SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through February 28, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on June 13, 2022 during a 60-day comment period (87 FR 35763). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA tips and complaints web form is intended to provide an easy and convenient means by which members of the public can supply information to EPA regarding suspected violations of environmental law. The decision to provide a tip or complaint is entirely voluntary and use of the webform when supplying a tip or complaint is also entirely voluntary. Tippers need not supply contact information or other personal identifiers. Those who do supply such information, however, should know that this information may be shared by EPA with appropriate administrative, law enforcement, and judicial entities engaged in investigating or adjudicating the tip or complaint.

Form Numbers: None.

Respondents/affected entities:

Members of the general public as well as employees of any company subject to federal environmental regulation. There is no specific industry or group of industries about which EPA expects tips or complaints.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 1,585 per month (total).

Frequency of response: Generally, a one-time response.

Total estimated burden: 9,510 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$487,673 (per year), includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 924 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects the fact that tips and complaints are being filed at a higher rate than originally anticipated, a strong indication of the success of this program. Some questions have been removed and a single question has been added, with no expected net change in estimated burden per respondent.

Abstract: EPA administers certification programs for pesticide applicators under section 11 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). FIFRA allows EPA to classify a pesticide as "restricted use" if the pesticide meets certain toxicity or risk criteria. The regulations in 40 CFR part 171 include procedures for certification programs for States, Federal agencies, Indian tribes, or U.S. territories who wish to develop and

implement their own certification plans and programs, after obtaining EPA approval. This ICR addresses the paperwork activities performed by respondents to comply with training and certification requirements associated with applicators of restricted use pesticides (RUPs). Due to the potential of improperly applied RUPs to harm human health or the environment, pesticides under this classification may be purchased and applied only by “certified applicators” or by persons under the direct supervision of certified applicators.

Currently all 50 states, the District of Columbia, 6 territories, 4 tribes and 5 federal agencies are authorized to run their own certification programs within their jurisdictions, but each agency’s certification plan must be approved by EPA before it can be implemented. Agencies authorized by EPA to administer a certification program are collectively referred to as “authorized agencies.”

In areas where no authorized agency has jurisdiction, EPA may administer a certification program directly, (e.g., Federal program). Federal programs require RUP dealers to maintain records of RUP sales and to report and update their names and addresses with the pesticide regulatory agency for enforcement purposes.

This ICR also addresses how registrants of certain pesticide products are expected to perform specific, special paperwork activities, to comply with the terms and conditions of the pesticide registration (e.g., registrants of anthrax-related pesticide products).

Form numbers: EPA Form 8500–17 and EPA Form 8500–17–N.

Respondents/affected entities: Agricultural establishments, pest control officials, pesticide registrants, pesticide dealers, and administrators of environmental protection programs, governmental pest control programs, pesticide applicator certification programs (e.g., authorized agencies), and RUP dealers (only for EPA administrated programs).

Respondent’s obligation to respond: Mandatory (FIFRA sections 3 and 11, and 40 CFR part 171).

Estimated number of respondents: 2,305,613 (total).

Frequency of response: On occasion.

Total estimated burden: 3,660,293 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$165,109,042 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 2,280,849 hours in the total

estimated respondent burden compared with the ICR currently approved by OMB. This increase is the incorporation of the activities and estimated burden associated with the 2015 final rule that amended 40 CFR part 171, which are currently approved under OMB Control Number 2070–0196 (EPA ICR Number 2499.03).

Abstract: The EPA’s regulations in 40 CFR part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Rule), were promulgated pursuant to the Antarctic Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The Rule provides for assessment of the environmental impacts of nongovernmental activities in Antarctica, including tourism, for which the United States is required to give advance notice under Paragraph 5 of Article VII of the Treaty, and for coordination of the review of information regarding environmental impact assessments received from other Parties under the Protocol. The requirements of the Rule apply to operators of nongovernmental expeditions organized or proceeding from the territory of the United States to Antarctica and include commercial and non-commercial expeditions.
