

southeast from the airport, and within 3.4 miles each side of the 346° bearing from the airport, extending from the 3.7-mile radius to 7.7 miles northwest of the airport. This airspace is designed to accommodate arriving IFR operations below 1,500 feet above the surface and departing IFR operations until they reach 1,200 feet above the surface, and will support the airport's transition from VFR to IFR operations.

The Class E5 airspace designation is published in paragraph 6005 of FAA Order JO 7400.11G, dated August 19, 2022, and effective September 15, 2022, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11 is published annually and becomes effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AWP CA E5 Coalinga, CA [New]

New Coalinga Municipal Airport, CA
(Lat. 36°09'44" N, long. 120°17'41" W)

That airspace extending upward from 700 feet above the surface within a 3.7-mile radius of the airport, and within 1.9 miles each side of the 134° bearing from the airport extending from the 3.7-mile radius to 9.4 miles southeast of the airport, and within 3.4 miles each side of the 346° bearing from the airport, extending from the 3.7-mile radius to 7.7 miles northwest of the airport.

Docket No. 22–AGL–31]

RIN 2120–AA66

Establishment of Class E Airspace; Delphi, IN

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E airspace at Delphi, IN. This action

supports the establishment of new public instrument procedures.

DATES: Effective date 0901 UTC, June 15, 2023. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order JO 7400.11 and publication of conforming amendments.

ADDRESSES: A copy of the Notice of Proposed Rulemaking (NPRM), all comments received, this final rule, and all background material may be viewed online at www.regulations.gov using the FAA Docket number. Electronic retrieval help and guidelines are available on the website. It is available 24 hours each day, 365 days each year.

FAA Order JO 7400.11G, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at www.faa.gov/air_traffic/publications/. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E airspace extending upward from 700 feet above the surface at Delphi Municipal Airport, Delphi, IN, to support instrument flight rule operations at this airport.

History

The FAA published a NPRM for Docket No. FAA 2022–1117 in the **Federal Register** (87 FR 57158; September 19, 2022), establishing Class E airspace at Delphi, IN. Interested parties were invited to participate in this rulemaking effort by submitting

written comments on the proposal to the FAA. Three (3) comments were received. Two (2) supporting the proposed action, and one (1) not applicable to the proposed action. No responses are provided.

Incorporation by Reference

Class E airspace designations are published in paragraph 6005 of FAA Order JO 7400.11, Airspace Designations and Reporting Points, which is incorporated by reference in 14 CFR 71.1 on an annual basis. This document amends the current version of that order, FAA Order JO 7400.11G, dated August 19, 2022 and effective September 15, 2022. FAA Order JO 7400.11G is publicly available as listed in the **ADDRESSES** section of this document. These amendments will be published in the next update to FAA Order JO 7400.11.

FAA Order JO 7400.11G lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This action amends 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Delphi Municipal Airport, Delphi, IN.

This action supports the establishment of public instrument procedures at Delphi Municipal Airport.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially

significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for 14 CFR part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 19, 2022, and effective September 15, 2022, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL IN E5 Delphi, IN [Establish]

Delphi Municipal Airport, IN
(Lat. 40°32′27″ N, long. 86°40′53″ W)

That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of the Delphi Municipal Airport.

Issued in Fort Worth, Texas, on March 29, 2023.

[Docket No. 230322–0082]

RIN 0648–AV85

National Marine Sanctuary Regulations; Corrections and Correcting Amendments

AGENCY: Office of National Marine Sanctuaries (ONMS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Final rule; correction.

SUMMARY: NOAA published a final rule that appeared in the **Federal Register** on January 6, 2023, announcing revisions to the National Marine Sanctuaries program regulations. This document makes several non-substantive, technical corrections to inadvertent errors that appeared in the final rule.

DATES: This correction and correcting amendments are effective on April 7, 2023.

ADDRESSES: The final rule is accessible via the internet at the Office of the Federal Register website at <https://www.federalregister.gov>.

FOR FURTHER INFORMATION CONTACT: Vicki Wedell, NOAA Office of National Marine Sanctuaries, (240) 533–0650, Vicki.Wedell@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

In the final rule which appeared in the January 6, 2023 **Federal Register** (88 FR 953), there were various inadvertent, technical, and typographical errors in the amendatory instructions. On February 3, 2023, at 88 FR 7357, the effective date was delayed in order to provide NOAA time to prepare technical corrections to the final rule. This document corrects those errors and applies those corrections as if they were included in the final rule that appeared in the January 6, 2023 **Federal Register** publication.

II. Summary of Technical Corrections to Final Rule

NOAA is publishing this correction to revise the regulatory instructions so that implementing regulations are not removed or otherwise altered in unintended ways that would create inaccuracies in the regulatory text and cause public confusion. This correction is effective on April 7, 2023, the date on which the final rule is effective.

Here is a summary of the corrections and correcting amendments NOAA is making.

On page 959, in the second column, § 922.5 is corrected so that it tracks without change, except for renumbering, existing regulatory text published at § 922.42 “Allowed activities”, as shown in the “Correction” section.

On page 965, in the third column, corrects amendatory instruction 14 to remove “Cruise ship” from § 922.81 to ensure consistent interpretation of like terms throughout the System.

On page 965, at the end of the third column, amendatory instruction 15 included an unnecessary and confusing internal cross reference in § 922.82(c) to
