

NATIONAL SCIENCE FOUNDATION**Agency Information Collection Activities: Comment Request; NSF I-Corps Teams Executive Summary Form****AGENCY:** National Science Foundation.**ACTION:** Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to establish this collection. In accordance with the requirements of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting Office of Management and Budget (OMB) clearance of this collection for no longer than 3 years.

DATES: Written comments on this notice must be received by January 27, 2023 to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Suite W18200, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF I-Corps Teams Executive Summary Form.

OMB Control No.: 3145-New.

Expiration Date of Approval: Not applicable.

Abstract: The NSF Innovation Corps (I-Corps) Teams Program Executive Summary is an important component of the NSF I-Corps Teams pre-submission process and conveys information needed to direct the proposed team project to the appropriate NSF Program Director (PD) for review and possible proposal submission invitation. This Executive Summary (ES) is to be submitted by the applying team to the cognizant I-Corps Team's PD outlining solicitation-specific aspects of the project (such as proposed team members, technology, commercial application and NSF lineage). In the past, this ES was submitted via email as an attached two-page (maximum) document and was often in varying formats or missing some parts of the required ES elements. The NSF I-Corps Teams Executive Summary Form

captures the same requested information, as outlined in NSF I-Corps Teams Program solicitation, but all within one secure, web-based form. In specific, the form collects submitting team member information (composition, roles and a brief description of each member's qualifications), Principal Investigator (PI) information (and a brief description of their connection to the team), NSF lineage (relevant current or previous NSF awards), brief descriptions of: the core technology, the potential commercial application, and the current commercialization plan for the proposed technology. If the proposed I-Corps Team is applying based on participation in a local or regional NSF I-Corps Site or Node training session, the form will provide fields for the applying team to complete regarding the associated I-Corps Site or Node senior member's contact information (as a reference) and location of the associated Site or Node.

Respondents: Investigators who submit proposals to NSF's I-Corps Teams Program.

Estimated Number of Annual Respondents: 400.

Burden on the Public: 2 hours (per response) for an annual total of 800 hours.

Dated: November 22, 2022.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-610; NRC-2022-0167]

Abilene Christian University

AGENCY: Nuclear Regulatory Commission.

ACTION: Construction permit application; acceptance for docketing.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) staff accepts and docketing an application for a construction permit from Abilene Christian University (ACU) for a molten salt research reactor to be built in Abilene, Texas.

DATES: This action became effective on November 18, 2022.

ADDRESSES: Please refer to Docket ID NRC-2022-0167 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2022-0167. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION**

CONTACT section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *NRC's PDR:* You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. Eastern Time (ET), Monday through Friday, except Federal holidays.

- *NRC's Public Website:* The construction permit application is available under the NRC's ACU Construction Permit Application public website at <https://www.nrc.gov/reactors/non-power/msrr-acu.html>.

FOR FURTHER INFORMATION CONTACT:

Richard F. Rivera, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7190; email: Richard.Rivera@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Discussion**

On August 12, 2022, Abilene Christian University (ACU) filed, pursuant to Section 104c. of the Atomic Energy Act and part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), "Domestic Licensing of Production and Utilization Facilities," an application (ADAMS Package Accession No. ML22227A201) for a construction permit for the molten salt research reactor (MSRR) (a "non-power reactor" as defined in 10 CFR 50.2), which would be located in Abilene, Texas. The MSRR would be a high-temperature

reactor that uses molten fluoride-based fuel salt. A notice of receipt and availability of this portion of the application was published in the **Federal Register** on October 14, 2022 (87 FR 62463).

The MSRR construction permit application consisted of the following information:

- The general information required by 10 CFR 50.33,
- The Preliminary Safety Analysis Report required by 10 CFR 50.34(a), and
- Environmental Information as required by 10 CFR 51.41.

On September 27, 2022, the NRC staff notified ACU that it needed additional information and was pausing the docketing review to allow ACU the opportunity to supplement its construction permit application (ADAMS Package Accession No. ML22270A170). On October 14, 2022, ACU supplemented its construction permit application with additional information regarding the proposed MSRR's instrumentation and control system design (ADAMS Package Accession No. ML22293B816).

The NRC staff determined that the application, as supplemented, is acceptable for docketing under Docket No. 50–610. The NRC staff provided ACU notice of the determination that its application was acceptable for docketing by letter dated November 18, 2022 (ADAMS Accession No. ML22313A097).

The NRC staff will perform a detailed technical review of the construction permit application and document its safety findings in a safety evaluation report. Also, in accordance with 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," the NRC staff will conduct an environmental review of the proposed action.

Docketing of the application does not preclude the NRC from requesting additional information from the applicant as the review proceeds, nor does it predict whether the Commission will grant or deny the application. If the Commission finds that the construction permit application meets the applicable standards of the Atomic Energy Act and the Commission's regulations, and that any required notifications to other agencies and bodies have been made, the Commission will issue a construction permit, in the form and containing conditions and limitations that the Commission finds appropriate and necessary.

The Commission will announce, in a future **Federal Register** notice, the opportunity to petition for leave to

intervene on the construction permit application.

Dated: November 22, 2022.

For the Nuclear Regulatory Commission.

Richard F. Rivera,

Project Manager, Advanced Reactor Licensing Branch 1, Division of Advanced Reactors and Non-Power Production and Utilization Facilities, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

PENSION BENEFIT GUARANTY CORPORATION

Submission of Information Collection for OMB Review; Comment Request; Special Financial Assistance Information

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of request for extension of OMB approval of information collection.

SUMMARY: The Pension Benefit Guaranty Corporation (PBGC) is requesting that the Office of Management and Budget (OMB) extend approval, with modifications, under the Paperwork Reduction Act, of a collection of information contained in PBGC's regulation on special financial assistance. This notice informs the public of PBGC's intent and solicits public comment on the collection of information.

DATES: Comments must be submitted on or before December 28, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. All comments received will be posted without change to PBGC's website, <http://www.pbgc.gov>, including any personal information provided. Do not submit comments that include any personally identifiable information or confidential business information.

A copy of the request will be posted on PBGC's website at <https://www.pbgc.gov/prac/laws-and-regulation/federal-register-notices-open-for-comment>. It may also be obtained without charge by writing to the Disclosure Division of the Office of the General Counsel of PBGC, 445 12th Street SW, Washington, DC 20024–2101,

or calling 202–229–4040 during normal business hours. If you are deaf or hard of hearing or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

FOR FURTHER INFORMATION CONTACT:

Melissa Rifkin (rifkin.melissa@pbgc.gov), Attorney, Regulatory Affairs Division, Office of the General Counsel, Pension Benefit Guaranty Corporation, 445 12th Street SW, Washington, DC 20024–2101, 202–229–6563. If you are deaf or hard of hearing or have a speech disability, please dial 7–1–1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION: Section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA) requires PBGC to provide special financial assistance (SFA) to certain financially troubled multiemployer plans upon application for assistance. Part 4262 of PBGC's regulations, "Special Financial Assistance by PBGC," provides guidance to multiemployer pension plan sponsors on eligibility, determining the amount of SFA, content of an application for SFA, the process of applying, PBGC's review of applications, restrictions and conditions, and reporting and notice requirements.

To apply for SFA, a plan sponsor must file an application with PBGC and include information about the plan, plan documentation, and actuarial information, as specified in §§ 4262.6 through 4262.9. Also, if the plan is changing certain assumptions for purposes of demonstrating its eligibility for SFA or its requested amount of SFA, then the plan sponsor may use PBGC's SFA assumptions guidance. PBGC needs the application information to review a plan's eligibility for SFA, priority group status (if applicable), and amount of requested SFA. In this renewal, PBGC is making clarifying changes to the application instructions, including to the information required to be filed. For example, PBGC is clarifying the required documentation of a death audit and the information to be filed for certain assumptions changes. PBGC estimates that over the next 3 years an annual average of 59 plan sponsors will file applications for SFA (initial, revised, and supplemented) with an average annual hour burden of 590 hours and an average annual cost burden of \$1,770,000.

Under § 4262.10(g), a plan sponsor may, but is not required to, file a lock-in application as a plan's initial application. The lock-in application contains basic information about the plan and a statement of intent to lock-in base data. PBGC needs the
