

described in the FR Notice announcing the issuance of the initial IHA (April 6, 2022, 87 FR 19886);

- The Navy must submit a draft report detailing all monitoring within ninety calendar days of the completion of marine mammal monitoring or sixty days prior to the issuance of any subsequent IHA for this project, whichever comes first;
- The Navy must prepare and submit final report within thirty days following resolution of comments on the draft report from NMFS;
- The Navy must submit all PSO datasheets and/or raw sighting data (in a separate file from the Final Report referenced immediately above); and
- The Navy must report injured or dead marine mammals.

Comments and Responses

As noted previously, NMFS published a notice of a proposed IHA (March 3, 2022, 87 FR 11860) and solicited public comments on both our proposal to issue the initial IHA for the Navy's construction activities and on the potential for a renewal IHA, should certain requirements be met. During the 30-day public comment period, NMFS received no comments on either the proposal to issue the initial IHA for the Navy's construction activities or on the potential for a renewal IHA.

Preliminary Determinations

The proposed renewal request consists of a subset of activities analyzed through the initial authorization described above. In analyzing the effects of the activities for the initial IHA, NMFS determined that the Navy's activities would have a negligible impact on the affected species or stocks and that authorized take numbers of each species or stock were small relative to the relevant stocks (*e.g.*, less than one-third the abundance of all stocks). Although new SPL information became available for DTH and rock hammering, none of this new information affects NMFS' determinations supporting issuance of the initial IHA. The mitigation measures and monitoring and reporting requirements as described above are identical to the initial IHA.

NMFS has preliminarily concluded that there is no new information suggesting that our analysis or findings should change from those reached for the initial IHA. Based on the information and analysis contained here and in the referenced documents, NMFS has determined the following: (1) the required mitigation measures will effect the least practicable impact on marine mammal species or stocks and their

habitat; (2) the authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the authorized takes represent small numbers of marine mammals relative to the affected stock abundances; (4) the Navy's activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action, and; (5) appropriate monitoring and reporting requirements are included.

Endangered Species Act

No incidental take of ESA-listed species is authorized or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Proposed Renewal IHA and Request for Public Comment

As a result of these preliminary determinations, NMFS proposes to issue a renewal IHA to the Navy for construction activities associated with the multifunctional expansion of Dry Dock 1 project at Portsmouth Naval Shipyard in Kittery, from the date of issuance through March 31, 2024, provided the previously described mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed and final initial IHA can be found at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. We request comment on our analyses, the proposed renewal IHA, and any other aspect of this notice. Please include with your comments any supporting data or literature citations to help inform our final decision on the request for MMPA authorization.

DEPARTMENT OF COMMERCE

National Technical Information Service

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Limited Access Death Master File (LADMF) Accredited Conformity Assessment Body Application for Firewalled Status Form

The Department of Commerce will submit the following information collection request to the Office of

Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 27, 2022, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Technical Information Service, Commerce.

Title: Limited Access Death Master File Accredited Conformity Assessment Body Application for Firewalled Status Form.

OMB Control Number: 0692-0015.

Form Number(s): NTIS FM101.

Type of Request: Regular submission. Extension of currently approved collection.

Number of Respondents: 65.

Average Hours per Response: 1 hour.

Burden Hours: 65.

Needs and Uses: NTIS issued a final rule establishing a program through which persons may become eligible to obtain access to Death Master File (DMF) information about an individual within three years of that individual's death. The final rule was promulgated under Section 203 of the Bipartisan Budget Act of 2013, Public Law 113-67 (Act). The Act prohibits the Secretary of Commerce (Secretary) from disclosing DMF information during the three-year period following an individual's death (Limited Access DMF), unless the person requesting the information has been certified to access the Limited Access DMF pursuant to certain criteria in a program that the Secretary establishes. The Secretary delegated the authority to carry out Section 203 to the Director of NTIS.

The final rule requires that, in order to become certified, a Person must submit a written attestation from an "Accredited Conformity Assessment Body" (ACAB), as defined in the final rule, that such Person has systems, facilities, and procedures in place to protect the security of the Limited Access DMF, as required under 15 CFR 1110.102(a). A Certified Person also must provide a new written attestation periodically for renewal of its certification as specified in the final rule. The ACAB must be independent of the Person or Certified Person seeking certification, unless it is a conformity assessment body that qualifies for

“firewalled status” pursuant to 15 CFR 1110.502.

The Firewalled Status Application Form collects information that NTIS will use to evaluate whether the respondent qualifies for “firewalled status” under the regulations, and, therefore, can provide a written attestation in lieu of an independent ACAB’s attestation. This information includes specific requirements of 15 CFR 1110.502(b), which the responding ACAB must certify are satisfied, and the provision of specific information by the responding ACAB, such as the identity of the Person or Certified Person that would be the subject of the attestation and the basis upon which the certifications were made.

Affected Public: Accredited Conformity Assessment Bodies seeking firewalled status under 15 CFR 1110.502 because they are “owned, managed, or controlled by [the] Person or Certified Person that is the subject of attestation or audit by the Accredited Conformity Assessment Body applying the characteristics set forth under section 1110.501(a)(1).”

Frequency: Once a year.

Respondent’s Obligation: Voluntary.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain.
