Title: 7 CFR 1910—Common Forms Package for Federal Debt and Employment Verification Forms. 
OMB Number: 0575–New. 
Expiration Date of Approval: Three years from approval date. 
Type of Request: New information collection.

Abstract: The information collection under OMB Number 0575–New will enable the Agencies to effectively monitor a compliance with the federal debt reporting and to determine employment verification and eligibility for Federal financial assistance.

The Agencies offer supervised credit programs to build modest housing and essential community facilities in rural areas. Section 517(d) of Title V of the Housing Act of 1949, as amended, provides the authority for the Secretary of Agriculture to issue loan guarantees for the acquisition of new or existing dwellings and related facilities that provide decent, safe, and sanitary living conditions and other structures in rural areas.

Because the Agency extends credit through loan guarantees, it is necessary to collect information from both a potential homebuyer, lender or other entity. All information collected is vital for the Agency to determine if borrowers qualify for all assistance for which they are eligible.

The Agency loan guarantee is used to offset the lender’s risk of originating loan-to-value ratio loans in rural areas and is not intended to offset risks that stem from inadequate employment, credit history, or substandard property condition. Lenders must provide the Agency with clear and accurate information so Agency staff can promptly determine if the loan qualifies for a loan guarantee.

Information requested can include financial documents such as confirmation of household income, assets and liabilities, a credit record, evidence the borrower has adequate repayment ability for the loan amount requested and if the condition and location of the property meet program guidelines. All information is necessary to confirm the borrower qualifies for all assistance for which they are eligible.

In accordance with OMB Circular A–129, Agencies must make sure that lenders and servicers participating in Federal Credit programs meet all applicable financial and programmatic requirements. To ensure these standards are met, the Agency must collect documentation that demonstrates the lender’s ability to originate, underwrite, service and report loans in accordance with Agency program guidelines is collected. Information collected must support that a participating lender has a high standard of demonstrated ability to originate and service sound loans and operates in a prudent and businesslike manner.

Estimate of Burden: RD is requesting approval for one respondent and a one-hour place holder in order for OMB to issue a control number for these forms. The burden for each of the forms will be accounted for within the individual Rural Development program collection packages using the form(s).

Respondents: Not-for-profit institutions; Business or other for profit.

Needs and Uses: In an effort to improve the measurement of business dynamics in the United States, the Census Bureau plans to conduct the 2023 Annual Business Survey (ABS), covering reference year 2022. The ABS combines Census Bureau firm-level collections to reduce respondent burden, increase data quality, reduce operational costs, and operate more efficiently. The ABS provides information on selected economic and demographic characteristics for businesses and business owners by sex, ethnicity, race, and veteran status. Further, the survey measures research and development for microbusinesses, new business topics such as innovation and technology, as well as other business characteristics. The 2023 ABS is co-sponsored by the National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation (NSF) and conducted by the Census Bureau.

The ABS includes all nonfarm employer businesses filing Internal Revenue Service (IRS) tax forms as individual proprietorships, partnerships, or any other type of corporation, with receipts of $1,000 or more. For the 2023 ABS, approximately 850,000 employer businesses will be sampled (reference year 2022). The large sample size is needed to produce detailed statistics by owner demographics.
