The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public’s reporting burden. Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Patent Law Treaty.

OMB Control Number: 0651–0073.

Needs and Uses: The Patent Law Treaties Implementation Act of 2012 (PLTIA) implements the provisions of the Patent Law Treaty (PLT) in title II. PLT Article 13 provides for the restoration of the right of priority where there is a failure to timely claim priority to the prior application, and also where there is a failure to file the subsequent application within 12 months of the filing date of the priority application.

The United States Patent and Trademark Office (USPTO) rules of practice are consistent with the PLT and

title II of the PLTIA. Section 201(c) of the PLTIA amended 35 U.S.C. 119 to provide that the 12-month periods set forth in 35 U.S.C. 119(a) and (e) may be extended by an additional 2 months if the delay in filing an application claiming priority to a foreign application or the benefit of a provisional application within that 12-month period was unintentional.

The information in this information collection is necessary so that patent applicants and/or patentees may seek restoration of the right of priority to a prior-filed foreign application or of the right to the benefit of a prior-filed provisional application. The USPTO will use the petition to restore the right of priority to a prior filed foreign application or the right to the benefit of a prior-filed provisional application to determine whether the applicant has satisfied the conditions of the applicable statute (35 U.S.C. 119) and regulation (37 CFR 1.55(c) or 1.78(b)).

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Patent and PTAB Pro Bono Programs

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comment on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the **Federal Register** on August 30, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Patent and PTAB Pro Bono Programs.

OMB Control Number: 0651–0082.

Needs and Uses: The Leahy-Smith America Invents Act (AIA), Public Law 112–29 § 32 (2011) directs the USPTO to work with and support intellectual property law associations across the country in the establishment of pro bono programs designed to assist financially under-resourced small

businesses. To support this, the USPTO—in collaboration with various non-profit organizations—implemented the Patent Pro Bono program; a series of autonomous regional programs that act as matchmakers to help connect low-income inventors with volunteer patent attorneys across the United States. The Patent Pro Bono program comprises a network of regional programs organized by various bar associations, law school IP clinics, and lawyer referral services that provide services across all fifty states, the District of Columbia, and Puerto Rico.

In 2022, the Patent Trial and Appeal Board (PTAB) began coordinating *pro bono* opportunities through the newly created PTAB Pro Bono Program, having supported the establishment of a national clearinghouse that acts as a matchmaker to connect under-resourced inventors with volunteer patent practitioners across the United States for assistance in preparing and arguing *ex parte* appeals before the PTAB. The PTAB Bar Association's national clearinghouse provides access to legal representation for *pro bono ex parte* appeal services across all fifty states and the District of Columbia.

Each *pro bono* program will be requesting that their respective regional programs and a national clearinghouse collect demographic information from those seeking assistance that will be self-identified by the applicant. The requested standardized demographic information, collected through Applicant Intake Forms, will be a voluntary part of the overall application materials that each independent inventor fills out when seeking *pro bono* assistance. The information collected will be kept confidential by the regional programs and the national clearinghouse and only aggregate information is shared with the USPTO. This aggregate information, will also be used to help determine the extent to which women, minorities, and veterans engage the Pro Bono Programs supported by USPTO.

This renewal of 0651–0082 broadens the scope of the information collection to include the PTAB Pro Bono Program, in addition to the Patent Pro Bono Program that was covered under this collection. The name of the information collection has been adjusted from “Pro Bono Survey” to “Patent and PTAB Pro Bono Programs” in order to include related programs under this single information collection. This information collection includes an instrument capturing data for the Patent Pro Bono program (Patent Pro Bono Survey) and its applicant participations (Patent Applicant Intake Form). The

information collection also has a similar instrument that covers the collection of data for the PTAB program (PTAB Pro Bono Survey) and the applicants requesting to participate in that PTAB offering (PTAB Applicant Intake Form).
