Description

Human remains representing, at minimum, one individual were removed from site AZ BB:14:1(ASM) in Pima County, AZ. The site was first recorded in 1925 by an archeology field class under the direction of Byron Cummings with the University of Arizona (UA). Permitted excavation was subsequently conducted in 1927 by Edward John Hands under the direction of the UA. Collections from these field seasons were brought to ASM following fieldwork; no accession number was assigned. In 1941, ASM loaned to the Harvard Peabody Museum of Archaeology and Ethnology (Peabody) a ceramic cremation vessel containing cremated human remains that had been removed from site AZ BB:14:1(ASM). The human remains and vessel remained at the Peabody until 2021 when they were recalled by ASM. No known individual was identified. The one associated funerary object is a ceramic cremation vessel.

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after December 23, 2022. If competing requests for repatriation are received, the ASM must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and
