

(a) Comments Due Date

The FAA must receive comments on this airworthiness directive (AD) by March 6, 2023.

(b) Affected ADs

None.

(c) Applicability

This AD applies to all Airbus SAS airplanes specified in paragraphs (c)(1) through (5) of this AD, certificated in any category.

(1) Model A330–202, –203, –223, and –243 airplanes.

(2) Model A330–223F and –243F airplanes.

(3) Model A330–301, –302, –303, –321, –322, –323, –341, –342, and –343 airplanes.

(4) Model A340–211, –212, and –213 airplanes.

(5) Model A340–311, –312, and –313 airplanes.

(d) Subject

Air Transport Association (ATA) of America Code 49, Airborne Auxiliary Power.

(e) Unsafe Condition

This AD was prompted by a report that damage was found to the firewall and fuselage skin in the auxiliary power unit (APU) compartment area on Model A330 airplanes. Subsequent investigation determined that cracks started because of high cycle fatigue in the tee duct, which led to a hot air leak. The FAA is issuing this AD to address cracks in the tee duct. This condition, if not corrected, could lead to a hot air leak from the tee duct and damage to the APU compartment firewall, possibly jeopardizing its capability to contain a fire.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Requirements

Except as specified in paragraph (h) of this AD: Comply with all required actions and compliance times specified in, and in accordance with, European Union Aviation Safety Agency (EASA) AD 2022–0175, dated August 23, 2022 (EASA AD 2022–0175).

(h) Exceptions to EASA AD 2022–0175

(1) Where EASA AD 2022–0175 refers to its effective date, this AD requires using the effective date of this AD.

(2) The “Remarks” section of EASA AD 2022–0175 does not apply to this AD.

(i) Additional AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Validation Branch, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or responsible Flight Standards Office, as appropriate. If sending information directly to the International Validation Branch, send it to the attention of the person identified in paragraph (j) of this AD. Information may be

emailed to: 9-AVS-AIR-730-AMOC@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the responsible Flight Standards Office.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain instructions from a manufacturer, the instructions must be accomplished using a method approved by the Manager, International Validation Branch, FAA; or EASA; or Airbus SAS’s EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Required for Compliance (RC)*: Except as required by paragraph (i)(2) of this AD, if any service information contains procedures or tests that are identified as RC, those procedures and tests must be done to comply with this AD; any procedures or tests that are not identified as RC are recommended. Those procedures and tests that are not identified as RC may be deviated from using accepted methods in accordance with the operator’s maintenance or inspection program without obtaining approval of an AMOC, provided the procedures and tests identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to procedures or tests identified as RC require approval of an AMOC.

FEDERAL COMMUNICATIONS COMMISSION**47 CFR Part 73**

[MB Docket No. 23–14; RM–11943; DA 23–23; FR ID 122971]

Television Broadcasting Services Roanoke, Virginia

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has before it a petition for rulemaking filed by Blue Ridge Public Television (Petitioner), the licensee of WBRA-TV, channel 3, Roanoke, Virginia. The Petitioner requests the substitution of channel 13 in place of channel 3 at Roanoke in the Table of Allotments.

DATES: Comments must be filed on or before February 21, 2023 and reply comments on or before March 6, 2023.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 45 L Street NE, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve counsel for the Petitioner as follows: Brad Deutsch, Esq., Foster Garvey PC, 1000 Potomac Street NW, Suite 200, Washington, DC 20007.

FOR FURTHER INFORMATION CONTACT:

Joyce Bernstein, Media Bureau, at (202) 418–1647, Joyce.Bernstein@fcc.gov; or Emily Harrison, Media Bureau, at (202) 418–1665, Emily.Harrison@fcc.gov.

SUPPLEMENTARY INFORMATION: In support, the Petitioner states that the proposed channel substitution serves the public interest because it will improve viewers’ access to the Station’s PBS and other public television programming by improving reception and resolving low-VHF reception issues. The Petitioner further states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers, as well as the existence of environmental noise blockages affecting VHF signal strength and reception, which may vary widely by service area. According to the Petitioner, WBRA-TV’s proposed move from channel 3 to channel 13 is predicted to create an area where 64,309 persons are predicted to lose service

without considering the service from other PBS stations. However, when taking into account service from other PBS stations, only 94 persons are predicted to lose PBS service, a number which the Petitioner asserts the Commission has found to be *de minimis*.
