I. Background and Purpose

On August 26, 2021, the New Hampshire Air Resources Division (ARD) submitted a revision to its State Implementation Plan. The revision consists of an order establishing reasonably available control technology (RACT) requirements for Fujifilm Dimatix, Inc.

II. Description and Review of Submittals

On August 26, 2021, the New Hampshire ARD submitted to EPA as a SIP revision request order RO–0006 establishing RACT requirements to limit emissions of volatile organic compounds (VOCs) for Fujifilm Dimatix, Inc. located in Lebanon, New Hampshire. Fujifilm Dimatix, Inc. requested a source specific RACT order for VOCs for an adhesive process as well as the use of emission reduction credits (ERCs) to offset the gap between future actual emissions and allowable

emissions. Fujifilm Dimatix, Inc. uses adhesives that bond metal to metal substrates to produce piezoelectric ink jet print heads and printing systems. The request included a technical justification and an evaluation of capture and control device technologies that were evaluated. Fujifilm Dimatix, Inc. evaluated the feasibility of using an alternative adhesive and add-on controls but could not find a suitable alternative coating or cost-effective, technically feasible control technology. New Hampshire reviewed and concurred with the facility's request, and on July 8, 2021, issued Order No. RO–0006 to the Fujifilm Dimatix, Inc. Order No. RO–0006 includes a 12.2 tons per year cap for VOC emissions, a VOC content limit for adhesives used by the facility, requirements for how the adhesives shall be applied, work practice standards, and recordkeeping and reporting requirements. Fujifilm Dimatix, Inc. will continue to investigate alternative spray equipment technology and employ good operating practices in order to minimize air emissions. We are proposing approval of the order into the New Hampshire SIP because it is consistent with CAA requirements for VOC RACT and with New Hampshire's Env-A 1200, VOCs RACT regulation.

III. Proposed Action

EPA is proposing to approve the New Hampshire SIP revision requests as described above. The SIP revisions meet section 110(l) of the CAA because the revisions will not interfere with any applicable requirement concerning attainment and reasonable further process, or any other applicable requirement of the CAA. EPA is soliciting public comments on the issues discussed in this notice or on other relevant matters. These comments will be considered before taking final action. Interested parties may participate in the Federal rulemaking procedure by submitting written comments to this proposed rule by following the instructions listed in the **ADDRESSES** section of this **Federal Register**.

IV. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference RACT Order RO–0006, dated July 8, 2021, which establishes RACT requirements for Fujifilm Dimatix, Inc. The EPA has made, and will continue to make, these documents generally

available through <https://www.regulations.gov> and at the EPA Region 1 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

AGENCY: Federal Maritime Commission.

ACTION: Proposed rule; finding of no significant impact.

SUMMARY: This document announces the availability of the Federal Maritime Commission's (Commission's) draft Finding of No Significant Impact (FONSI) related to the proposed regulations on Demurrage and Detention Billing Requirements.

DATES: Petitions for review of the Commission's FONSI under NEPA must be submitted on or before November 25, 2022.

ADDRESSES: You may submit petitions for review by using the Federal eRulemaking Portal at www.regulations.gov, under Docket No. FMC-2022-0066, Demurrage and Detention Billing Requirements.

SUPPLEMENTARY INFORMATION: On October 14, 2022, the Commission issued a notice of proposed rulemaking for new regulations on demurrage and detention billing requirements.¹ In the NPRM, the Commission determined that the proposed rule did not constitute a

major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of an environmental impact statement is not required.² The Commission also noted that the FONSI and environmental assessment would be available for inspection on the docket at <https://www.regulations.gov>.

The Commission is issuing this document to notify the public that the FONSI is now available on the docket. This Finding of No Significant Impact would become final within 10 days of publication of this document in the **Federal Register** unless a petition for review is filed by using the Federal eRulemaking Portal at www.regulations.gov.
