

impacts. This list is not intended to be exhaustive, nor is it a predetermination of potential environmental impacts.

The NRC staff will also conduct a safety review to determine TRISO-X's compliance with NRC's regulations, including 10 CFR part 20, "Standards for Protection Against Radiation" and 10 CFR part 70. The NRC staff's findings for the safety review will be published in a safety evaluation report.

IV. Request for Comment

As part of its environmental review, the NRC will first conduct a scoping process and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

- a. Define the proposed action that is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or are not significant or that have been covered by prior environmental review;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to, but are not part of, the scope of the EIS under consideration;
- e. Identify other environmental review and consultation requirements related to the proposed action;
- f. Indicate the relationship between the timing of the preparation of the environmental analyses and the NRC's tentative planning and decision-making schedule;
- g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and
- h. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

- a. The applicant, TRISO-X, LLC.;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- d. Any affected Indian Tribe;

e. Any person who requests or has requested an opportunity to participate in the scoping process; and

f. Any person who has petitioned or intends to petition for leave to intervene under 10 CFR 2.309.

Additionally, the NRC will hold a public scoping meeting on January 25, 2023, to receive scoping comments in person in accordance with 10 CFR 51.26. The time and location for the meeting will be noticed on the NRC public website at least 10 days prior at <https://www.nrc.gov/pmns/mtg>.

After the close of the scoping period, the NRC staff will prepare a concise summary of its scoping process, the comments received, as well as the NRC's responses to comments. The Scoping Summary Report will be made available to the public either as a separate document or as an appendix to the draft EIS.

The NRC staff will also have a public comment period for the draft EIS. Availability of the draft EIS and the dates of the public comment period will be announced in a future **Federal Register** notice. The final EIS will include NRC's responses to public comments received on the draft EIS.

**Attachment—Order Extending the
Effectiveness of the Approval of the
Transfer of License and Conforming
Amendment**

UNITED STATES OF AMERICA

**NUCLEAR REGULATORY
COMMISSION**

[NRC–2019–0110]

**In the Matter of LaCrosseSolutions,
LLC; La Crosse Boiling Water Reactor
EA–19–077; Docket Nos. 50–409 and
72–046; License No. DPR–45 Order
Extending the Effectiveness of the
Approval of the Transfer of License and
Conforming Amendment**

I.

LaCrosseSolutions, LLC is the holder of the U.S. Nuclear Regulatory Commission (NRC, the Commission) Possession Only License No. DPR–45, with respect to the possession, maintenance, and decommissioning of the La Crosse Boiling Water Reactor (LACBWR). Operation of the LACBWR is no longer authorized under this license. The LACBWR facility is located in Vernon County, Wisconsin.

II.

By Order dated September 24, 2019 (Transfer Order), the Commission consented to the transfer of the LACBWR license to Dairyland Power Cooperative and approved a conforming license amendment in accordance with Section 50.80, “Transfer of licenses,” and Section 50.90, “Application for amendment of license, construction permit, or early site permit,” of Title 10 of the *Code of Federal Regulations* (10 CFR). By its terms, the Transfer Order becomes null and void if the license transfer is not completed within 1 year unless, upon application and for good cause shown, the Commission extends the Transfer Order’s September 24, 2020, expiration date. By letter dated June 24, 2020, LaCrosseSolutions, LLC submitted a request to extend the effectiveness of the Transfer Order by 6 months. By Order dated September 1, 2020 (First Extension Order), the Commission extended the Transfer Order’s expiration date to March 24, 2021. By letter dated February 2, 2021, LaCrosseSolutions, LLC submitted a request to extend the effectiveness of the Transfer Order by an additional 6 months. By Order dated March 9, 2021 (Second Extension Order), the

Commission extended the Transfer Order’s expiration date to September 24, 2021. Subsequently, by letter dated August 17, 2021, LaCrosseSolutions, LLC submitted a request to extend the effectiveness of the Transfer Order by an additional 12 months. By Order dated August 30, 2021 (Third Extension Order), the Commission extended the Transfer Order’s expiration date to September 24, 2022. Subsequently, by letter dated August 16, 2022, LaCrosseSolutions, LLC submitted a request to extend the effectiveness of the Transfer Order by an additional 3 months. By Order dated September 9, 2022 (Fourth Extension Order), the Commission extended the Transfer Order’s expiration date to December 24, 2022.

III.

By letter dated November 23, 2022, LaCrosseSolutions, LLC submitted a request to extend the effectiveness of the Transfer Order by an additional 3 months, until March 24, 2023. As stated in the letter, the extension would allow the NRC staff sufficient time to complete its review of the LACBWR Final Survey Status Reports (FSSRs) and their associated Release Records. LaCrosseSolutions, LLC further stated that its responses to NRC staff requests for additional information (RAIs) regarding the LACBWR FSSRs are also under review by the NRC staff, and it is anticipated that additional time will be needed to finalize the staff’s Safety Evaluation Report and approve the revised FSSRs. LaCrosseSolutions, LLC additionally notes in its letter that the extension would provide the staff with additional time to make a final determination regarding the release of land for unrestricted use. The NRC staff also concludes that the extension would help facilitate preparations to transfer the license from LaCrosseSolutions, LLC to Dairyland Power Cooperative.

Based on the above, the NRC has determined that LaCrosseSolutions, LLC has shown good cause for extending the effectiveness of the Transfer Order by an additional 3 months, as requested.

IV.

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended; Title 42 of the United States Code Sections 2201(b), 2201(i), and 2234; and the Commission’s regulations at 10 CFR 50.80, IT IS HEREBY ORDERED that the expiration date of the Transfer Order, as extended by the Fourth Extension Order, is further extended until March 24, 2023. If the subject license transfer from LaCrosseSolutions, LLC to

Dairyland Power Cooperative is not completed by March 24, 2023, the Transfer Order shall become null and void; provided, however, that upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

Dated this 8th day of December 2022.

For the Nuclear Regulatory Commission.
John W. Lubinski,
*Director, Office of Nuclear Material Safety
and Safeguards.*
