SUPPLEMENTARY INFORMATION:

Background: The Federal Motor Carrier Safety regulations require minimum training standards for entry-level drivers, and include two separate information collection actions: (1) Training providers must electronically submit information to FMCSA’s Training Provider Registry (TPR) to ensure that they meet the new training provider eligibility requirements and may therefore be listed on a new TPR; and (2) after an individual driver-trainee completes training administered by a training provider listed on the TPR, that training provider must electronically submit training certification information regarding the driver-trainee to the TPR.

¹² 17 CFR 200.30-3(a)(12).

While there have been a number of regulatory actions delaying compliance with these requirements, all have been in effect since February 7, 2022. The information collection estimates included in this renewal action are based on actual data from the TPR and from training certification transactions over the past year.

Title: Training Certification for Entry-Level Commercial Motor Vehicle Operators.

OMB Control Number: 2126–0028.

Type of Request: Renewal of a currently-approved ICR.

Respondents: Training Providers.

Estimated Number of Respondents: 7,774.

Estimated Time per Response (average): 0.55 hours.

Expiration Date: June 30, 2023.

Frequency of Response: All training providers will need to initially register once. Additionally, all registered training providers must update their information at least biennially. They are also required to provide an update if any key information (company name, address, phone number, types of training offered, etc.) changes prior to their biennial update. After an individual driver-trainee completes training administered by a training provider listed on the TPR, that training provider must submit training certification information regarding the driver-trainee to the TPR.

Estimated Total Annual Burden: 80,299 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA's functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB's clearance of this ICR.

Issued under the authority of 49 CFR 1.87.

Associate Administrator, Office of Research and Registration.
