SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information.

OMB Control Number: 2120-0597.

Title: Application for Employment with the Federal Aviation Administration.

Form Numbers: Not applicable (electronic submission).

Type of Review: Renewal of an information collection.

Background:

The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on January 24, 2023 (88 FR 4280). Under the provisions of Public Law 104-50, the Federal Aviation Administration (FAA) is given the authority and the responsibility for developing and implementing its own personnel system without regard to most of the provisions of title 5, United States Code, exceptions being those concerning veteran's preference and various benefits.

The Office of Personnel Management (OPM) developed a suite of forms for use in automated employment processes: all under a single OMB approval. The FAA office of Human Resource Management, Human Resources (AHR) has the same OMB approval for its automated application for employment. By automating processes for employment application and the evaluation of candidates, AHR continues to markedly improve the service it provides to the public as well as its ability to locate and hire the best-qualified applicants. This automated process provides applicants the capability to receive on-line results immediately upon submitting their application questionnaires.

The Agency is requesting certain information necessary to determine basic eligibility for employment and potential eligibility for Veteran's Preference, Veteran's Readjustment Act, and People with Disability appointments. In addition, occupation specific questions assist AHR in determining candidates' qualifications in order that the best-qualified candidates are hired for the many FAA occupations. The system currently in use for this collection is the FAA Automated Vacancy Information Access Tool for Online Referral (AVIATOR). This system cannot be directly accessed. Applicants are transferred to the AVIATOR system from OPM's USAJOBS website during the application process.

Respondents: Over 180,000 U.S. citizens identified as applicants for employment with the Federal Aviation Administration.

Frequency: On occasion/as interested.

Estimated Average Burden per Response: 180,000 hours.

Approximately 180,000 respondents will complete an application form on an as needed basis. Based on this sample size, it will take the average applicant approximately 1 hour to read the instructions and complete the form.

Estimated Total Annual Burden: The estimated total burden is 180,000 hours annually.

Issued in Washington, DC, on March 31, 2023.

Alpha O Woodson-Smith,

Information Technology Project Manager, Finance and Management (AFN), Information and Technology Services (AIT), Enterprise Program Management Service (AEM-320).

Notice of Opportunity for Public Comment on a Proposed Change of Airport Property Land Use From Aeronautical to Non-Aeronautical Use at Tulsa International Airport, Tulsa, OK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The FAA is considering a request from the Tulsa Airport Improvement Trust to change approximately 241.72 acres, located on the east side of the airport bordered by North Mingo Road, 46th Street and

Mingo Valley Expressway, from aeronautical use to non-aeronautical use and to authorize the conversion of the airport property.

DATES: Comments must be received on or before May 5, 2023.

ADDRESSES: Send comments on this document to Mr. Glenn Boles, Federal Aviation Administration, Arkansas/Oklahoma Airports District Office Manager, 10101 Hillwood Parkway, Fort Worth, TX 76177. Email: Glenn.A.Boles@faa.gov.

FOR FURTHER INFORMATION CONTACT: Ms. Alexis Higgins, Chief Executive Officer of Tulsa Airports Improvement Trust, 7777 East Apache, Suite A217, Tulsa, OK 74115, telephone 918-838-5001; or Mr. Glenn Boles, Federal Aviation Administration, Arkansas/Oklahoma Airports District Office Manager, 10101 Hillwood Parkway, Fort Worth, TX 76177, telephone (817) 222-5639. Email: Glenn.A.Boles@faa.gov.

Documents reflecting this FAA action may be reviewed at the above locations.

SUPPLEMENTARY INFORMATION: The proposal consists of three parcels of land that were originally acquired under the following Federal grants: Airport Development Aid Program (ADAP) No. 6-40-0099-015 in 1978 and Airport Improvement Program (AIP) No. 3-40-0099-073-2009 in 2009.

The land comprising these parcels is outside the forecasted need for aviation development and is not needed for indirect or direct aeronautical use. The Airport wishes to develop this land for compatible non-aeronautical use. The Airport will retain ownership of this land and ensure the protection of part 77 surfaces and compatible land use. The income from the conversion of these parcels will benefit the aviation community by reinvestment in the airport.

Approval does not constitute a commitment by the FAA to financially assist in the conversion of the subject airport property nor a determination of eligibility for grant-in-aid funding from the FAA. The disposition of proceeds from the conversion of the airport property will be in accordance with FAA's Policy and Procedures Concerning the Use of Airport Revenue, published in the **Federal Register** on February 16, 1999. In accordance with section 47107(h) of title 49, United States Code, this notice is required to be published in the **Federal Register** 30 days before modifying the land-use assurance that requires the property to be used for an aeronautical purpose.

Issued in Fort Worth, TX.

D. Cameron Bryan,

Acting Director, Airports Division, FAA, Southwest Region.
