DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Establishment of the Marine and Coastal Area-Based Management Advisory Committee and Solicitation of Nominations for Membership

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of establishment of the Marine and Coastal Area-based Management Advisory Committee and solicitation of nominations for membership.

SUMMARY: Pursuant to the Federal Advisory Committee Act, the Under Secretary of Commerce for Oceans and Atmosphere (Under Secretary) announces the establishment of the Marine and Coastal Area-based Management Advisory Committee (MCAM AC). The MCAM AC shall advise the Under Secretary on science-based approaches to area-based protection, conservation, restoration, and management in coastal and marine areas, including the Great Lakes. The scope of the Committee's advice will include, but not be limited to, efforts consistent with the America the Beautiful initiative, as well as other relevant issues that may be requested by the Under Secretary. The MCAM AC shall terminate 2 years from the date of its charter's filing with the appropriate U.S. Senate and House of Representatives committees unless earlier terminated or renewed by the proper authority. This notice also requests nominations for membership on the MCAM AC (see "Structure" and "Nominations and Applications" below for more detail).

DATES: Nominations and applications to serve on the inaugural membership of the MCAM AC should be sent to the web address specified below and must be received on or before January 17, 2023. Nominations and applications will continue to be accepted on an ongoing basis for a period of 1 year and may be considered in case of vacancies.

ADDRESSES: Nominations and applications should be submitted electronically to Lauren Wenzel, National Ocean Service, NOAA, at lauren.wenzel@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Lauren Wenzel, National Ocean Service, NOAA, at lauren.wenzel@noaa.gov or (240) 533–0652. For additional information, visit noaa.gov/marine-area-based-management-committee.

SUPPLEMENTARY INFORMATION:

I. Background and Authority

The MCAM AC is governed by the FACA, 5 U.S.C. app., and its implementing regulations, 41 CFR part 102–3, which sets forth standards for the formation and use of advisory committees.

The establishment of the MCAM AC is necessary and in the public interest. The Committee would provide a forum for discussion to advise NOAA on area-based management, including opportunities to enhance conservation of biodiversity, promote climate resilience, and expand access to nature for underserved communities. The scope of the Committee's advice will include, but not be limited to, efforts consistent with the America the Beautiful/Conserving Our Nation's Lands and Waters initiative called for by section 216(a) of Executive Order 14008 on Tackling the Climate Crisis at Home and Abroad, as well as other relevant issues that may be requested by the Under Secretary. No other Federal program or advisory committee has the mandate or scope to address all types of area-based management, including sites that are managed under different authorities and for differing purposes.

II. Structure

The MCAM AC shall consist of not more than 20 non-Federal voting members with diverse perspectives and expertise. Membership shall include knowledgeable individuals that serve in a representative capacity for such perspectives as: resource managers for coastal and marine areas and the Great Lakes (such as representatives from states, territories, and localities and members of regional fishery management councils, members of regional ocean councils, and interstate fisheries commissions); Indigenous communities involved in coastal and ocean resource issues, including representatives from Indian tribes, Alaska Native corporations, Alaska Native organizations, tribal organizations, and Native Hawaiian organizations; conservation, philanthropic, and other non-
