

As a result of this finding, upon the effective date of this notice of adequacy, the North Jersey Transportation Planning Authority (NJTPA) must use the Budgets in future transportation conformity determinations. The Budgets are associated with the reasonable further progress milestone demonstration.

We announced availability of the plan and related Budgets on the EPA's transportation conformity website on March 8, 2022, requesting comments by April 8, 2022. We received no comments in response to the adequacy review posting.

The Budgets are provided in Table 1.

TABLE 1—MOTOR VEHICLE EMISSIONS BUDGETS FOR NJTPA

Transportation conformity is required by Clean Air Act section 176(c), 42 U.S.C. 7506(c). The EPA's conformity rule requires that long-range transportation plans, transportation improvement programs, and transportation projects conform to a state's air quality SIP and establishes the criteria and procedures for determining whether or not they conform. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the NAAQS. *See id.* at section 7506(c)(1)(B).

The criteria the EPA uses to determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4).¹ And we have described our process for determining the adequacy of submitted SIP budgets in 40 CFR 93.118(f). Under 40 CFR 93.104(e), within 2 years of the effective date of this notice, NJTPA and the U.S. Department of Transportation will need to demonstrate conformity to the Budgets. To do so, the on-road motor vehicle emissions from implementation of the long-range transportation plan should be projected consistently with the Budgets.

¹ An adequacy review is separate from the EPA's completeness review and should not be used to prejudice the EPA's ultimate action on the SIP. Even if we find a budget adequate, the SIP could later be disapproved.

Authority: 42 U.S.C. 7401–7671q.
