IV. Future Actions

As detailed in the final report, the First Coast Guard District recommends that multiple shipping safety fairways be implemented within the MNMPARS study area. Coast Guard Headquarters Assistant Commandant for Prevention, Office of Navigation Systems (CG-NAV) will consider these recommendations and determine whether to move forward with the rulemaking process.

Under the National Environmental Policy Act (NEPA), the Coast Guard serves as a cooperating agency to the Bureau of Ocean Energy Management (BOEM). In this capacity, the First Coast Guard District has and will continue to coordinate with BOEM throughout the various stages of planning and development of offshore renewable energy infrastructure (OREI) within the study area and will provide evaluations of the potential impacts any proposed OREI may have on the Marine Transportation System, safety of navigation, traditional waterway uses, and the Coast Guard's ability to conduct its 11 statutory missions.

The First Coast Guard District actively monitors all waterways subject to its jurisdiction to help ensure navigation safety. As such, the First Coast Guard District will continue to monitor the area of study for changing conditions and consider appropriate actions to promote waterway and user safety.
