SUPPLEMENTARY INFORMATION:

I. Background

The SIP is a living document that a state revises as necessary to address its unique air pollution problems. Therefore, from time to time, the EPA must take action on SIP revisions containing new and/or revised regulations, approving and incorporating them by reference into the SIP. On May 22, 1997, the EPA revised the procedures for incorporating by reference federally approved SIP provisions, as a result of consultations between the EPA and the Office of the Federal Register (OFR) (62 FR 27968). The description of the revised SIP document, IBR procedures and “Identification of plan” format is discussed in further detail in the May 22, 1997, **Federal Register** document. On April 10, 2014, the EPA published a **Federal Register** beginning the new IBR procedure for Alaska (79 FR 19820). The EPA subsequently published an update to the IBR materials for Alaska on December 8, 2017 (82 FR 57836). Since then, the EPA has approved and incorporated by reference the following provisions of Alaska Administrative Code (18 AAC 50) into the Alaska SIP.

II. EPA Action

In this action, the EPA is announcing the update to the Alaska materials approved and incorporated by reference into the Alaska SIP at 40 CFR 52.70 as of February 10, 2022. The EPA is also correcting typographical errors and rearranging and republishing the contents of 40 CFR 52.70. Specifically, in subsection 52.70(c), we are correcting errors in the entries for 18 AAC 50.077 Standards for Wood-Fired Heating Devices (regulating the types of heating devices allowed to be installed and used in certain areas) and 18 AAC 50.230 Preapproved Emission Limits (establishing pre-approved nitrogen oxide emission limits for certain diesel engines) to accurately reflect the portions of these rule sections that were not submitted by the State and were not approved into the SIP (87 FR 7722, February 10, 2022). We are also correcting section 52.70(c) by removing the entry for the Ordinance of the City and Borough of Juneau, No. 91–52 (regulating smoke from wood burning in the Mendenhall Valley) which was superseded by our approval of the Ordinance of the City and Borough of Juneau, Serial No. 2008–28 (regulating

solid fuel fired burning devices in the Mendenhall Valley) (May 9, 2013, 78 FR 27071). The EPA is also rearranging and republishing the contents of sections 52.70(c) and (e) to align the contents with the outline of the Alaska state plan volumes and sections.

The EPA has determined that this rule falls under the “good cause” exemption in section 553(b)(3)(B) of the Administrative Procedures Act (APA) which, upon finding “good cause,” authorizes agencies to dispense with public participation and section 553(d)(3) which allows an agency to make a rule effective immediately (thereby avoiding the 30-day delayed effective date otherwise provided for in the APA). This rule simply codifies provisions which are already in effect as a matter of law in Federal and approved state programs. Under section 553 of the APA, an agency may find good cause where procedures are “impractical, unnecessary, or contrary to the public interest.” Public comment is “unnecessary” and “contrary to the public interest” since the codification only reflects existing law. Immediate notice in the CFR benefits the public by removing outdated citations and incorrect table entries.

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is updating its compilation of state and local regulations included in the Alaska SIP by finalizing the incorporation by reference of previously EPA-approved regulations promulgated by Alaska and federally effective prior to February 10, 2022. These include new and revised provisions as listed in sections I.A. and I.B. of this preamble. The EPA is also removing certain provisions from the SIP as listed in section I.C. of this preamble. Lastly, the EPA is also correcting typographical errors and rearranging and republishing the contents of 52.70(c). The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

IV. Statutory and Executive Order Reviews

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k);

40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond those imposed by State law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because this action does not involve technical standards; and
- Does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR

51.5, the EPA is finalizing the incorporation by reference of the Alaska regulations described in sections I and II of this preamble. The EPA has made, and will continue to make, these documents generally available electronically through www.regulations.gov and/or in hard copy at the appropriate EPA office (see the ADDRESSES section of this preamble for more information).

This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

The EPA has also determined that the provisions of section 307(b)(1) of the CAA pertaining to petitions for judicial review are not applicable to this action. Prior EPA rulemaking actions for each individual component of the Alaska SIP compilations had previously afforded interested parties the opportunity to file a petition for judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of such rulemaking action. Thus, the EPA sees no need in this action to reopen the 60-day period for filing such petitions for judicial review for this “Identification of plan” update action for Alaska.
