SUPPLEMENTARY INFORMATION: The Administrative Conference of the United States makes recommendations to federal agencies, the President, Congress, and the Judicial Conference of the United States regarding the improvement of administrative

procedures (5 U.S.C. 594). The membership of the Conference, when meeting in plenary session, constitutes the Assembly of the Conference (5 U.S.C. 595).

Agenda: Three proposed recommendations will be considered by the Assembly. In addition, there will be updates on past, current, and pending Conference initiatives, as well as other business. Summaries of the recommendations appear below:

Precedential Decision Making in Agency Adjudication. This proposed recommendation identifies best practices on the use of precedential decisions in agency adjudication. It addresses whether agencies should issue precedential decisions and, if so, according to what criteria; what procedures agencies should follow to designate decisions as precedential and overrule previously designated decisions; and how agencies should communicate precedential decisions internally and publicly. It also recommends that agencies codify their procedures for precedential decision making in their rules of practice.

Public Availability of Settlement Agreements in Agency Enforcement Proceedings. This proposed recommendation identifies best practices for providing public access to settlement agreements reached during administrative enforcement proceedings. It recommends that agencies develop policies addressing when to post such agreements on their websites; provides factors for agencies to consider in determining which agreements to post on their websites; and identifies best practices for presenting settlement agreements in a clear, logical, and accessible manner without disclosing sensitive or otherwise protected information.

Regulatory Enforcement Manuals. This proposed recommendation identifies best practices for agencies regarding the use and availability of enforcement manuals—that is, documents that provide agency personnel with a single, authoritative resource for enforcement-related statutes, rules, and policies. It recommends that agencies present enforcement manuals in a clear, logical, and comprehensive fashion; periodically review and update them as needed; ensure enforcement personnel can easily access them; and consider

making manuals, or portions of manuals, publicly available.
