AGENCY: Nuclear Regulatory
Commission.

ACTION: Generic communications;
issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is announcing the availability of the latest version of NRC Form 3, “Notice to Employees.” The NRC Form 3 describes certain responsibilities and rights of employers and employees who engage in NRC-regulated activities, including how employees can report violations or other safety concerns directly to the NRC. Licensees are required by law to post the form at prominent locations at the workplace to permit workers to view it easily.

DATES: The revised form is available as of December 20, 2022.

ADDRESSES: Please refer to Docket ID NRC-2022-0225 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

SUPPLEMENTARY INFORMATION: Section 19.11(e)(1) of title 10 of the *Code of Federal Regulations* (10 CFR), states that licensees shall prominently post the most recent version of NRC Form 3, “Notice to Employees” within 30 days of receiving the revised NRC Form 3 from the Commission. In a 1997 rulemaking, 10 CFR 19.11 (62 FR 48165) was amended to incorporate a reference to the latest version of NRC Form 3. This eliminated the need to revise the CFR whenever NRC Form 3 is changed, which had been the previous practice. The final rule published on September 15, 1997 (62 FR 48165) indicated that the NRC would inform licensees of future changes to NRC Form 3 by an administrative letter and, in addition, the availability of any new versions would be noticed in the **Federal Register**. Administrative letters were a type of generic communication issued to inform addressees of specific regulatory or administrative information but were discontinued in September 1999. As such, in lieu of an administrative letter, this revision and future revisions will be publicized through an alternative electronic means (e.g., website notice, social networking service, etc.) to alert all licensees of the new revisions, as well as in the **Federal Register**.

A new version of NRC Form 3 was issued in November 2022, to make a correction to Region I’s mailing address and add an email address for submitting concerns. To view the current version of NRC Form 3 (11-2022), please go to <https://www.nrc.gov/reading-rm/doc-collections/forms/index.html>. A Spanish language version of the form (NRC Form 3A) can also be found on the same site.

Dated: January 10, 2023.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-96611; File No. SR-IEX-2022-10]

Self-Regulatory Organizations; Investors Exchange LLC; Order Granting Approval of a Proposed Rule Change To Modify IEX Rule 11.190(b)(7) To Adopt an Optional Cancel or Re-Price Functionality for D-Limit Orders

January 9, 2023.

I. Introduction

On November 4, 2022, the Investors Exchange LLC ("IEX" or the "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Exchange Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to allow Users³ of Discretionary

Limit orders ("D-Limit orders") to opt for their D-Limit orders to either automatically cancel or re-price—under certain conditions—after an initial price adjustment. The proposed rule change was published for comment in the **Federal Register** on November 25, 2022.⁴ The Commission received no comments on the proposed rule change. This order approves the proposed rule change.

II. Description of the Proposed Rule Change

The Exchange seeks to amend IEX Rule 11.190(b)(7) to allow a User to attach an optional instruction to a D-Limit order so that the order will either re-price or cancel following an initial price adjustment during a period of quote instability⁵ under certain circumstances. Specifically, the D-Limit order would either reprice or cancel if, after the most recent quote instability determination⁶ that resulted in the D-Limit order being price adjusted, ten (10) milliseconds have passed and the order is resting at a price that is less aggressive than the NBB⁷ for buy orders or less aggressive than the NBO⁸ for sell orders.

Current D-Limit Functionality

D-Limit orders are limit orders that may be either displayed or non-displayed and are initially priced and ranked in the Exchange's Order Book at the order's limit price.⁹

When a D-Limit order is resting on the Exchange's Order Book, it will reprice automatically when the Exchange's Crumbling Quote Indicator ("CQI") is triggered (*i.e.*, during a period of relative quote instability).¹⁰ The CQI that applies to D-Limit orders is governed by IEX Rule 11.190(g)(1), under which the Exchange utilizes quoting activity of eight away exchanges' Protected Quotations¹¹ and a mathematical calculation to assess the probability of an imminent change to the current Protected NBB¹² to a lower price or imminent change to the current Protected NBO¹³ to a higher price for a
