

latter regulations apply to electric arc furnaces, argon-oxygen decarburization vessels, and dust-handling systems that commenced construction, modification, or reconstruction after August 17, 1983 at steel plants that produce carbon, alloy, or specialty steels. New facilities include those that commenced construction, modification or reconstruction after the date of proposal. This information is being collected to assure compliance with 40 CFR part 60, subparts AA and AAa. EPA proposed revisions to Subparts AA and AAa and proposed a new Subpart AAb on May 16, 2022 (87 FR 29710). The burden for these requirements is not included in this renewal and will be accounted for once the rule is finalized. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form numbers: None.

Respondents/affected entities: Steel plants that produce carbon, alloy, or specialty steels.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subparts AA and AAa).

Estimated number of respondents: 90 (total).

Frequency of response: Initially, semiannually.

Total estimated burden: 56,700 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$7,000,000 (per year), which includes \$198,000 in annualized capital/startup and/or operation & maintenance costs.

Changes in the estimates: There is an adjustment decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This decrease is not due to any program changes. The change in the burden and cost estimates is due to a decrease in the average number of respondents per year subject to subparts AA and AAa based on information gathered by EPA for a proposed rulemaking. Although there was a decrease in the average number of respondents per year, there was an increase in the number of new sources each year. This resulted in an adjustment increase to the total capital/startup cost. There is an adjustment

decrease in the operation and maintenance (O&M) costs as calculated in section 6(b)(iii) compared with the costs in the previous ICR due to the decreased number of respondents based on more recent information provided by EPA.

Courtney Kerwin,

Director, Regulatory Support Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OLEM-2018-0691, FRL-10837-01-OMS]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Standardized Permit for RCRA Hazardous Waste Management Facilities (Renewal)

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Standardized Permit for RCRA Hazardous Waste Management Facilities (EPA ICR Number 1935.07, OMB Control Number 2050-0182) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2023. Public comments were previously requested via the **Federal Register** on July 15, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before April 24, 2023.

ADDRESSES: Submit your comments, referencing Docket ID No. EPA-HQ-OLEM-2018-0691, to EPA, either online using www.regulations.gov (our preferred method), or by mail to: RCRA Docket (2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Jeff Gaines, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: 202-566-0332; gaines.jeff@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through March 31, 2023. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** (87 FR 42460) on July 15, 2022 during a 60-day comment period. This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov. Materials can also be viewed at the Reading Room located at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Avenue NW, Washington, DC 20004. The Docket Center's hours of operations are 8:30 a.m.–4:30 p.m., Monday–Friday (except Federal Holidays). The telephone number for the Docket Center is 202-566-1744.

Abstract: Under the authority of sections 3004, 3005, 3008 and 3010 of the Resource Conservation and Recovery Act (RCRA), as amended, EPA revised the RCRA hazardous waste permitting program to allow a "standardized permit." The standardized permit is available to facilities that generate hazardous waste and routinely manage the waste on-site in non-thermal units such as tanks, containers, and containment buildings. In addition, the standardized permit is available to facilities that receive hazardous waste generated off-site by a generator under the same ownership as the receiving facility, and then store or non-thermally treat the hazardous waste in containers, tanks, or containment buildings. The RCRA standardized permit consists of two components: a uniform portion that is included in all cases, and a supplemental portion that the Director of a regulatory agency

includes at his or her discretion. The uniform portion consists of terms and conditions, relevant to the unit(s) at the permitted facility, and is established on a national basis. The Director, at his or her discretion, may also issue a supplemental portion on a case-by-case basis. The supplemental portion imposes site-specific permit terms and conditions that the Director determines necessary to institute corrective action under section 264.101 (or state equivalent), or otherwise necessary to protect human health and the environment. Owners and operators have to comply with the terms and conditions in the supplemental portion, in addition to those in the uniform portion.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are business or other for-profit.

Respondent's obligation to respond: Voluntary (40 CFR 270.275).

Estimated number of respondents: 1.

Frequency of response: One time.

Total estimated burden: 218 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$19,873 (per year), includes \$693 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in hour burden included in this ICR. There is a slight increase in capital/O&M costs due to updated estimates.

Courtney Kerwin,

Director, Regulatory Support Division.

FIFRA Scientific Advisory Panel; Examination of Microcosm/Mesocosm Studies for Evaluating the Effects of Atrazine on Aquatic Plant Communities; Request for Nominations of Ad Hoc Expert Reviewers and Notice of Public Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or "Agency") is seeking public nominations of scientific and technical experts that EPA can consider for service as *ad hoc* reviewers assisting the Federal Insecticide, Fungicide, and Rodenticide Act Scientific Advisory

Panel (FIFRA SAP) with the review of the Agency's reevaluation of 11 atrazine microcosm and mesocosm studies identified by the 2012 FIFRA SAP as warranting further review. EPA currently anticipates selecting approximately 8–12 *ad hoc* reviewers and plans to make a list of candidates under consideration as prospective *ad hoc* reviewers for this review available for public comment by late May 2023. EPA is also announcing that a virtual public meeting of the FIFRA SAP is being scheduled in August 2023. In July 2023, EPA plans to release the reevaluation document submitted to the FIFRA SAP for peer review, along with all background documents, related supporting materials and draft charge questions provided to the FIFRA SAP. At that time, EPA will publish a separate document in the **Federal Register** to announce the availability of and solicit public comment on the draft reevaluation document and provide instructions for submitting comments and registering to provide oral comments at the August 2023 meeting.

DATES: The following is a chronological listing of the dates for the specific activities that are described in more detail under **SUPPLEMENTARY INFORMATION**.

April 24, 2023—Deadline for submitting all nominations to EPA.

August 8, 2023—Deadline for submitting a request for special accommodations to allow EPA time to process the request before the meeting.

August 22–24, 2023, from 10 a.m. to approximately 5:30 p.m. (ET)—The public virtual meeting will be held via a webcast platform such as "Zoomgov.com" and audio teleconference, and you must register to receive the links.

ADDRESSES: Nominations: Submit your nominations via email to the Designated Federal Official (DFO) listed under **FOR FURTHER INFORMATION CONTACT**.

Special accommodations: For information on meeting access or services for individuals with disabilities, and to request accommodation for a disability, please contact the DFO listed under **FOR FURTHER INFORMATION CONTACT**.

FOR FURTHER INFORMATION CONTACT: Contact the DFO, Tamue Gibson, Mission Support Division, Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency; telephone number: (202) 564-7642 or call the FIFRA SAP main office at (202) 564-8450; email address: gibson.tamue@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. What action is the Agency taking?

The Agency is seeking public nominations of scientific and technical experts that the EPA can consider for service as *ad hoc* reviewers assisting the FIFRA SAP with the review of the Agency's reevaluation of 11 atrazine microcosm and mesocosm studies identified by the 2012 FIFRA SAP as warranting further review. The EPA is also announcing the scheduling of a 3-day public virtual meeting for the FIFRA SAP to review the reevaluation document. The EPA will be soliciting comments from the FIFRA SAP on the reanalysis document related to 11 microcosm and mesocosm studies examining the toxicity of atrazine to the *exposed* aquatic plant communities.

This document provides instructions for submitting nominations for *ad hoc* reviewers, requesting special accommodations for the public virtual meeting, and accessing the materials provided to the FIFRA SAP. The EPA will publish a separate document in the **Federal Register** in early July 2023 to announce the availability of and solicit public comment on the reevaluation document, and to provide instructions for submitting comments, and registering to provide oral comments.

B. Does this action apply to me?

This action is directed to the public in general.

C. What should I consider as I submit my nominations to EPA?

1. *Submitting Confidential Business Information (CBI).* Do not submit CBI or other sensitive information to EPA through <https://www.regulations.gov> or email. If your nomination contains any information that you consider to be CBI or otherwise protected, please contact the DFO listed under **FOR FURTHER INFORMATION CONTACT** to obtain special instructions before submitting that information.

2. *Tips for preparing comments.* When preparing and submitting your comments, see Tips for Effective Comments at <https://www.epa.gov/dockets>.

II. Nominations for Ad Hoc Reviewers

A. What is the purpose of the FIFRA SAP?

The FIFRA SAP serves as one of the primary scientific peer review mechanisms of EPA's Office of Chemical Safety and Pollution Prevention (OCSPP) and is structured to provide independent scientific advice, information, and recommendations to the EPA Administrator on pesticides
