### Adequacy Status of Motor Vehicle Emissions Budgets for the New Jersey Portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT, 2008 8-Hour Ozone Nonattainment Area

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of adequacy.

**SUMMARY:** In this notice, the EPA is notifying the public that it has found

that the 2020 motor vehicle emissions budgets for volatile organic compounds (VOCs) and nitrogen oxides (NO<sub>x</sub>), submitted by the New Jersey Department of Environmental Protection on November 18, 2021, for the 2008 national ambient air quality standard (NAAQS) for ozone (the Budgets), are adequate for transportation conformity purposes for the New Jersey portion of the New York-Northern New Jersey-Long Island, NY-NJ-CT, 2008 8-hour ozone nonattainment area. This revision to the State Implementation Plan (SIP) included 2020 summer day VOC and NO<sub>x</sub> Budgets associated with the SIP's reasonable further progress demonstration.

**DATES:** This finding is effective March 28, 2023.

You may access this **Federal Register** document electronically from <https://www.federalregister.gov/documents/current>. This finding will also be available at the EPA's conformity website: <https://www.epa.gov/state-and-local-transportation/conformity-adequacy-review-region-2>.

#### SUPPLEMENTARY INFORMATION:

Throughout this document, whenever “we,” “us,” or “our” is used, we mean the EPA.

Today's notice is an announcement of a finding that we have already made. EPA Region 2 sent a letter to the New Jersey Department of Environmental Protection on January 19, 2023, stating that the 2020 motor vehicle emissions budgets (Budgets) are adequate for transportation conformity purposes.

The transportation conformity rule requires that the EPA conduct a public process and make an affirmative decision on the adequacy of these budgets before they can be used by metropolitan planning organizations in transportation conformity determinations.

As a result of this finding, upon the effective date of this notice of adequacy, the North Jersey Transportation Planning Authority (NJTPA) must use the Budgets in future transportation conformity determinations. The Budgets are associated with the reasonable further progress milestone demonstration.

We announced availability of the plan and related Budgets on the EPA's transportation conformity website on March 8, 2022, requesting comments by April 8, 2022. We received no comments in response to the adequacy review posting.

The Budgets are provided in Table 1.

TABLE 1—MOTOR VEHICLE EMISSIONS BUDGETS FOR NJTPA

[tons per day]		
Year	NO <sub>x</sub>	VOC
2020 .....	76.77	42.46

Transportation conformity is required by Clean Air Act section 176(c), 42 U.S.C. 7506(c). The EPA's conformity rule requires that long-range transportation plans, transportation improvement programs, and transportation projects conform to a state's air quality SIP and establishes the criteria and procedures for determining whether or not they conform. Conformity to a SIP means that transportation activities will not produce new air quality violations, worsen existing violations, or delay timely attainment of the NAAQS. *See id.* at section 7506(c)(1)(B).

The criteria the EPA uses to determine whether a SIP's motor vehicle emission budgets are adequate for conformity purposes are outlined in 40 CFR 93.118(e)(4).<sup>1</sup> And we have described our process for determining the adequacy of submitted SIP budgets in 40 CFR 93.118(f). Under 40 CFR 93.104(e), within 2 years of the effective date of this notice, NJTPA and the U.S. Department of Transportation will need to demonstrate conformity to the Budgets. To do so, the on-road motor vehicle emissions from implementation of the long-range transportation plan should be projected consistently with the Budgets.

<sup>1</sup> An adequacy review is separate from the EPA's completeness review and should not be used to prejudice the EPA's ultimate action on the SIP. Even if we find a budget adequate, the SIP could later be disapproved.
