

that a host railroad's PTC system complies with Title 49 Code of Federal Regulations (CFR) part 236, subpart I, before the technology may be operated in revenue service. Before making certain changes to an FRA-certified PTC system or the associated FRA-approved PTCSP, a host railroad must submit, and obtain FRA's approval of, an RFA to its PTC system or PTCSP under 49 CFR 236.1021.

Under 49 CFR 236.1021(e), FRA's regulations provide that FRA will publish a notice in the **Federal Register** and invite public comment in accordance with 49 CFR part 211, if an RFA includes a request for approval of a material modification or discontinuance of a signal and train control system. Accordingly, this notice informs the public that, on March 15, 2023, MNR submitted an RFA to its Advanced Civil Speed Enforcement System II (ACSES II), which seeks FRA's approval to discontinue its PTC system temporarily for three months from September 1, 2023, to December 1, 2023, while it installs a new interlocking and makes certain signal system changes. That RFA is available in Docket No. FRA-2010-0032.

Interested parties are invited to comment on MNR's RFA to its PTC system by submitting written comments or data. During FRA's review of this railroad's RFA, FRA will consider any comments or data submitted within the timeline specified in this notice and to the extent practicable, without delaying implementation of valuable or necessary modifications to a PTC system. See 49 CFR 236.1021; see also 49 CFR 236.1011(e). Under 49 CFR 236.1021, FRA maintains the authority to approve, approve with conditions, or deny a railroad's RFA to its PTC system at FRA's sole discretion.

Privacy Act Notice

In accordance with 49 CFR 211.3, FRA solicits comments from the public to better inform its decisions. DOT posts these comments, without edit, including any personal information the commenter provides, to <https://www.regulations.gov>, as described in the system of records notice (DOT/ALL-14 FDMS), which can be reviewed at <https://www.transportation.gov/privacy>. See <https://www.regulations.gov/privacy-notice> for the privacy notice of [regulations.gov](https://www.regulations.gov). To facilitate comment tracking, we encourage commenters to provide their name, or the name of their organization; however, submission of names is completely optional. If you wish to provide comments containing proprietary or confidential information,

please contact FRA for alternate submission instructions.

Issued in Washington, DC.

Carolyn R. Hayward-Williams,

Director, Office of Railroad Systems and Technology.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. DOT-NHTSA-2023-0015]

Agency Information Collection Activities; Notice and Request for Comment; Automated Vehicle Transparency and Engagement for Safe Testing (AV TEST) Initiative

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Notice and request for comments on a request for approval for extension with modification of a currently approved information collection.

SUMMARY: The National Highway Traffic Safety Administration (NHTSA) invites public comments about our intention to request approval from the Office of Management and Budget (OMB) for an extension of a currently approved information collection. Before a Federal agency can collect certain information from the public, it must receive approval from OMB. Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information. This document describes an existing collection of information for NHTSA's Automated Vehicle Transparency and Engagement for Safe Testing (AV TEST) Initiative for which NHTSA intends to seek renewed OMB approval. The AV TEST Initiative involves the voluntary collection of information from entities testing vehicles equipped with automated driving systems (ADS) and from States and local authorities involved in the regulation of ADS testing. The purpose of this collection is to provide information to the public about ADS testing operations in the U.S. and applicable State and local laws, regulations, and guidelines.

DATES: Comments must be submitted on or before June 5, 2023.

ADDRESSES: You may submit comments identified by the Docket No. DOT-

NHTSA-2023-0015 through any of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- **Fax:** 1-202-493-2251.

- **Mail:** Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Room W12-140, Washington, DC 20590, between 9:00 a.m. and 5:00 p.m., Monday through Friday, except on Federal holidays.

- **Hand Delivery or Courier:** West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590-0001 between 9:00 a.m. and 5:00 p.m. ET, Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366-9322 before coming.

- **Instructions:** All submissions must include the agency name and docket number for this proposed collection of information. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below.

- **Privacy Act:** Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477-78) or you may visit <https://www.transportation.gov/privacy>.

- **Docket:** For access to the docket to read background documents or comments received, go to <http://www.regulations.gov> or the street address listed above. To be sure someone is there to help you, please call (202) 366-9322 before coming. Follow the online instructions for accessing the dockets via internet.

FOR FURTHER INFORMATION CONTACT: For additional information or access to background documents, contact Chris Wiacek, Office of Data Acquisition, (NSA-100), Room W53-478, 1200 New Jersey Avenue SE, Washington, DC 20590. Mr. Wiacek's telephone number is (202) 366-4801.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the

public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following: (i) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (ii) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) how to enhance the quality, utility, and clarity of the information to be collected; (iv) how to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In compliance with these requirements, NHTSA asks for public comments on the following proposed collection of information:

Title: Automated Vehicle Transparency and Engagement for Safe Testing ("AV TEST") Initiative.

OMB Control Number: 2127-0748.

Type of Request: Request for approval of an existing information collection.

Type of Review Requested: Regular.

Affected Public: There are two information collection components to this request. The first affects entities engaged in testing of ADS vehicles, including original manufacturers of ADS vehicles and ADS vehicle equipment, and operators of ADS vehicles. The second affects local authorities regulating testing of ADS vehicles within their jurisdictions, including States, cities, counties, and other municipalities.

Request Expiration Date of Approval: Three years from date of approval.

Summary of the Collection of Information: The U.S. Department of Transportation (DOT), National Highway Traffic Safety Administration (NHTSA) was established by Congress to save lives, prevent injuries, and reduce economic costs due to motor vehicle crashes through education, research, safety standards, and enforcement activity. DOT and NHTSA are fully committed to reaching an era of crash-free roadways through the deployment of innovative lifesaving technologies. The prevalence of automotive crashes in the United States underscores the urgency to develop and deploy lifesaving technologies that can

dramatically decrease the number of fatalities and injuries on our Nation's roadways. NHTSA believes that Automated Driving System (ADS) technology, including technology contemplating no human driver at all, has the potential to significantly improve roadway safety in the United States. This technology remains substantially in development phases with companies across the United States performing varying levels of development, research, and testing relating to the performance of various aspects of ADS vehicle technologies. While much of these development operations occur in private facilities and closed-course test tracks, many stakeholders have progressed to conducting ADS vehicle testing on public roads or in public demonstrations. Moreover, to regulate such operations in their jurisdictions, many local authorities, such as States and cities, have passed laws governing ADS vehicle testing on public roads. These statutes, regulations, and ordinances vary, ranging from operational requirements to mandating the submission of periodic reports detailing ADS vehicle operation.

Description of the Need for the Information and Use of the Information: The AV TEST Initiative seeks to enhance public education and engagement with public ADS vehicle testing by coalescing information regarding respondents' various testing operations or requirements into a centralized resource. This information collections seeks voluntarily-provided information from entities performing ADS testing about their operations and information from local authorities about requirements or recommendations for such operations. NHTSA maintains a digital platform on its website that collects information from respondents and makes the information about ADS operations and applicable State and local requirements and recommendations available to members of the public.

The program supports two main objectives. The first objective is to provide the public with access to geographic visualizations of testing at the national, State, and local levels. This information is displayed on a graphic of the United States, with projects overlaid on the geographic areas in which the testing project is taking place. By clicking on a testing location, members of the public will be able see additional information about the operation and the ADS operator. Additional information may include basic information about the ADS operator, a brief statement about the entity, specific details of the testing

activity, high-level (non-confidential) descriptions of the vehicles and technology, photos of the test vehicles, the dates on which testing occurs, frequency of vehicle operations, the number of vehicles participating in the project, the specific streets or areas comprising the testing routes, information about safety drivers and their training, information about engagement with the community and/or local government, weblinks to the company's websites with brief introductory statements, and a link to the company's Voluntary Safety Self-Assessment.¹

The second objective is to provide members of the public with information collected from States and local authorities that regulate ADS operations. State and local authorities are asked to provide weblinks for specific ADS-related topics, such as statutes, regulations, or guidelines for ADS operations, privacy-related issues, emergency response policies and training, or other activities that cultivate ADS testing. This program provides a central resource for the aforementioned information concerning ADS testing across the United States.

Estimated Number of Respondents: NHTSA anticipates that the Initiative could expand to include up to 35 State or local government respondents and 40 ADS developer, ADS vehicle manufacturer, or ADS operator respondents per year.

Frequency: Participation is completely voluntary and each participant will choose its respective degree of involvement and the frequency of its submissions. Therefore, the frequency of a participant's response may vary due to a variety of factors, such as the degree of the entity's participation in the initiative or the frequency with which each entity modifies its ADS testing operations or, in the case of local authorities, amends its regulations governing such operations.

Estimated Total Annual Burden Hours: NHTSA estimates that the annual burden of participation will be approximately 48 hours for private industry respondents that include ADS operators, developers, or vehicle manufacturers. This total number of hours represents approximately four hours per month to perform data entry for testing projects (4 hours × 12 months = 48). Therefore, for the estimated 40

¹ Voluntary Self-Assessments are described in Automated Driving Systems 2.0: A Vision for Safety, available at https://www.nhtsa.gov/sites/nhtsa.dot.gov/files/documents/13069a-ads2.0_090617_v9a_tag.pdf. VSSAs are covered by the PRA Clearance with OMB Control Number 2127-0723.

ADS operator participants, the total burden is estimated to be 1,920 hours per year (40 respondents × 48 hours).

NHTSA estimates that each State or local authority respondent would spend approximately 10 hours responding to this collection. Therefore, for the estimated 35 State or local authority participants, the total burden is estimated to be 350 hours per year.

The total burden for the entire information collection request is estimated to be 2,270 hours (1,920 hours + 350 hours). The total burden hours have been reduced from the original estimate of 2,520 when the agency first sought approval for this information collection because of the lower estimated participation. However, the agency believes the annual hours per respondent has not changed.

The labor cost associated with this collection of information is derived by

(1) applying the appropriate average hourly labor rate published by the Bureau of Labor Statistics, (2) dividing by either 0.705² (70.5%), for private industry workers, or 0.619 (61.9%), for state and local government workers, to obtain the total cost of compensation, and (3) multiplying by the estimated burden hours for each respondent type.

Labor costs associated with original manufacturers of ADS Vehicles or ADS vehicle equipment and operators of ADS vehicles are estimated to be \$60.48 per hour for “Project Management Specialists,” Occupation Code 13–1082, (\$42.64³ per hour ÷ 0.705). The labor cost per private industry respondent for each year for development and submission of information is estimated to be \$2,903.04 (\$60.48 × 48 hours). Therefore, the total annual labor cost for private industry to participate in the AV TEST Initiative is estimated to be

\$116,121.60 (\$2,903.04 × 40 respondents).

Labor costs associated with local and regional authorities, such as states, counties, and cities are estimated to be \$66.79 per hour for “Legal Support Workers,” Occupation Code 23–2099, (\$41.34⁴ per hour ÷ 0.619). The labor cost per regional authority respondent for each year for development and submission of information is estimated to be \$667.90 (\$66.79 × 10 hours). Therefore, the total annual labor cost for regional authorities to participate in the AV TEST Initiative is estimated to be \$23,376.50 (\$667.9 × 35 respondents).

The total annual labor costs for all respondents, private industry and regional authorities together, are estimated to be \$139,499 (\$116,122 + \$23,377). See Table 1 below for a summary of estimated burden hours and estimated labor costs.

TABLE 1—SUMMARY OF ESTIMATED BURDEN HOURS AND ESTIMATED LABOR COSTS

Respondent type	Number of respondents	Annual hours per respondent	Labor cost per hour	Annual labor cost per respondent	Total estimated burden hours	Total annual labor costs
Original Manufacturer of ADS Vehicles or ADS Vehicle Equipment and Operators of ADS Vehicles	40	48	\$60.48	\$2,903.04	1,920	\$116,122
State or Local Authority	35	10	66.79	667.900	350	23,377
Total All Respondents	75	2,270	139,499

Estimated Total Annual Burden Costs: NHTSA estimates that there will be no costs to respondents other than costs associated with burden hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department’s estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as

amended; 49 CFR 1.49; and DOT Order 1351.29.

Chou-Lin Chen,

Associate Administrator, National Center for Statistics and Analysis.

BILLING CODE 4910–59-P

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

[Docket ID OCC–2023–0006]

Minority Depository Institutions Advisory Committee

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice of Federal Advisory Committee meeting.

SUMMARY: The OCC announces a meeting of the Minority Depository

Institutions Advisory Committee (MDIAC).

DATES: The OCC MDIAC will hold a public meeting on Tuesday, April 25, 2023, beginning at 8:15 a.m. Eastern Daylight Time (EDT). The meeting will be in person and virtual.

ADDRESSES: The OCC will hold the April 25, 2023 meeting of the MDIAC at the OCC’s offices at 400 7th Street SW, Washington, DC 20219 and virtually.

FOR FURTHER INFORMATION CONTACT: André King, Designated Federal Officer and Assistant Deputy Comptroller, (202) 649–5420, Office of the Comptroller of the Currency, 400 Seventh Street SW, Washington, DC 20219. If you are deaf, hard of hearing, or have a speech disability, please dial 7–1–1 to access telecommunications relay services. You may also access prior MDIAC meeting materials on the MDIAC page of OCC’s website.¹
