

duty on-highway industries. There are some requirements for marine CI vessel owners and operators and owners of HD truck fleets.

*Respondent's obligation to respond:* Regulated manufacturers must respond to this collection if they wish to sell their products in the U.S., as prescribed by section 206(a) of the CAA (42 U.S.C. 7521). Participation in some programs such as ABT is voluntary, but once a manufacturer has elected to participate, it must submit the required information.

*Estimated number of respondents:* 2,823 (total).

*Frequency of response:* Quarterly, Annually, On Occasion, depending on the type of response.

*Total estimated burden:* 167,333 hours per year. Burden is defined at 5 CFR 1320.03(b).

*Total estimated cost:* \$31,192,402 (per year), includes an estimated \$18,976,585 annualized capital or maintenance and operational costs.

*Changes in the Estimates:* EPA expects that the total estimated respondent burden will remain fairly consistent with the burden currently identified in the OMB Inventory of Approved ICR Burdens. Expected changes to the estimates come from the end of TPEM for all power categories (decrease) and the DF validation exercise (increase). However, EPA is evaluating information that may lead to a change in the estimates.

**Request for Nominations to the EPA Clean Air Scientific Advisory Committee (CASAC)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) invites nominations of scientific experts to be considered for appointment to the Clean Air Scientific Advisory Committee (CASAC).

**DATES:** Nominations should be submitted in time to arrive no later than February 27, 2023.

**FOR FURTHER INFORMATION CONTACT:** For further information about the CASAC membership appointment process and schedule, please contact Mr. Aaron Yeow, DFO, by telephone at 202-564-2050 or by email at [yeow.aaron@epa.gov](mailto:yeow.aaron@epa.gov).

**SUPPLEMENTARY INFORMATION:** The CASAC is a chartered Federal Advisory Committee, established pursuant to the Clean Air Act (CAA) Amendments of 1977, codified at 42 U.S.C. 7409(d)(2), to review air quality criteria and National Ambient Air Quality Standards (NAAQS) and recommend to the EPA Administrator any new NAAQS and revisions of existing criteria and standards as may be appropriate. The CASAC shall also: advise the EPA Administrator of areas in which

additional knowledge is required to appraise the adequacy and basis of existing, new, or revised NAAQS; describe the research efforts necessary to provide the required information; advise the EPA Administrator on the relative contribution to air pollution concentrations of natural as well as anthropogenic activity; and advise the EPA Administrator of any adverse public health, welfare, social, economic, or energy effects which may result from various strategies for attainment and maintenance of such NAAQS. Members of the CASAC constitute a distinguished body of non-EPA scientists and engineers who are nationally and internationally recognized experts in their respective fields. Members are appointed by the EPA Administrator and serve for a two to three-year term as Special Government Employees who provide independent expert advice to the agency. Additional information is available at <https://casac.epa.gov>.

*Expertise Sought for CASAC:* As required under the CAA section 109(d), the CASAC is composed of seven members, with at least one member of the National Academy of Sciences, one physician, and one person representing state air pollution control agencies. The SAB Staff Office is seeking nominations of experts to serve on the CASAC to fulfill the statutory requirement of representing state air pollution control agencies. These scientists should have expertise in one or more of the following disciplines: air quality, biostatistics, ecology, environmental engineering, epidemiology, exposure assessment, medicine, risk assessment, and toxicology. The SAB Staff Office is especially interested in scientists with expertise described above who have knowledge and experience *relating to criteria pollutants (carbon monoxide, lead, nitrogen oxides, ozone, particulate matter, and sulfur oxides)*.

**Selection Criteria for the CASAC**

Nominees are selected based on their individual qualifications. Curriculum vitae should reflect the following:

- Demonstrated scientific credentials and disciplinary expertise in relevant fields;
- Willingness to commit time to the committee and demonstrated ability to work constructively and effectively on committees;
- Background and experiences that would help members contribute to the diversity of perspectives on the committee, *e.g.*, geographical, economic, social, cultural, educational backgrounds, professional affiliations, and other considerations;
