BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice of request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995.

DATES: Comments regarding this proposed information collection must be received on or before May 15, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at (202) 395-4718.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Reim, michael.reim@nuclear.energy.gov, (202) 748-3383.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the extended collection of information is necessary for the proper performance of the

functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains:

- (1) *OMB No.:* 1910-NEW;
- (2) *Information Collection Request Titled:* Survey of High-Assay, Low-Enriched Uranium (HALEU) Needs for Civilian Domestic Research, Development, Demonstration, and Commercial Use.;
- (3) *Type of Review:* New;
- (4) *Purpose:* The purpose of this survey is to inform the planning and development of a Department of Energy (DOE) HALEU Availability Program. Section 2001 of The Energy Act of 2020 (Pub. L. 116-260, Dec. 27, 2020) authorizes the Secretary to establish and carry out, through the Office of Nuclear Energy (NE), a program to support the availability of HALEU for civilian domestic research and development, demonstration, and commercial use. The Act authorizes multiple actions to facilitate the development of a commercial HALEU supply chain including a biennial survey of stakeholders to estimate the quantity of HALEU necessary for domestic commercial use, establishing a consortium of fuel cycle entities to partner with DOE in making HALEU available, and to provide HALEU to consortium members during development of commercial domestic sources. NE is developing plans to establish the HALEU Availability Program to implement these and other directed actions, including those related

to HALEU fuel fabrication, enrichment, and transportation.

(5) *Annual Estimated Number of Respondents:* 25;

(6) *Annual Estimated Number of Total Responses:* 25;

(7) *Annual Estimated Number of Burden Hours:* 200;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$13,376.

HALEU is defined as uranium enriched between 5 and 20 percent uranium-235, and HALEU enriched between 10–20 percent will be required by several advanced reactor designs currently under development. Multiple stakeholders will require HALEU for commercial and research purposes in the coming years, including advanced reactor designers, traditional nuclear fuel and nuclear reactor vendors, Advanced Reactor Demonstration Program awardees, and other companies and organizations engaged in nuclear research and development.

For stakeholders that plan to utilize HALEU enriched between 5 and 20 percent, please provide the following information:

- (1) A short summary of the stakeholder’s planned commercial and research needs for HALEU including:
 - a. The type of reactor system or facilities that would use the fuel,
 - b. Projections regarding the number of reactors or facilities, and
 - c. Current status and future plans for licensing and regulatory milestones,
 - d. Plans for U.S. and international deployment.
- (2) The number of metric tons of uranium required per year (MTU/yr) where the year listed is the delivery date of HALEU required for fuel fabrication or fuel qualification experiments.
- (3) The specific enrichment percentage or range of enrichment percentages required between 5 and 20 percent.
- (4) The chemical and physical form of HALEU required (metal, oxide, etc.).

TABLE 1—HALEU NEEDS BY YEAR

	2023	2024	2025	2026	2027	2028–2032	2033–2037
MTU/yr. Specific enrichment % or range of enrichment required between 5–20%.							

(5) For small quantity requests of HALEU of 50 kgU or less please provide:

- a. An individual point of contact for resolving questions related to the

request (name, organization, title, email address, phone number).

- b. Quantity requested (in kilograms), enrichment level, and form (e.g., UF6, metal, oxide, other).

c. Desired delivery date(s) for HALEU. Provide multiple dates and quantities if that would be the case to support multiple experiments over time.

- d. How will the HALEU be used? Briefly describe the fuel form,

fabrication, and experiments to be conducted. Provide a schedule.

e. Is this activity associated with an existing public-private partnership or cost-shared agreement? If so, please identify the agreement.

f. Describe your capabilities, experience, and financing that will enable you to use the HALEU for the intended purpose on the schedule provided.

g. Describe your progress in achieving the following:

- i. Regulatory approvals
- ii. Fabrication services
- iii. Access to experimental facilities
- iv. Capabilities to ship/receive HALEU

v. Any other areas that are required to execute your plans.

h. Provide detailed material specifications for the HALEU including contamination and purity limits.

i. Provide any other requirements that would be important for us to know in processing your request.

Statutory Authority: Section 2001 of The Energy Act of 2020 (Pub. L. 116–260, Dec. 27, 2020).

Signing Authority

This document of the Department of Energy was signed on April 7, 2023, by Jon Carmack, Deputy Assistant Secretary for Nuclear Fuel Cycle and Supply Chain, Office of Nuclear Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on April 11, 2023.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[Docket No. 23–34–LNG]

Gulfstream LNG Development, LLC; Application for Long-Term Authorization to Export Liquefied Natural Gas to Non-Free Trade Agreement Nations

AGENCY: Office of Fossil Energy and Carbon Management, Department of Energy.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy and Carbon Management (FECM) of the Department of Energy (DOE) gives notice (Notice) of receipt of an application (Application), filed by Gulfstream LNG Development, LLC (Gulfstream LNG) on March 10, 2023. Gulfstream LNG requests long-term, multi-contract authorization to export domestically produced liquefied natural gas (LNG) in a volume equivalent to 237.5 billion cubic feet per year (Bcf/yr) of natural gas from the proposed Gulfstream LNG Project, a LNG export project to be located in Plaquemines Parish, Louisiana. Gulfstream LNG filed the Application under the Natural Gas Act (NGA).

DATES: Protests, motions to intervene, or notices of intervention, as applicable, and written comments are to be filed electronically as detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, June 13, 2023.

ADDRESSES:

Electronic Filing by email: fergas@hq.doe.gov.

Although DOE has routinely accepted public comment submissions through a variety of mechanisms, including postal mail and hand delivery/courier, DOE has found it necessary to make temporary modifications to the comment submission process in light of the ongoing Covid-19 pandemic. DOE is currently accepting only electronic submissions at this time. If a commenter finds that this change poses an undue hardship, please contact Office of Resource Sustainability staff at (202) 586–4749 or (202) 586–7893 to discuss the need for alternative arrangements. Once the Covid-19 pandemic health emergency is resolved, DOE anticipates resuming all of its regular options for public comment submission, including postal mail and hand delivery/courier.

Jennifer Wade or Peri Ulrey, U.S. Department of Energy (FE–34) Office of Regulation, Analysis, and Engagement, Office of Resource Sustainability Office of Fossil Energy

and Carbon Management, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–4749 or (202) 586–7893, jennifer.wade@hq.doe.gov or peri.ulrey@hq.doe.gov.

Cassandra Bernstein, U.S. Department of Energy (GC–76) Office of the Assistant General Counsel for Energy Delivery and Resilience, Forrestal Building, Room 6D–033, 1000 Independence Avenue SW, Washington, DC 20585, (202) 586–9793, cassandra.bernstein@hq.doe.gov.

SUPPLEMENTARY INFORMATION:

Gulfstream LNG requests authorization to export domestically produced LNG by ocean-going vessel from its proposed Gulfstream LNG Project (Project), to be constructed and located on an approximately 500-acre parcel of land south of the town of Belle Chasse, Plaquemines Parish, Louisiana. Gulfstream LNG states that it has executed a Ground Lease and Joint Development Agreement with Louisiana 23 Development Company, which is developing the site with Plaquemines Port, Harbor & Terminal District. Gulfstream LNG seeks to export this LNG in a volume equivalent to 237.5 Bcf/yr of natural gas (equivalent to approximately 0.65 Bcf per day) on a non-additive basis to: (i) any nation with which the United States has entered into a free trade agreement (FTA) requiring national treatment for trade in natural gas (FTA nations), and (ii) any other nation with which trade is not prohibited by U.S. law or policy (non-FTA nations). This Notice applies only to the portion of the Application requesting authority to export LNG to non-FTA countries pursuant to section 3(a) of the NGA.¹ DOE will review Gulfstream LNG's request for an export authorization to FTA countries separately pursuant to NGA section 3(c).²

Gulfstream LNG seeks this authorization on its own behalf and as agent for other entities that hold title to the LNG at the point of export. Gulfstream LNG requests the authorization for a term to commence on the date of first export following the start of commercial operation of the Project, and to extend through December 31, 2050.

Additional details can be found in Gulfstream LNG's Application, posted on the DOE website at: www.energy.gov/sites/default/files/2023-03/23-34-LNG.pdf.
