Estimated Number of Respondents: 283,857 (94,619 annualized).

Estimated Time per Response: 1.34 hours.

Expiration Date: April 30, 2023.

Frequency of Response: One-time information collection.

Estimated Total Annual Burden: 380,368 (126,789 annualized).

Background

FMCSA registers for-hire motor carriers of regulated commodities and of passengers, under 49 U.S.C. 13902(a); surface freight forwarders, under 49 U.S.C. 13903; property brokers, under 49 U.S.C. 13904; and certain Mexico-domiciled motor carriers, under 49 U.S.C. 13902(c). These motor carriers may conduct transportation services in the United States only if they are registered with FMCSA. Each registration is effective from the date specified and remains in effect for such period as the Secretary of Transportation determines by regulations.

The final rule titled “Unified Registration System,” (78 FR 52608) dated August 23, 2013, implemented statutory provisions for an online registration system for entities that are subject to FMCSA’s licensing, registration, and certification regulations. URS streamlines the registration process and serves as a clearinghouse and repository of information on motor carriers, brokers, freight forwarders, intermodal equipment providers, hazardous

materials safety permit applicants, and cargo tank facilities required to register with FMCSA. When developing URS, FMCSA planned that the OP-1 series of forms (except for OP-1(MX)) would ultimately be folded into one overarching form (MCSA-1), which would be used by all motor carriers seeking authority.

FMCSA began a phased rollout of URS in 2015. The first phase, which became effective on December 12, 2015, impacts only first-time applicants seeking an FMCSA-issued registration. FMCSA had planned subsequent rollout phases for existing registrants; however, there have been substantial delays, and subsequent phases have not been rolled out to date.

On January 17, 2017, FMCSA issued a final rule titled “Unified Registration System; Suspension of Effectiveness,” which indefinitely suspended URS effectiveness dates for existing registrants only (82 FR 5292). Pursuant to this final rule, FMCSA is still accepting forms OP-1, OP-1(P), OP-1(FF), and OP-1(NNA) for existing registrants wishing to apply for additional authorities. Separately, FMCSA requires Form OP-1(MX) for Mexico-domiciled carriers that wish to operate beyond the U.S. municipalities on the U.S.-Mexico border and their commercial zones.

As described above, only first-time applicants seeking an FMCSA-issued registration must apply for authority via URS, using Form MCSA-1. Under URS, all forms described in the current ICR, except OP-1(MX), are folded into Form MCSA-1. Information collection activities associated with the OP-1 series of forms are covered under a different ICR, titled “Licensing Applications for Motor Carrier Operating Authority,” OMB Control No. 2126-0016.

Form MCSA-1 requests information to identify the applicant, the nature and scope of its proposed operations, safety-related details, and information regarding the drivers and vehicles it plans to use in U.S. operations. FMCSA and the States use registration information collected via Form MCSA-1 to track motor carriers, freight forwarders, brokers, and other entities they regulate. Registering motor carriers is essential to being able to identify carriers so that their safety performance can be tracked and evaluated. The data make it possible to link individual trucks to the responsible motor carrier, thus implementing the mandate under 49 U.S.C. 31136(a)(1); that is, ensuring that CMVs are maintained and operated safely. In general, registration information collected via Form MCSA-

1 informs prioritization of the Agency’s activities and aids in assessing and statistically analyzing the safety outcomes of those activities.

The current information collection supports the DOT Strategic Goal of Safety. It streamlines registration processes and ensures that FMCSA can more efficiently track motor carriers, freight forwarders, brokers, and other entities regulated by the Agency.

PUBLIC COMMENTS INVITED: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA’s functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information.

FOR FURTHER INFORMATION CONTACT: Jeff Secrist, Office of Registration and Safety Information, DOT, FMCSA, West Building 6th Floor, 1200 New Jersey Avenue SE, Washington, DC 20590–0001; 202–385–2367; email jeff.secrist@dot.gov.

SUPPLEMENTARY INFORMATION:

Background: FMCSA registers for-hire motor carriers of regulated commodities under 49 U.S.C. 13902, surface freight forwarders under 49 U.S.C. 13903, and property brokers under 49 U.S.C. 13904. Each registration is effective from the date specified under 49 U.S.C. 13905 (c). Subsection (d) of 49 U.S.C. 13905 also provides that on application of the registrant, the Secretary may amend or revoke a registration, and hence the registrant’s operating authority. Form OCE–46 allows these registrants to apply voluntarily for revocation of their operating authority or parts thereof. If the registrant fails to maintain evidence of the required level of insurance coverage on file with FMCSA, its operating authority will be revoked involuntarily. Although the effect of both types of revocation is the same, some registrants prefer to request voluntary revocation. For various business reasons, a registrant may request revocation of some part, but not all, of its operating authority. This information collection, which supports the DOT Strategic Goal of Safety, is being revised to reflect modified estimates of burden hours and costs. For respondents, the program adjustment has resulted in increased total burden hours and an increase in respondent costs. The burden hour increase is due to an estimated increase in the number of annual filings of Form OCE–46 from 5,901 to 8,699 per year, resulting in an increase of 2,798 responses and 700 burden hours. The estimated annual labor cost for industry resulting from submitting Form OCE–46 is \$67,287, an increase of \$17,760. The total annual respondent cost has increased by \$7,992. This increase is due to the increase in the number of respondents filing paper forms. While the online submission option exists, FMCSA still estimates that approximately 2,310 respondents will continue to file the form by mail, which incurs notarization and postage fees. For the Federal Government, the program costs have increased by \$19,707 due to the increase in the number of forms received by FMCSA.

Title: Request for Revocation of Authority Granted.

OMB Control Number: 2126–0018.

Type of Request: Renewal of a currently-approved ICR.

Respondents: For-hire motor carriers, freight forwarders, and property brokers.

Estimated Number of Respondents: 8,699.

Estimated Time per Response: 15 minutes (0.25 hours).

Expiration Date: September 30, 2023.

Frequency of Response: Other (As needed).

Estimated Total Annual Burden: 2,175.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA’s functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB’s clearance of this ICR.
