Ferrovandium From the Republic of Korea: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the respective determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on ferrovandium from the Republic of Korea (Korea) would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing this notice of continuation of the AD order.

DATES: Applicable November 29, 2022.

FOR FURTHER INFORMATION CONTACT: Krisha Hill, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4037.

SUPPLEMENTARY INFORMATION:

Background

On May 15, 2017, Commerce published the AD order on ferrovandium from Korea.¹ On April 1, 2022, Commerce initiated,² and the ITC

¹ See *Ferrovandium from the Republic of Korea: Antidumping Duty Order*, 82 FR 22309 (May 15, 2017) (Order).

² See *Initiation of Five-Year (Sunset) Reviews*, 87 FR 19069 (April 1, 2022).

instituted,³ this sunset review of the Order, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).

As a result of its review, Commerce determined, pursuant to sections 751(c)(1) and 752(c) of the Act, that revocation of the Order would likely lead to continuation or recurrence of dumping. Commerce, therefore, notified the ITC of the magnitude of the margins of dumping likely to prevail should the Order be revoked.⁴ On November 21, 2022, the ITC published its determination that revocation of the Order would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time, pursuant to sections 751(c) and 752(a) of the Act.⁵

Scope of the Order

The product covered by the Order is all ferrovandium regardless of grade (*i.e.*, percentage of contained vanadium), chemistry, form, shape, or size. Ferrovandium is an alloy of iron and vanadium. Ferrovandium is classified under Harmonized Tariff Schedule of the United States (HTSUS) item number 7202.92.0000. Although this HTSUS item number is provided for convenience and customs purposes, the written description of the scope of the Order is dispositive.

Continuation of the Order

As a result of the respective determinations by Commerce and the ITC that revocation of the Order would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States within a reasonably foreseeable time, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the Order. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rate in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the Order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next five-year (sunset) review of this Order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to an APO of their responsibility concerning the return, destruction, or conversion to judicial protective order of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply is a violation of the APO which may be subject to sanctions.

Notification to Interested Parties

This five-year sunset review and notice are in accordance with section 751(c) of the Act and the notice is published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: November 22, 2022.

Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Baldrige Performance Excellence Program Team Leader Consensus and Site Visit Information Collections

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on September 22, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Institute of Standards and Technology (NIST), Commerce.

Title: Baldrige Performance Excellent Program (BPEP) Team Leader Consensus and Team Leader Site Visit Information Collections.

OMB Control Number: 0693-0079.

Form Number(s): None.

Type of Request: Extension of a current information collection.

Number of Respondents: Examiner Performance Assessment—30 per year; Team Leader Performance Assessment—300 per year.

Average Hours per Response: Examiner Performance Assessment—20 minutes; Team Leader Performance Assessment—5 minutes.

Burden Hours: Examiner Performance Assessment—10 hours; Team Leader Performance Assessment—25 hours.

Needs and Uses: The purpose of the information is to help staff collect data on the skills of the examiners, including alumni examiners, in order to best manage training and selection. Because the examiner selection is so competitive, examiners need to demonstrate competencies such as understanding the Baldrige Criteria, team skills, and writing skills. The program also needs to collect peer-based information to understand an examiner's skill level in order to make decisions on whether the examiner should be elevated to "senior examiner" and therefore team leader. The blinded data will be shared with the team leader for improvement purposes, and for future assignments.

Affected Public: Individual or Households.

Frequency: Annually.

Respondent's Obligation: Voluntary. This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

[RTID 0648-XC400]

Permits; Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of application for transshipment permit; request for comments.

SUMMARY: NMFS publishes for public review and comment information regarding a permit application for transshipment of farmed salmon from aquaculture operations in Maine waters to processing plants in Canada by Canadian flagged vessels. The application for a transshipment permit is submitted under provisions of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). This action is necessary for NMFS to make a determination that the permit application can be approved.

DATES: Written comments must be received by December 13, 2022.

ADDRESSES: Written comments on this action, identified by RTID 0648-XC400 should be sent to Kent Laborde and Jasmine Prat in the NMFS Office of International Affairs, Trade, and Commerce by email at kent.laborde@noaa.gov and jasmine.prat@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Kent Laborde and Jasmine Prat by email at kent.laborde@noaa.gov and jasmine.prat@noaa.gov, or by phone at 301-427-8364.

SUPPLEMENTARY INFORMATION:

Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) authorizes the Secretary of Commerce (Secretary) to issue a transshipment permit for a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the United States Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state, to a point outside the United States.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application to transship from U.S. waters to another country using non-U.S. vessels may not be approved until the Secretary determines that "no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated . . . an interest in performing the transportation at fair and reasonable rates." NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below.

Summary of Application

NMFS received an application from True North Salmon Limited Partnership, Kelly Cove Salmon Limited, and 697002 NB, Inc., requesting authorization to transfer salmon from U.S. farm pens in Maine waters to five Canadian vessels for the purpose of transporting the salmon to Black's Harbour, Canada for processing. The transshipment operations will occur within the boundaries of the State of Maine, and within 12 nautical miles from Maine's seaward boundary. NMFS issued permits for the same vessels for use in calendar year 2022. Those permits will expire December 31, 2022.

Dated: November 21, 2022.

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of one permit application for enhancement and monitoring purposes, including an associated Hatchery and Genetic Management Plan (HGMP), and notice of availability of a draft environmental assessment (EA).

SUMMARY: We, NMFS, announce receipt of a permit application (26277) to enhance the propagation and survival of species listed under the Endangered Species Act (ESA) of 1973, as amended, from the United States Corps of Engineers (USACE) and California Department of Fish and Wildlife (CDFW). The USACE and CDFW are requesting for the next 10 years, hatchery and monitoring activities associated with the Russian River Steelhead Program (RRSP). As part of this permit application, the USACE and CDFW have submitted an HGMP as an attachment to the application. This notice advises the public that the permit application and associated HGMP are available for review and comment, prior to a determination by NMFS on the issuance of the permit. This document
