The matching program provides the SPAAs with VA’s compensation and pension data on a periodic basis to use in determining public assistance applicants’ and recipients’ eligibility for certain public assistance benefits. HHS/ACF/OPRE facilitates the matching program, and the Department of Defense, Defense Manpower Data Center (DoD/DMDC) conducts the matches of SPAA and VA data and provides associated support.

The re-established matching program will commence not sooner than 30 days after publication of this notice, provided no comments are received that warrant a change to this notice. The matching program will be conducted for an initial term of 18 months (from approximately March 2023 through September 2024), and within three months of expiration may be renewed for one additional year if the parties make no change to the matching program and certify that the program has been conducted in compliance with the matching agreement.

SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, as amended (5 U.S.C. 552a), provides certain protections for individuals applying for and receiving Federal benefits. The law governs the use of computer matching by Federal agencies when records in a system of records (meaning, Federal agency records about individuals retrieved by name or other personal identifier) are matched with records of other Federal or non-Federal agencies. The Privacy Act requires agencies involved in a matching program to the following:

1. Obtain approval of a Computer Matching Agreement, prepared in accordance with the Privacy Act, by the Data Integrity Board of each Federal agency that is a source, or recipient of data used in the matching program. 5 U.S.C. 522a(o)(1), (u)(3)(A) and (u)(4).
2. Provide adequate advance notice of the matching program, including a copy of the agreement, to Congress and the Office of Management and Budget (OMB). 5 U.S.C. 522a(o)(2)(A)(i) and (r).
5. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).
6. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual’s benefits or payments, or taking other adverse action against the individual, as required by 5 U.S.C. 552a(o).
7. Provide an annual report of the matching program activities to Congress and OMB, and make the report available to the public. 5 U.S.C. 522a(u)(3)(D).

This matching program meets these requirements.

To gain an in-depth understanding of the perspectives of mentors and peers participating in the PFSP, QOL program subgrantees, and people who serve as regional champions in the Promotional Activities, Outreach, and Collaboration program, eight focus groups will be conducted with no more than eight people per focus group. Additionally, a web-based survey will be administered to a maximum of 400 PFSP peers, 180 PFSP mentors, and 300 people served by QOL subgrantees to understand respondents’ experiences with the NPRC.

This data will contribute to documenting how each of the NPRC’s major activities are delivered and the extent to which they improve the quality of life of people living with paralysis, their caregivers, and their support networks.
