SUPPLEMENTARY INFORMATION: The Worker Profiling and Reemployment Services (WPRS) program, mandated by the Unemployment Compensation Amendments of 1993, Public Law 103-152, identifies and ranks unemployment insurance (UI) claimants by their potential for exhausting benefits before returning to work and refers these claimants to appropriate reemployment services. WPRS is a required UI activity that each state may operate as a standalone program or integrated within the state's Reemployment Services and Eligibility Assessments (RESEA) program, which is a voluntary reemployment program authorized by section 306 of the Social Security Act (SSA). Specifically, states participating in the RESEA program may opt to integrate WPRS into the RESEA participant selection process. States that fully integrate WPRS into their RESEA program and provide RESEA services statewide are exempt from WPRS reporting because WPRS activities are fully reflected in RESEA quarterly reports. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 27, 2022 (87 FR 32188).

This information collection is subject to the PRA. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal.
