

Each year, the Department of Defense issues a Schedule of Remuneration used by states for UCX purposes. States must use the schedule to determine Federal military wages for UCX “first claims” only when the Federal Claims Control Center (FCCC) responds to a request for information indicating that there is no Copy 5 of the Certificate of Release or Discharge from Active Duty (DD Form 214) for an individual under the social security number provided. A response

from the FCCC that indicates “no DD214 on file” will prompt the state to start the affidavit process and to use the attached schedule to calculate the Federal military wages for an unemployment insurance or UCX monetary determination.

The schedule applies to UCX “first claims” filed beginning with the first day of the first week that begins on or after January 1, 2023, pursuant to the UCX program regulations (see 20 CFR

614.12(c)). States must continue to use the 2022 schedule (or other appropriate schedule) for UCX “first claims” filed before the effective date of the revised schedule.

Brent Parton,

Acting Assistant Secretary for Employment and Training, Labor.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

**Data Users Advisory Committee;
Request for Nominations**

AGENCY: Bureau of Labor Statistics (BLS)

ACTION: Request for nominations.

SUMMARY: The BLS is soliciting new members for its Data Users Advisory Committee (DUAC). The current membership expires on May 1, 2023.

DATES: Nominations for the DUAC membership should be emailed by February 8, 2023.

ADDRESSES: Nominations for the DUAC membership should be sent via email to DUACMembersnominations@bls.gov. Nominations are only being accepted through email as BLS is in maximum telework status pending its relocation to Suitland. Please submit in Word or PDF format.

FOR FURTHER INFORMATION CONTACT: Ebony Davis, Program Analyst, U.S. Bureau of Labor Statistics. Telephone: 202-691-6636. This is not a toll-free number. Email: Davis.Ebony@bls.gov.

SUPPLEMENTARY INFORMATION: The DUAC provides advice to the Bureau of Labor Statistics from the points of view of data users from various sectors of the U.S. economy, including the labor, business, research, academic, and government communities, on matters related to the analysis, dissemination, and use of the Bureau’s statistics, on its published reports, and on gaps between or the need for new Bureau statistics.

The Committee consists of 20 members and will be chosen from a cross-section of individuals who represent a balance of expertise across a broad range of BLS program areas, including employment and

unemployment statistics, occupational safety and health statistics, compensation measures, price indexes, and productivity measures; or other areas related to the subject matter of BLS programs. BLS invites persons interested in serving on the DUAC to submit their names for consideration for committee membership.

BLS intends to renew membership in the DUAC for another three years. The BLS operates over two dozen surveys that measure employment and unemployment, compensation, worker safety, productivity, and consumer and producer price movements. BLS provides a wealth of economic data and analyses to support public and private decision making. The DUAC was established to provide advice to the Commissioner of Labor Statistics on the priorities of data users, suggestions concerning the addition of new programs, changes in emphasis of existing programs or cessation of obsolete programs, and advice on potential innovations in data analysis, dissemination, and presentation.

Nominations: BLS is looking for committed DUAC members who have a strong interest in, and familiarity with, BLS data. The Agency is looking for nominees who use and have a comprehensive understanding of economic statistics. The U.S. Bureau of Labor Statistics is committed to bringing greater diversity of thought, perspective, and experience to its advisory committees. Nominees from all races, gender, age, and disabilities are encouraged to apply. Interested persons may nominate themselves or may submit the name of another person who they believe to be interested in and qualified to serve on the DUAC. Nominations may also be submitted by organizations. Nominations should include the name, address, and telephone number of the candidate. Each nomination should include a summary of the candidate's training or experience relating to BLS data specifically, or economic statistics more generally. BLS will conduct a basic background check of candidates before their appointment to the DUAC. The background check will involve accessing publicly available, internet-based sources.

Authority: This notice was prepared in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended, 5 U.S.C. App. 2.

Signed at Washington, DC, this 3rd day of January 2023.

Leslie Bennett,

Chief, Division of Management Systems.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; NSF's Computer and Information Science and Engineering (CISE) Broadening Participation in Computing (BPC) Pilot Survey

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, Virginia 22314; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

Comments: Comments regarding (a) whether the proposed collection of information is necessary for the proper performance of the functions of the NSF, including whether the information shall have practical utility; (b) the accuracy of the NSF's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, use, and clarity of the information on respondents; and (d)

ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to the points of contact in the **FOR FURTHER INFORMATION CONTACT** section.

Copies of the submission may be obtained by calling 703-292-7556. NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number, and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: NSF's Computer and Information Science and Engineering (CISE) Broadening Participation in Computing (BPC) Pilot Survey.

OMB Control No.: 3145-New.

Abstract: Guided by its Strategic Plan, the National Science Foundation (NSF) has had a longstanding commitment to broadening participation of underrepresented groups and diverse institutions in science, technology, engineering, and math (STEM). In recent years, the Computer and Information Science and Engineering (CISE) Directorate has made a concerted effort to address underrepresentation of various groups in the field of computer science, including women, persons with disabilities, Blacks and African Americans, Hispanics and Latinos, American Indians, Alaska Natives, Native Hawaiians, and Other Pacific Islanders. Underrepresentation in the computer science field has resulted in unwelcoming work and academic environments, the belief among those in positions of influence (e.g., counselors, teachers, faculty, and recruiters) that some people are not well suited to computing or are less likely to excel, and a lack of policies promoting equity within educational institutions and private companies.

This underrepresentation has important implications for society. Computing is one of the fastest growing sectors of the economy, and the lack of diversity deprives the field of a wealth of experience, knowledge, expertise, and perspective. The CISE Strategic Plan for Broadening Participation (November 2012) recognizes that the ". . . causes of longstanding underrepresentation are complex and
