14 CFR Part 71

[Docket No. FAA–2022–1448; Airspace Docket No. 21–AWP–58]

RIN 2120–AA66

Proposed Amendment of Class E Airspace: Hanford Municipal Airport, CA

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify the Class E airspace extending upward from 700 feet above the surface at Hanford Municipal Airport, CA. These actions will support the safety and management of instrument flight rule (IFR) operations at the airport.

DATES: Comments must be received on or before January 30, 2023.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783.

FOR FURTHER INFORMATION CONTACT: Raphell P. Taylor, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198; telephone: (405) 647–5527.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code (U.S.C.), Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would modify Class E airspace at Hanford Municipal Airport, CA, to support IFR operations at the airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to Docket No. FAA–2022–1448; Airspace Docket No. 21–AWP–58.” The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at www.regulations.gov. Recently published rulemaking documents can also be accessed through the FAA’s web page at www.faa.gov/air_traffic/publications/airspace_amendments.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the ADDRESSES section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022, FAA Order JO 7400.11G is publicly available as listed in the ADDRESSES section of this document. FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by modifying the Class E airspace extending upward from 700 feet above the surface at Hanford Municipal Airport, CA. A 2.8-mile circular radius of the airport should be added to properly contain circling maneuvers. The airspace extension east of the airport should be removed. The Visalia very high frequency omnidirectional range/distance measuring equipment (VOR/DME) navigational aid was decommissioned and the airspace is no longer necessary to contain its associated instrument approach procedure. The airspace extensions to the north and southeast of the airport should be modified. These modifications would more adequately contain arriving IFR operations below 1,500 feet above the surface on the Area Navigation (RNAV) Global Positioning System (GPS) Runway (RWY) 32 and RNAV (GPS)-B RWY 32 approaches, and departing IFR operations until they reach 1,200 feet above the surface at the airport.

The Class E5 airspace designations is published in paragraph 6005 of FAA Order JO 7400.11G, dated August 19, 2022, and effective September 19, 2022, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in FAA Order JO 7400.11, which is published yearly and becomes effective on September 15.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally
current, is non-controversial, and unlikely to result in adverse or negative comments. It therefore: (1) is not a “significant regulatory action” under Executive Order (E.O.) 12866; (2) is not a “significant rule” under DOT regulatory policies and procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by Reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

AWP CA E5 Hanford, CA [Amended]

Hanford Municipal Airport, CA

(Lat. 36°19′00″ N, long. 119°37′40″ W)

That airspace extending upward from 700 feet above the surface within a 2.8-mile radius of the airport, and within 2.4 miles each side of the 142° bearing from the airport extending from the 2.8-mile radius to 7 miles southeast of the airport, and within 2.4 miles each side of the 345° bearing from the airport extending from the 2.8-mile radius to 7 miles north of the airport.

Issued in Des Moines, Washington, on December 8, 2022.

B.G. Chew,

Group Manager, Operations Support Group, Western Service Center.

RIN 2120–AA66

Proposed Amendment of Class D and E Airspace; Lemoore Naval Air Station (NAS) (Reeves Field), CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to modify the Class D and E surface airspace at the airport, remove the Class E airspace designated as an extension to a Class D or E surface area, remove the Class E airspace extending from 1,200 feet above the surface, modify the Class E airspace extending from 700 feet above the surface of the earth, and it will also propose several administrative changes to update the airport’s legal description. This action would support the safety and management of instrument flight rules (IFR) and visual flight rules (VFR) operations at the airport.

DATES: Comments must be received on or before January 30, 2023.
