Abstract: The USGS is authorized under SECURE Water Act section 9508 to assist state water-resource agencies with improving their water-use data collection activities. The USGS has implemented the Water Use Data and Research program (WUDR) to work with state water agencies in gathering and analyzing their data and assists this effort via cooperative agreements. The WUDR will work to improve the collection and reporting of water-use categories by state agencies, including categories of water use that were previously discontinued due to limited resources. This collection will be used in reports to Congress on water resources in the Nation. Program authorization is \$1,500,000 per year.

Cooperative agreements will be announced and awarded as part of a competitive process that will be guided, annually, by a technical committee whose members will include representatives from the stakeholder community as well as the USGS. WUDR funds will be coordinated with a single agency in each state.

Revision: As part of the ongoing efforts to include the collection and sharing of water use data, a nationwide data-sharing feasibility study of State and Territory agencies that provide water-use information to the USGS will be conducted. This study will investigate the water-use data availability and identify barriers that may prevent State and Territory agencies from sharing water-use data, in particular site-specific water-use data. Example feasibility study questions include the following: (1) whether water-use location data (latitude/longitude for example) is available to the public, and if so, the format of availability to the public (e.g., website, publication, accessible paper files); (2) sharing the water-use data with other agencies, such as the USGS, and any restrictions for sharing data (such as location and/or water quantity); (3) if information on quantities of water used, such as withdrawals, wastewater return, and sales/deliveries between users, is available to the public, and if so, the restrictions on water-quantity data such as categories of use or time intervals.

Collaboration and coordination with USGS personnel will be required as part of the WUDR program. Data must be stored electronically and made available in machine-readable formats that can be

incorporated into USGS databases. Additionally, methods used for data collection (estimated values, coefficients, etc.) and a description of data quality assurance and control must be provided to the USGS.

Title of Collection: USGS Water Use Data and Research Program Announcement.

OMB Control Number: 1028–0118.

Form Number: None.

Type of Review: Revision of a currently approved collection.

Respondents/Affected Public: State water-resource agencies that collect water-use data.

Total Estimated Number of Annual Respondents: WUDR estimates that 30 respondents (states) will read the Program Announcement, 12 respondents will submit applications, 10 respondents will submit semi-annual progress reports and a final technical report, and 40 respondents (states) will respond to the water-use data-sharing feasibility study.

Total Estimated Number of Annual Responses: 12 applications; 20 progress reports, 10 final technical reports, 40 respondents to water use data sharing feasibility study.

Estimated Completion Time per Response: Read Program announcement: 1 hour; prepare applications: 40 hours; progress reports: 4 hours; final technical report: 24 hours; water use data sharing feasibility study: 8 hours.

Total Estimated Number of Annual Burden Hours: 1,150 hours.

Respondent's Obligation: Response is required to be eligible to receive funding, but it is voluntary to respond to the water-use data-sharing feasibility study.

Frequency of Collection: Program Announcements are published annually. Proposals are submitted annually by State water-resource agencies wishing to compete for funding through the annual Program Announcement. State water-resource agencies that receive a cooperative agreement must submit semi-annual progress reports and a final technical report. State water-resource agencies that respond to the water-use data-sharing feasibility study will only need to respond once with potential clarification questions on study responses.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

Cory Angeroth,

Deputy Program Coordinator, on behalf of Melinda Dalton, Program Coordinator, USGS Water Availability and Use Science Program.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[L13100000.PP0000.LLHQ310000.234; OMB Control No. 1004–0210]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Measurement of Gas

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Land Management (BLM) proposes to renew an information collection.

DATES: Interested persons are invited to submit comments on or before May 8, 2023.

ADDRESSES: Written comments and recommendations for this information collection request (ICR) should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Jennifer Spencer by email at j35spenc@blm.gov, or by telephone at (307) 775–6261. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess

impacts of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on November 15, 2022 (87 FR 68516). No comments were received in response to that notice.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on the proposed ICR described below. The BLM is especially interested in public comment addressing the following:

(1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The BLM is requesting renewal of a control number that pertains to the accurate measurement and proper reporting of all-natural gas removed or sold from Federal and Indian leases, units, unit participating areas, and areas subject to communitization agreements. This OMB Control Number is currently scheduled to expire on April 30, 2023. The BLM request that OMB renew this OMB

Control Number for an additional three years.

Title of Collection: Measurement of Gas (43 CFR Subpart 3175).

OMB Control Number: 1004–0210.

Form Numbers: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Primarily business that operate Federal oil and gas leases. Also lessees, purchasers, and transporters of natural gas from Federal oil and gas leases.

Total Estimated Number of Annual Respondents: 430,782.

Total Estimated Number of Annual Responses: 430,782.

Estimated Completion Time per Response: Varies from 6 minutes to 80 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 95,068.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion and one-time.

Total Estimated Annual Nonhour Burden Cost: \$24,600,894.

An agency may not conduct or sponsor and, notwithstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Darrin King,

Information Collection Clearance Officer.
