1 Bureau of Labor Statistic rate for attorneys in scientific research and development services (23–1011—Lawyers), plus 30% added for benefits and overhead (https://www.bls.gov/oes/current/oes231011.htm).

Estimated Total Annual Respondent Non-hourly Cost Burden: $9,259,809. There are no maintenance costs, record keeping costs, or filing fees associated with this information collection. However, the USPTO estimates that the total annual (non-hour) cost burden for this information collection, in the form of capital start-up costs ($8,250,000) and postage ($1,009,800) is $9,259,809.

Captive Start-Up Costs

Depositories charge fees to depositors; all depositors charge about the same rates for their services. For example, the American Type Culture Collection (ATCC), one of the world’s leading biological supply houses and recognized patent depositors, offers comprehensive patent services for $2,500 per deposit. Any deposits from outside the US may have additional requirements, from other Federal Agencies, as a part of their importation process. The USPTO estimates that the total non-hour respondent cost burden in the form of capital start-up costs amounts to $8,250,000 (3,300 respondents × $2,500).

Postage

Biological deposits are generally shipped to the depository “Domestic Overnight” by Federal Express (FedEx) and, since depositors are urged to supply frozen or dry ice, the cost is considered dangerous goods and requires special packaging. Additional FedEx special handling charges for inaccessible dangerous goods shipments of $40 per shipment apply for temperature-sensitive biological materials and also for the dry ice. An average cost for shipping by FedEx “Domestic Overnight” is estimated to be $90. If the shipment requires a pick-up by FedEx, there is an additional charge of $6. Special packaging is also required for these shipments. The average cost of frozen infectious shippers is estimated to be $170 per package of four for specimen shipments requiring refrigeration or dry ice. Therefore, the USPTO estimates the total postage costs average $306 per shipment, for a cost to respondents of $1,009,800 (3,300 respondents × $306).

The USPTO estimates that it will receive from depositories 1 request for recognition. The USPTO estimates that the postage cost for a mailed submission of a request for recognition from a depository using a Priority Mail 2-day flat rate legal envelope is $9.25. Therefore, the USPTO estimates that the total mailing costs for this information collection is $9.00 per year.

IV. Request for Comments

The USPTO is soliciting public comments to:

(a) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personally identifiable information (PII) in a comment, be aware that the entire comment—including PII—may be made publicly available at any time. While you may ask in your comment to withhold PII from public view, USPTO cannot guarantee that it will be able to do so.

Justin Isaac, Information Collections Officer, Office of the Chief Administrative Officer, United States Patent and Trademark Office.

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Legal Processes

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the Federal Register on September 16, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Title: Legal Processes.

OMB Control Number: 0651–0046.

Needs and Uses: This collection covers information requirements related to civil actions and claims involving current and former employees of the United States Patent and Trademark Office (USPTO). The rules for these legal processes may be found under 37 CFR part 104, which outlines procedures for service of process, demands for employee testimony and production of documents in legal
proceedings, reports of unauthorized testimony, employee indemnification, and filing claims against the USPTO under the Federal Tort Claims Act (28 U.S.C. 2672) and the corresponding Department of Justice regulations (28 CFR part 14). The public may also petition the USPTO Office of General Counsel under 37 CFR 104.3 to waive or suspend these rules in extraordinary cases.

The procedures under 37 CFR part 104 ensure that service of process intended for current and former employees of the USPTO is handled properly. The USPTO will only accept service of process for an employee acting in an official capacity. This collection is necessary so that respondents or their representatives can serve a summons or complaint on the USPTO, demand employee testimony and documents related to a legal proceeding, or file a claim under the Federal Tort Claims Act. Respondents may also petition the USPTO to waive or suspend these rules for legal processes. This collection is also necessary so that current and former USPTO employees may properly forward service and demands to the Office of General Counsel, report unauthorized testimony, and request indemnification. The USPTO covers current employees as respondents under this information collection even though their responses do not require approval under the Paperwork Reduction Act. In those instances where both current and former employees may respond to the USPTO, the agency estimates that the number of respondents will be small.

There are no forms provided by the USPTO for this collection. For filing claims under the Federal Tort Claims Act, the public may use Standard Form 95 “Claim for Damage, Injury, or Death,” which is provided by the Department of Justice and approved by OMB under OMB Control Number 1105–0008.

Form Number(s):
• Standard Form 95 (Claim for Damage, Injury, or Death).

Type of Review: Extension and revision of a currently approved information collection.

Affected Public: Private sector; individuals or households.

Respondent’s Obligation: Required to obtain or retain benefits.

Frequency: On occasion.

Estimated Number of Annual Respondents: 309 respondents.

Estimated Number of Annual Responses: 309 responses.

Estimated Time per Response: The USPTO estimates that the responses in this information collection will take the public between approximately 5 minutes (0.08 hours) and 6 hours to complete. This includes the time to gather the necessary information, create the document, and submit the completed request to the USPTO.

Estimated Total Annual Respondent Burden Hours: 133 hours.

Estimated Total Annual Respondent Non-Hourly Cost Burden: $4,569.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce, USPTO information collections currently under review by OMB.

Written comments and recommendations for this information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently Under 30-Day Review—Open for Public Comments” or by using the search function and entering either the title of the information collection or the OMB Control Number 0651–0046.

Further information can be obtained by:
• Email: InformationCollection@uspto.gov. Include “0651–0033 comment” in the subject line of the message.
• Mail: Justin Isaac, Office of the Chief Administrative Officer, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450.

Further information contact:
Requests for additional information should be directed to Parikha Mehta, Senior Legal Advisor, United States Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313–1450; by telephone at 571–272–3248; or by email at parikha.mehta@uspto.gov with “0651–0033 comment” in the subject line. Additional information about this information collection is also available at http://www.reginfo.gov under “Information Collection Review.”

SUPPLEMENTARY INFORMATION:
I. Abstract

This collection of information covers the submission of issue fee payments, requests for certificates of correction, and reissue applications to the United States Patent and Trademark Office (USPTO). The USPTO is required by 35 U.S.C. 131 and 151 to examine applications and, when appropriate, allow applications and issue them as patents. When an application for a patent is allowed by the USPTO, the USPTO issues a notice of allowance and the applicant must pay the specified issue fee within three months to avoid abandonment of the application. If the appropriate fees are paid within the proper time period, the USPTO can then issue the patent. The rules outlining the procedures for payment of the issue fee and issuance of a patent are found at 37 CFR 1.18, 1.311, and 1.314. This collection of information also covers several transactions that may be taken after issuance of a patent.
