

undermining the applicability of the ELDT requirements that are designed to protect workers and the public.

Nine commenters supported the request, including representatives from the ground water well industry, such as the Florida Ground Water Association and the Georgia Association of Ground Water Professionals. Those filing in support primarily cited the shortage of CDL drivers in their industry, and the fact that ground water well companies are, for the most part, already conducting in-house driver training. They further cited the added costs of the ELDT requirements, which they assert discourage younger individuals from seeking and applying for a CDL in their industry.

VI. Equivalent Level of Safety Analysis and Decision

FMCSA denies the exemption. Although the NGWA stated that it would provide on-the-job “safe driver” training to drivers covered by the exemption prior to obtaining their CDL, NGWA did not provide any details of that training or explain how such training would provide an equivalent or greater level of safety as compliance with the existing regulations, as required by 49 CFR 381.310(c)(5). FMCSA therefore has no basis to conclude that the training would likely ensure an equivalent or greater level of safety as would be achieved absent the exemption, as required by statute (49 U.S.C. 31315(b)(1)).

For the above reasons, NGWA’s exemption application is denied.

Administrator.

II. Background

On November 29, 2022, FMCSA published a notice announcing its decision to renew exemptions for 15 individuals from the epilepsy and seizure disorders prohibition in 49 CFR 391.41(b)(8) to operate a CMV in interstate commerce and requested comments from the public (87 FR 73392). The public comment period ended on December 29, 2022, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(8).

The physical qualification standard for drivers regarding epilepsy found in § 391.41(b)(8) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any loss of ability to control a CMV.

In addition to the regulations, FMCSA has published advisory criteria¹ to assist medical examiners in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.

III. Discussion of Comments

FMCSA received no comments in this proceeding. However, FMCSA is aware Mr. Keith Hubbard’s state of licensure was incorrectly stated in the November 2022 notice. Mr. Hubbard’s state of licensure has been corrected in this notice exempting him from the seizure standard in § 391.41(b)(8).

IV. Conclusion

Based on its evaluation of the 15 renewal exemption applications, FMCSA announces its decision to exempt the following drivers from the epilepsy and seizure disorders prohibition in § 391.41(b)(8).

As of November 27, 2022, and in accordance with 49 U.S.C. 31136(e) and 31315(b), the following 15 individuals have satisfied the renewal conditions for obtaining an exemption from the epilepsy and seizure disorders

¹ These criteria may be found in APPENDIX A TO PART 391—MEDICAL ADVISORY CRITERIA, section H. *Epilepsy*: § 391.41(b)(8), paragraphs 3, 4, and 5, which is available on the internet at <https://www.gpo.gov/fdsys/pkg/CFR-2015-title49-vol5/pdf/CFR-2015-title49-vol5-part391-appA.pdf>.

The drivers were included in docket number FMCSA–2014–0212, FMCSA–2014–0215, FMCSA–2015–0323, FMCSA–2016–0007, FMCSA–2018–0052, FMCSA–2018–0053, FMCSA–2018–0054, FMCSA–2020–0050, or FMCSA–2020–0051. Their exemptions were applicable as of November 27, 2022 and will expire on November 27, 2024.

In accordance with 49 U.S.C. 31315(b), each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) the person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).
