

prohibitions on the manufacture, processing, and distribution in commerce of PCBs. Since 1978, EPA has promulgated numerous rules addressing all aspects of the life cycle of PCBs as required by the statute. The regulations are intended to prevent the improper handling and disposal of PCBs and to minimize the exposure of human beings or the environment to PCBs. These regulations have been codified in 40 CFR part 761, which includes approximately 100 specific reporting, third-party reporting, and recordkeeping requirements. To meet its statutory obligations to regulate PCBs, EPA must obtain sufficient information to conclude that specified activities do not result in an unreasonable risk of injury to health or the environment. EPA uses the information collected under 40 CFR part 761 to ensure that PCBs are managed in an environmentally safe manner and that activities are being conducted in compliance with the PCB regulations. The information collected by these requirements will update the Agency's knowledge of ongoing PCB activities, ensure that individuals using or disposing of PCBs are held accountable for their activities, and demonstrate compliance with the PCB regulations. Specific uses of the information collected include determining the efficacy of a disposal technology; evaluating exemption requests and exclusion notices; targeting compliance inspections; and ensuring adequate storage capacity for PCB waste. This collection addresses the several information reporting requirements found in the PCB regulations, 40 CFR part 761.

Form Numbers: 7720–12 and 7710–53.

Respondents/affected entities:

Persons who currently possess PCB items, PCB-contaminated equipment, or other PCB waste.

Respondent's obligation to respond: Mandatory, per TSCA section 6(e) and 40 CFR part 761.

Estimated number of respondents: 121,967 (total).

Frequency of response: On occasion.

Total estimated burden: 659,882 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$35,460,639 (per year), includes \$50 annualized capital or operation & maintenance costs.

Changes in the estimates: This request reflects a decrease of 19,505 hours (from 679,387 hours to 659,882 hours) in the total estimated respondent burden from that currently in the OMB inventory. This decrease is due to updates to the most current wage rate data and to revisions to the total number of

respondents based on new data gathered for this ICR effort, updated Agency data regarding total numbers of regulated entities, and the overlapping coverage of the recently revised ICR for Universal Hazardous Waste Manifest, EPA ICR No. 0801.25 and OMB Control No. 2050–0039, which was approved by OMB through January 31, 2025.

Courtney Kerwin,

Director, Regulatory Support Division.

FEDERAL COMMUNICATIONS COMMISSION

[FR ID 114495]

Federal Advisory Committee Act; Technological Advisory Council

AGENCY: Federal Communications Commission.

ACTION: Notice of public meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, this notice advises interested persons that the Federal Communications Commission's (FCC) Technological Advisory Council will hold a meeting on Thursday, December 8, 2022 in the Commission Meeting Room and available to the public via the internet at <http://www.fcc.gov/live> at 10 a.m.

DATES: Thursday, December 8, 2022.

ADDRESSES: Federal Communications Commission, 45 L Street NE, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Michael Ha, Chief, Policy and Rules Division 202–418–2099; michael.ha@fcc.gov.

SUPPLEMENTARY INFORMATION: At the December 8th meeting, the TAC will continue to consider and advise the Commission on topics such as 6G, artificial intelligence, advanced spectrum sharing technologies, and emerging wireless technologies, including new tools to restore internet access during shutdowns and other disruptions. This agenda may be modified at the discretion of the TAC Chair and the Designated Federal Officer (DFO). All attendees should arrive early to allow ample time for processing through the Commission's security screening. As required by Federal COVID–19 safety protocols, all visitors to FCC's facilities in any county where the COVID–19 Community Level is HIGH will be required to wear a "high quality" mask throughout their visit to that facility. Please refer to: <https://www.fcc.gov/visit> for further

information. The public may submit written comments before the meeting to Michael Ha, the FCC's Designated Federal Officer for Technological Advisory Council by email: michael.ha@fcc.gov or U.S. Postal Service Mail (Michael Ha, Federal Communications Commission, 45 L Street NE, Washington, DC 20554). Open captioning will be provided for this event. Other reasonable accommodations for people with disabilities are available upon request. Requests for such accommodations should be submitted via email to fcc504@fcc.gov or by calling the Office of Engineering and Technology at 202–418–2470 (voice), (202) 418–1944 (fax). Such requests should include a detailed description of the accommodation needed. In addition, please include your contact information. Please allow at least five days advance notice; last minute requests will be accepted but may not be possible to fill.

Federal Communications Commission.

Ronald T. Repasi,

Acting Chief, Office of Engineering and Technology.
