

2. Administrative and National Policy Requirements

a. Pre-Award Authority

At the time the project selection is announced, FTA may extend pre-award authority for the selected project. There is no blanket pre-award authority for the project before announcement. FTA will issue specific guidance to the recipient regarding pre-award authority at the time of selection. FTA does not provide pre-award authority for competitive funds until a project is selected, and even then, there are Federal requirements that must be met before costs are incurred. For more information about FTA's policy on pre-award authority, please see the most recent Apportionments, Allocations and Program Information Notice at 87 FR 25362, 25386.

b. Cooperative Agreement Requirements

If selected, the awardee will apply for a cooperative agreement through FTA's Transit Award Management System (TrAMS). The successful applicant must be prepared to submit a complete statement of work and application in TrAMS and begin project activities within 45 days of notification of award. All recipients must follow the requirements of FTA Circular 6100.1E. Technical assistance regarding these requirements is available from FTA.

c. Standard Assurances

If an applicant receives an award, the applicant must assure that it will comply with all applicable Federal statutes, regulations, executive orders, directives, FTA circulars, and other Federal administrative requirements in carrying out any project supported by the FTA award. The applicant acknowledges that it will be under a continuing obligation to comply with the terms and conditions of the agreement issued for its project with FTA. The applicant understands that Federal laws, regulations, policies, and administrative practices might be modified from time to time and may affect the implementation of the project. The most recent Federal requirements will apply to the project unless FTA issues a written determination otherwise. The applicant must submit the most recent FTA Certifications and Assurances before receiving an award if it does not have current certifications on file.

d. Data Access and Data Sharing

Recipients, including a recipient that is an institution of higher education, will be subject to the restriction on publishing subject data contained in

section 18(b) of the latest version of FTA's master agreement available on FTA's website at <https://www.transit.dot.gov/funding/grantee-resources/sample-fta-agreements/fta-grant-agreements>. A recipient must receive written approval from FTA prior to publishing or presenting subject data in any form. FTA must approve the standards, best practices, guidance, or tools developed under this NOFO before that information can be published. A recipient should consult with its FTA Program Manager prior to accepting an award to discuss any plan for external communications about the project. FTA seeks to improve public transportation for America's communities by sharing project data and information collected or developed through its research with the public. This allows research organizations, transit agencies, and other stakeholders to learn from and expand upon the insights developed from FTA-funded research. Any standards, guidance, tools, or software developed as a part of this solicitation will be evaluated by FTA for the potential to be shared for use by public transportation agencies and others.

3. Reporting

Post-award reporting requirements include the electronic submission of Federal Financial Reports and Milestone Progress Reports in FTA's electronic grants management system.

Applicants should include any goals, targets, and indicators referenced in their application in the Executive Summary of the TrAMS application.

As part of completing the annual certifications and assurances required of FTA grant recipients, a successful applicant must report on the suspension or debarment status of itself and its principals. If the award recipient's active grants, cooperative agreements, and procurement contracts from all Federal awarding agencies exceeds \$10,000,000 for any period of time during the period of performance of an award made pursuant to this Notice, the recipient must comply with the Recipient Integrity and Performance Matters reporting requirements described in appendix XII to 2 CFR part 200.
