

not subject to Executive Order 13211, entitled “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001); Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997); or Executive Order 13771, entitled “Reducing Regulations and Controlling Regulatory Costs” (82 FR 9339, February 3, 2017). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*) nor does it require any special considerations under Executive Order 12898, entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemption in this action, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or tribes. As a result, this action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, EPA has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, EPA has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (UMRA) (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require EPA’s consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note).

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 174

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: March 6, 2023.

Charles Smith,

Director, Biopesticides and Pollution Prevention Division.

Therefore, for the reasons stated in the preamble, EPA is amending 40 CFR chapter I as follows:

PART 174—PROCEDURES AND REQUIREMENTS FOR PLANT-INCORPORATED PROTECTANTS

- 1. The authority citation for part 174 continues to read as follows:

Authority: 7 U.S.C. 136–136y; 21 U.S.C. 321(q), 346a and 371.

- 2. Add § 174.545 to subpart W to read as follows:

§ 174.545 BLB2 and AMR3 proteins in potato; temporary exemption from the requirement of a tolerance.

Residues of BLB2 and AMR3 proteins in potato are temporarily exempt from the requirement of a tolerance when used as a plant-incorporated protectant in potato in accordance with the terms of Experimental Use Permit No. 8917–EUP–3. This temporary exemption from the requirement of a tolerance expires on March 31, 2024.

[FR Doc. 2023–05246 Filed 3–13–23; 8:45 am]

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[EPA–HQ–OPP–2021–0519; FRL–10544–01–OCSPP]

Bacteriophage Active Against *Pseudomonas syringae* pv. *syringae*; Bacteriophage Active Against *Xanthomonas arboricola* pv. *corylina*; Bacteriophage Active Against *Xanthomonas arboricola* pv. *juglandis*; and Bacteriophage Active Against *Xanthomonas arboricola* pv. *pruni*; Exemptions From the Requirement of Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes exemptions from the requirement of a tolerance for residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*, in or on all food commodities when used in accordance with label directions and good agricultural practices. OmniLytics, Inc. submitted a petition to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA), requesting an exemption from the requirement of a tolerance. This regulation eliminates the need to establish a maximum permissible level for residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* under FFDCA when used in accordance with this exemption.

DATES: This regulation is effective March 14, 2023. Objections and requests for hearings must be received on or before May 15, 2023, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2021–0519, is available at <https://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301

Constitution Ave. NW, Washington, DC 20004. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room and OPP Docket is (202) 566-1744. For the latest status information on EPA/DC services, docket access, visit <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

Charles Smith, Biopesticides and Pollution Prevention Division (7511M), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; main telephone number: (202) 566-1400; email address: BPPDFRNotices@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. How can I get electronic access to other related information?

You may access a frequently updated electronic version of 40 CFR part 180; through the Office of the Federal Register's e-CFR site at <https://www.ecfr.gov/current/title-40>.

C. How can I file an objection or hearing request?

Under FFDCA section 408(g), 21 U.S.C. 346a(g), any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. You must file your objection or request a hearing on this regulation in accordance with the instructions provided in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket ID number EPA-HQ-OPP-2021-0519 in the subject line on the first page of your submission. All objections and requests for a hearing must be in writing and must be received by the Hearing Clerk on or before May 15, 2023. Addresses for mail and hand

delivery of objections and hearing requests are provided in 40 CFR 178.25(b), although EPA strongly encourages those interested in submitting objections or a hearing request to submit objections and hearing requests electronically. See Order Urging Electronic Service and Filing (April 10, 2020), https://www.epa.gov/sites/default/files/2020-05/documents/2020-04-10_order_urguing_electronic_service_and_filing.pdf. At this time, because of the COVID-19 pandemic, the judges and staff of the Office of Administrative Law Judges are working remotely and not able to accept filings or correspondence by courier, personal delivery, or commercial delivery, and the ability to receive filings or correspondence by U.S. Mail is similarly limited. When submitting documents to the U.S. EPA Office of Administrative Law Judges (OALJ), a person should utilize the OALJ e-filing system at https://yosemite.epa.gov/oal/eab/eab-alj_upload.nsf.

Although EPA's regulations require submission via U.S. Mail or hand delivery, EPA intends to treat submissions filed via electronic means as properly filed submissions during this time that the Agency continues to maximize telework due to the pandemic; therefore, EPA believes the preference for submission via electronic means will not be prejudicial. If it is impossible for a person to submit documents electronically or receive service electronically, e.g., the person does not have any access to a computer, the person shall so advise OALJ by contacting the Hearing Clerk at (202) 564-6281. If a person is without access to a computer and must file documents by U.S. Mail, the person shall notify the Hearing Clerk every time it files a document in such a manner. The address for mailing documents is U.S. Environmental Protection Agency, Office of Administrative Law Judges, Mail Code 1900R, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

In addition to filing an objection or hearing request with the Hearing Clerk as described in 40 CFR part 178, please submit a copy of the filing (excluding any Confidential Business Information (CBI)) for inclusion in the public docket. Information not marked confidential pursuant to 40 CFR part 2 may be disclosed publicly by EPA without prior notice. Submit the non-CBI copy of your objection or hearing request, identified by docket ID number EPA-HQ-OPP-2021-0519, by one of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the online instructions for submitting

comments. Do not submit electronically any information you consider to be CBI or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <https://www.epa.gov/dockets/where-send-comments-epa-dockets>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

II. Background

In the **Federal Register** of September 22, 2021 (86 FR 52624) (FRL-8792-03-OCSP), EPA issued a notice pursuant to FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), announcing the filing of a pesticide tolerance exemption petition (PP 1F8907) by OmniLytics, Inc., 9075 S Sandy Parkway, Sandy, UT 84070. The petition requested that 40 CFR part 180 be amended by establishing an exemption from the requirement of a tolerance for residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* in or on all food commodities. That notice referenced a summary of the petition prepared by the petitioner OmniLytics, Inc. and is available in the docket via <https://www.regulations.gov>. EPA received no comments in response to the notice of filing.

III. Final Rule

A. EPA's Safety Determination

Section 408(c)(2)(A)(i) of FFDCA allows EPA to establish an exemption from the requirement of a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the exemption is "safe." Section 408(c)(2)(A)(ii) of FFDCA defines "safe" to mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information." This includes exposure through drinking water and in residential settings but does not include occupational exposure. Pursuant to FFDCA section 408(c)(2)(B), in

establishing or maintaining in effect an exemption from the requirement of a tolerance, EPA must take into account the factors set forth in FFDCA section 408(b)(2)(C), which require EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance or tolerance exemption and to “ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue. . . .” Additionally, FFDCA section 408(b)(2)(D) requires that EPA consider “available information concerning the cumulative effects of [a particular pesticide’s] . . . residues and other substances that have a common mechanism of toxicity.”

EPA evaluated the available toxicological and exposure data on Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* and considered their validity, completeness, and reliability, as well as the relationship of this information to human risk. A full explanation of the data upon which EPA relied and its risk assessment based on those data can be found within the document entitled “Human Health Risk Assessment of Bacteriophages active against *Pseudomonas syringae* pv. *syringae*, *Xanthomonas arboricola* pv. *corylina*, *Xanthomonas arboricola* pv. *juglandis*, and *Xanthomonas arboricola* pv. *pruni*, New Active Ingredients, in 67986–RN AgriPhage Nut & Stone Fruit Proposed for Registration and an Associated Petition Requesting a Tolerance Exemption” (Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*, Human Health Risk Assessment). This document, as well as other relevant information, is available in the docket for this action as described under **ADDRESSES**.

The available data and information demonstrated that, with regard to humans, Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against

Xanthomonas arboricola pv. *pruni* are not anticipated to be toxic, pathogenic, or infective via any route of exposure. Significant dietary and non-occupational exposures to residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* are not expected due to the inability of bacteriophage to persist when the specific bacterial hosts are not present and sensitivity to environmental conditions (e.g., ultraviolet light and heat). Even if dietary and non-occupational exposures to residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* were to occur, there is not a concern due to the lack of potential for adverse effects and lack of significant exposure since bacteriophage populations are expected to decrease rapidly when host bacteria are not present, since bacteriophage persist only in the presence of the specific bacterial hosts and due to environmental conditions (e.g., ultraviolet light and heat). Because there are no threshold levels of concern with the toxicity, pathogenicity, or infectivity of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*, EPA determined that the additional margin of safety referred to as the Food Quality Protection Act Safety Factor is not necessary to protect infants and children as part of the qualitative assessment conducted.

Based upon its evaluation in the Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* Human Health Risk Assessment, which concludes that there are no potential risks of concern from aggregate exposure to Bacteriophage active against *Pseudomonas syringae* pv. *syringae*,

Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*, EPA determines that there is a reasonable certainty that no harm will result to the U.S. population, including infants and children, from aggregate exposure to residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*. Therefore, exemptions from the requirement of a tolerance are established for residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*, in or on all food commodities when used in accordance with label directions and good agricultural practices.

B. Analytical Enforcement Methodology

An analytical method is not required for Bacteriophage active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* because EPA is establishing exemptions from the requirement of a tolerance without any numerical limitation.

C. Conclusion

Therefore, exemptions from the requirement of a tolerance are established for residues of Bacteriophages active against *Pseudomonas syringae* pv. *syringae*, Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*, Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*, and Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* in or on all food commodities when used in accordance with label directions and good agricultural practices.

IV. Statutory and Executive Order Reviews

This action establishes tolerance exemptions under FFDCA section 408(d) in response to a petition submitted to EPA. The Office of

Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled “Regulatory Planning and Review” (58 FR 51735, October 4, 1993). Because this action has been exempted from review under Executive Order 12866, this action is not subject to Executive Order 13211, entitled “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001), or Executive Order 13045, entitled “Protection of Children from Environmental Health Risks and Safety Risks” (62 FR 19885, April 23, 1997). This action does not contain any information collections subject to OMB approval under the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations” (59 FR 7629, February 16, 1994).

Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance exemptions in this action, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply.

This action directly regulates growers, food processors, food handlers, and food retailers, not States or Tribes. As a result, this action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4). As such, EPA has determined that this action will not have a substantial direct effect on States or Tribal Governments, on the relationship between the National Government and the States or Tribal Governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian Tribes. Thus, EPA has determined that Executive Order 13132, entitled “Federalism” (64 FR 43255, August 10, 1999), and Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR

67249, November 9, 2000), do not apply to this action. In addition, this action does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*).

This action does not involve any technical standards that would require EPA’s consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act (15 U.S.C. 272 note).

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: March 6, 2023.

Edward Messina,
Director, Office of Pesticide Programs.

Therefore, for the reasons stated in the preamble, EPA is amending 40 CFR chapter I as follows:

PART 180—TOLERANCES AND EXEMPTIONS FOR PESTICIDE CHEMICAL RESIDUES IN FOOD

■ 1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), 346a and 371.

■ 2. Add §§ 180.1399, 180.1400, 180.1401, and 180.1402 to subpart D to read as follows:

* * * * *

Sec.

180.1399 Bacteriophage active against *Pseudomonas syringae* pv. *syringae*; exemption from the requirement of a tolerance.

180.1400 Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*;

exemption from the requirement of a tolerance.

180.1401 Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*; exemption from the requirement of a tolerance.

180.1402 Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*; exemption from the requirement of a tolerance.

§ 180.1399 Bacteriophage active against *Pseudomonas syringae* pv. *syringae*; exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for residues of Bacteriophage active against *Pseudomonas syringae* pv. *syringae* in or on all food commodities when used in accordance with label directions and good agricultural practices.

§ 180.1400 Bacteriophage active against *Xanthomonas arboricola* pv. *corylina*; exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for residues of Bacteriophage active against *Xanthomonas arboricola* pv. *corylina* in or on all food commodities when used in accordance with label directions and good agricultural practices.

§ 180.1401 Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis*; exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for residues of Bacteriophage active against *Xanthomonas arboricola* pv. *juglandis* in or on all food commodities when used in accordance with label directions and good agricultural practices.

§ 180.1402 Bacteriophage active against *Xanthomonas arboricola* pv. *pruni*; exemption from the requirement of a tolerance.

An exemption from the requirement of a tolerance is established for residues of Bacteriophage active against *Xanthomonas arboricola* pv. *pruni* in or on all food commodities when used in accordance with label directions and good agricultural practices.

[FR Doc. 2023–05003 Filed 3–13–23; 8:45 am]

BILLING CODE 6560–50–P
