Title of Collection: Current Population Survey Civic Engagement and Volunteering Supplement.

OMB Control Number: 3045–0139.

Type of Review: Renewal.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 60,000.

Total Estimated Number of Annual Burden Hours: 6,670.

Abstract: AmeriCorps is mandated by the Serve America Act of 2009 to produce an annual Civic Health Assessment in partnership with the National Conference on Citizenship. Volunteering and Civic Life reports, tables and data are made public on the AmeriCorps VCLA website and specialized tables are made available upon request.

The proposed survey will be the only source of nationally representative data on the number of Americans who are active in their communities through volunteering, social interactions, and civic behaviors. These measures include formal volunteering in an organization; a person's interactions with family, friends and neighbors; participation in community events; informal interactions; communication with one another on issues of public concern; and interactions with public and private institutions.

AmeriCorps has partnered with the US Census and the Bureau of Labor Statistics to collect data and produced annual volunteering reports since 2002. Currently, AmeriCorps is soliciting comments concerning its proposed renewal of the Current Population Survey Volunteering and Civic Engagement Supplement. AmeriCorps is directed by Congress to collect data and produce reports on the Nation's civic health and volunteering activity (Authority: 42 U.S.C. 12639(a); 13 U.S.C. 8(b); 29 U.S.C. 1). AmeriCorps also seeks to continue using the currently approved information collection until the revised information collection is approved by OMB. The currently approved information collection is due to expire on 11/20/2023.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is

necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Needs and Uses:

- *DFARS 252.232–7007, Limitation of Government's Obligation.* The data submitted by contractors enables contracting officers to calculate improved financing opportunities that will provide benefit to both industry (prime contractor and subcontractor level) and the taxpayer. DFARS 252.232–7007 is prescribed for use in solicitations and resultant incrementally-funded fixed-price contracts. Paragraph (c) of the clause requires a written notification from the contractor that: (1) states the estimated date when the total amount payable by the Government, including any cost for termination for convenience, will approximate 85 percent of the total amount then allotted to the contract for performance of the applicable items; (2) states an estimate of additional funding, if any, needed to continue performance of applicable line items up to the next scheduled date for allotment of funds, or to a mutually agreed upon substitute date; and (3) advises the contracting officer of the estimated amount of additional funds that will be required for the timely performance of the items funded pursuant to the clause, for a subsequent period as may be specified in the allotment schedule, or otherwise agreed to by the parties to the contract.

- *DFARS subpart 232.10, Performance-Based Payments, 252.232–*

7012, Performance Based Payments—Whole Contract Basis, and 252.232–7013, Performance Based Payments—Deliverable-Item Basis. Contracting officers use the information provided by contractors to create a cash-flow model for use in evaluating alternative financing arrangements. The analysis tool calculates improved financing opportunities that will provide benefit to both industry (prime contractor and subcontractor level) and the taxpayer. DFARS subpart 232.10 requires the contracting officer, when considering performance-based payments, to obtain from the contractor a proposed performance-based payments schedule which includes all performance-based payments events, completion criteria and event values along with the expected expenditure profile.

DFARS 252.232–7012 requires contractors to report the negotiated value of all previously completed performance-based payments; negotiated value of current performance-based payment(s) event(s); cumulative negotiated value of performance-based payment(s) events completed to date; total costs incurred to date; cumulative amount of payments previously requested; and the payment amount requested for the current performance-based payment.

DFARS 252.232–7013 requires contractors to report the negotiated value of current performance-based payment(s) event(s); cumulative negotiated value of performance-based payment(s) events completed to date; total costs incurred to date; cumulative amount of payments previously requested; and the payment amount requested for the current performance-based payment.
