POLICIES AND PRACTICES FOR STORAGE OF RECORDS:

Records (or information contained in records) are maintained on paper documents in claims folders (C-folders), vocational rehabilitation folders, electronic file folders (e.g., Virtual VA and TIMS File), and on automated storage media (e.g., microfilm, microfiche, magnetic tape, and disks). Such information may be accessed

through data telecommunication terminal systems designated the Benefits Delivery Network (BDN), Virtual VA and Veterans Service Network (VETSNET). BDN, Virtual VA and VETSNET terminal locations include VA Central Office, VA Regional Offices, VA Medical Centers, and Veterans Integrated Service Network (VISN) offices. Remote on-line access is also made available to authorized remote sites, representatives of claimants and to attorneys of record for claimants. A VA claimant must execute a prior written consent or a power of attorney authorizing access to his or her claims records before VA will allow the representative or attorney to have access to the claimant's automated claims records. Access by representatives and attorneys of record is to be used solely for the purpose of assisting an individual claimant whose records are accessed in a claim for benefits administered by VA.

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Information is retrievable by name only; name and one or more numbers (service, Social Security, VA claims file, and VA insurance file); name and one or more criteria (e.g., date of birth, death, and service); VA file number only; or initials or first five letters of the last name and VA file number.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records in this system are retained and disposed of in accordance with the schedule approved by the Archivist of the United States, VB-1, Part II, Central Office, Item No. 2-13.2.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Access to the basic file in the Corporate Franchise Data Center in Austin, Texas is restricted to authorized VA employees and vendors. Access to working spaces and claims folder file storage areas in VA Regional Offices and VA Medical Centers is restricted to VA employees who have a need-to-know for the performance of their official duties associated with providing Veterans benefits. Generally, file areas are locked after normal duty hours and the offices and centers are protected from outside access by the Federal Protective Service or other security personnel. Access to BDN, Virtual VA and VETSNET data telecommunication networks are

controlled by authorization of the site security officer who is responsible for authorizing access to the BDN, Virtual VA and VETSNET by a claimant's representative or attorney approved for access in accordance with VA regulations. The site security officer is responsible for ensuring that the hardware, software, and security practices of a representative or attorney satisfy VA security requirements before granting access. The security requirements applicable to the access of automated claims files by VA employees also apply to the access of automated claims files by claimants' representatives or attorneys. The security officer is assigned responsibility for implementing and enforcing privacy-security measures, especially for review of violation logs, information logs and control of password distribution, including password distribution for claimants' representatives.
