BILLING CODE 9110-9P-P

DEPARTMENT OF HOMELAND SECURITY

Implementation of a Parole Process for Haitians

ACTION: Notice.

SUMMARY: This notice describes a new effort designed to respond to and protect against a significant increase in the number of Haitian nationals crossing the border without authorization, as the U.S. Government continues to implement its broader, multi-pronged and regional strategy to address the challenges posed by irregular migration. Haitians who do not avail themselves of this process, and instead enter the United States without authorization between ports of entry (POEs), generally are subject to removal. As part of this effort, the U.S. Department of Homeland Security (DHS) is implementing a process—modeled on the successful Uniting for Ukraine (U4U) and Process for Venezuelans—for certain Haitian nationals to lawfully enter the United States in a safe and orderly manner and be considered for a case-by-case determination of parole. To be eligible, individuals must have a supporter in the United States who agrees to provide financial support for the duration of the beneficiary's parole period, pass national security and public safety vetting, and fly at their own expense to an interior POE, rather than entering at a land POE. Individuals are ineligible for this process if they have been ordered removed from the United States within the prior five years; have entered unauthorized into the United States between POEs, Mexico, or Panama after the date of this notice's publication with an exception for individuals permitted a single instance of voluntary departure or withdrawal of their application for

admission to still maintain their eligibility for this process; or are otherwise deemed not to merit a favorable exercise of discretion.

DATES: DHS will begin using the Form I-134A, Online Request to be a Supporter and Declaration of Financial Support, for this process on January 6, 2023.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

I. Background—Haitian Parole Process

This notice describes the implementation of a new parole process for certain Haitian nationals, including the eligibility criteria and filing process. The parole process is intended to enhance border security by responding to and protecting against a significant increase of irregular migration by Haitians to the United States via dangerous routes that pose serious risks to migrants' lives and safety, while also providing a process for certain such nationals to lawfully enter the United States in a safe and orderly manner.

The announcement of this new process followed detailed consideration of a wide range of relevant facts and alternatives, as reflected in the Secretary's decision memorandum dated December 22, 2022.¹ The complete reasons for the Secretary's decision are included in that memorandum. This **Federal Register** notice is intended to provide appropriate context and guidance for the public regarding the policy and relevant procedures associated with this policy.

A. Overview

The U.S. Government is engaged in a multi-pronged, regional strategy to address the challenges posed by irregular migration.² This long-term strategy—a shared endeavor with partner nations—focuses on addressing the root causes of migration, which are currently fueling unprecedented levels of irregular migration, and creating safe, orderly, and humane processes for

migrants seeking protection throughout the region. This includes domestic efforts to expand immigration processing capacity and multinational collaboration to prosecute migrant-smuggling and human-trafficking criminal organizations as well as their facilitators and money-laundering networks. While this strategy shows great promise, it will take time to fully implement. In the interim, the U.S. government needs to take immediate steps to provide safe, orderly, humane pathways for the large numbers of individuals seeking to enter the United States and to discourage such individuals from taking the dangerous journey to and arriving, without authorization, at the SWB.

In October 2022, DHS undertook a new effort to address the high number of Venezuelans encountered at the SWB.³ Specifically, DHS provided a new parole process for Venezuelans who are backed by supporters in the United States to come to the United States by flying to interior ports of entry—thus obviating the need for them to make the dangerous journey to the SWB. Meanwhile, the Government of Mexico (GOM) made an independent decision for the first time to accept the returns of Venezuelans who crossed the SWB without authorization pursuant to the Title 42 public health Order, thus imposing a consequence on Venezuelans who sought to come to the SWB rather than avail themselves of the newly announced Parole Process. Within a week of the October 12, 2022 announcement of that process, the number of Venezuelans encountered at the SWB fell from over 1,100 a day to under 200 a day, and as of the week ending December 4, to an average of 86 a day.⁴ The new process and accompanying consequence for unauthorized entry also led to a precipitous decline in irregular migration of Venezuelans throughout the Western Hemisphere. The number of Venezuelans attempting to enter Panama through the Darién Gap—an inhospitable jungle that spans between Panama and Colombia—was down from 40,593 in October 2022 to just 668 in November.⁵
