Nos. FDA-2021-N-0286 and FDA-2019-N-2175]

RIN 0910-AI07 and 0910-AI08

#### Protection of Human Subjects and Institutional Review Boards, and Institutional Review Boards; Cooperative Research; Extension of Comment Period

**AGENCY:** Food and Drug Administration, Department of Health and Human Services (HHS).

**ACTION:** Proposed rules; extension of comment period.

**SUMMARY:** The Food and Drug Administration (FDA or the Agency) is extending the comment period for two proposed rules that appeared in the **Federal Register** of September 28, 2022. In the proposed rule entitled "Protection of Human Subjects and Institutional Review Boards," FDA

requested comments on proposed changes to its regulations regarding obtaining and documenting informed consent from research participants, and institutional review board membership and functions, including continuing review (Docket No. FDA-2021-N-0286). In the proposed rule entitled "Institutional Review Boards; Cooperative Research," FDA requested comment on a change to its regulations that would require any institution located in the United States participating in FDA-regulated cooperative research to rely on approval by a single institutional review board (IRB) for that portion of the research that is conducted in the United States, with some exceptions (Docket No. FDA-2019-N-2175). The Agency is taking this action in response to requests for an extension to allow interested persons additional time to submit comments.

**DATES:** FDA is extending the comment period on the proposed rules published in the **Federal Register** on September 28, 2022 (87 FR 58733 and 87 FR 58752). Either electronic or written comments must be submitted by December 28, 2022.

Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as "confidential." With regard to Docket No. FDA-2019-N-2175: David Markert, Office of Clinical Policy, Food and Drug Administration, 10903 New Hampshire Ave., Silver Spring, MD 20993-0002, 301-796-0752.

**SUPPLEMENTARY INFORMATION:** In the **Federal Register** of September 28, 2022, FDA published two proposed rules with a 60-day comment period to request comments on proposed changes to its regulations regarding obtaining and documenting informed consent from research participants, and institutional review board membership and functions, including continuing review, as well as a change to its regulations that would require any institution located in the United States participating in FDA-regulated cooperative research to rely on approval by a single IRB for that portion of the research that is conducted in the United States, with some exceptions. Comments on the proposed rules will inform FDA's rulemaking to establish regulations for Protection of Human Subjects and Institutional Review Boards.

The Agency has received requests for a 60-day extension of the comment period for both proposed rules. The requests conveyed concern that the current 60-day comment period does not allow sufficient time to develop a

meaningful or thoughtful response to the proposed rules.

FDA has considered the requests and is extending the comment periods for the proposed rules for 30 days. The Agency believes that a 30-day extension allows adequate time for interested persons to submit comments without significantly delaying rulemaking on these important issues.
