

mandate on State, local, or Tribal governments in the aggregate, or the private sector of more than \$100 million per year; nor would it have a significant or unique effect on small governments. The proposed supplementary rule would have no effect on governmental or Tribal entities and would impose no requirements on any of these entities. The proposed supplementary rule would merely establish a rule of conduct for public use on a limited selection of public lands and would not affect Tribal, commercial or business activities of any kind. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531 *et seq.*).

Executive Order 12630, Governmental Actions and Interference With Constitutionally Protected Property Rights (Takings)

The proposed supplementary rule does not have significant takings implications, nor is it capable of interfering with constitutionally protected property rights. The proposed supplementary rule would merely establish a rule of conduct for public use on a limited area of public lands and would not affect anyone's property rights. Therefore, the Department of the Interior has determined that the proposed supplementary rule would not cause a "taking" of private property or require preparation of a takings assessment under this Executive order.

Executive Order 13132, Federalism

The proposed supplementary rule would neither have a substantial direct effect on the states, the relationship between the Federal Government and the states, nor the distribution of power and responsibilities among the various levels of government. The proposed supplementary rule would not conflict with any State law or regulation. Therefore, in accordance with Executive Order 13132, the BLM has determined that the supplementary rule does not have sufficient federalism implications to warrant preparation of a federalism assessment.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, the Office of the Solicitor has determined that the proposed supplementary rule would not unduly burden the judicial system and that it meets the requirements of sections 3(a) and 3(b)(2) of the order.

Executive Order 13175, Consultation and Coordination With Tribal Governments

In accordance with Executive Order 13175, the BLM considered consultation and coordination with Tribal governments in the development of the EA which forms the basis for the proposed supplementary rule. It was determined that this proposed supplementary rule does not have Tribal implications and consultation was not conducted.

Energy Supply, Distribution, or Use

Under Executive Order 13211, the BLM has determined that the proposed supplementary rule would not comprise a significant energy action and that it would not have an adverse effect on energy supplies, production, or consumption.

Paperwork Reduction Act

The proposed supplementary rule does not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.* Federal criminal investigations or prosecutions may result from this rule, and the collection of information for these purposes is exempt from the Paperwork Reduction Act, 44 U.S.C. 3518(c)(1).
