FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-1270; FR ID 136147]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before June 16, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

Title: Protecting National Security Through FCC Programs.

Form Number: FCC Form 5640.

Type of Review: Revision of a currently-approved collection.

Respondents: Business or other for profit entities.

Number of Respondents and Responses: 3,500 respondents; 6,584 responses.

Estimated Time per Response: 0.5-12 hours.

Frequency of Response: Annual, semiannual, and recordkeeping requirements.

Obligation to Respond: Mandatory and required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 1603-1604.

Total Annual Burden: 20,236 hours.

Total Annual Cost: \$472,500.

Needs and Uses: The Communications Act of 1934, as amended, requires the "preservation and advancement of universal service." 47 U.S.C. 254(b). The information collection requirements reported under this collection are the result of the Commission's actions to promote the Act's universal service goals.

On November 22, 2019, the Commission adopted the *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18-89, Report and Order, Order, and Further Notice of Proposed Rulemaking, 34 FCC Rcd 11423 (2019) (*Report and Order*). The *Report and Order* prohibits future use of Universal Service Fund (USF) monies to purchase, maintain, improve, modify, obtain, or otherwise support any equipment or services produced or provided by a company that poses a national security threat to the integrity of communications networks or the communications supply chain.

On March 12, 2020, the President signed into law the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act), Public Law 116-124, 133 Stat. 158 (2020) (codified as amended at 47 U.S.C. 1601-1609), which, among other measures, directs the FCC to establish the Secure and Trusted Communications Networks Reimbursement Program (Reimbursement Program). This

program is intended to provide funding to providers of advanced communications service for the removal, replacement and disposal of certain communications equipment and services that poses an unacceptable national security risk (*i.e.*, covered equipment and services) from their networks. The Commission has designated two entities—Huawei Technologies Company (Huawei) and ZTE Corporation (ZTE), along with their affiliates, subsidiaries, and parents—as covered companies posing such a national security threat. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—Huawei Designation*, PS Docket No. 19–351, Memorandum Opinion and Order, 35 FCC Rcd 14435 (2020); *Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs—ZTE Designation*, PS Docket No. 19–352, Memorandum Opinion and Order, DA 20–1399 (PSHSB rel. Nov. 24, 2020).

On December 10, 2020, the Commission adopted the Second Report and Order implementing the Secure Networks Act, which contained new information collection requirements. *See Protecting Against National Security Threats to the Communications Supply Chain Through FCC Programs*, WC Docket No. 18–89, Second Report and Order, 35 FCC Rcd 14284 (2020) (*Second Report and Order*). These requirements allow the Commission to receive, review and make eligibility determinations and funding decisions on applications to participate in the Reimbursement Program that are filed by certain providers of advanced communications service. These information collection requirements also assist the Commission in processing funding disbursement requests and in monitoring and furthering compliance with applicable program requirements to protect against waste, fraud, and abuse. Participation in the Reimbursement Program is voluntary, but compliance with the information collection requirements is required to obtain Reimbursement Program support.

On August 3, 2021, the Wireline Competition Bureau (Bureau) released a Public Notice adopting procedures for filing and processing applications submitted for the Reimbursement Program. These procedures largely tracked the procedural rules previously adopted by the Commission in the *Second Report and Order*, but also adopted a new requirement that Reimbursement Program participants notify the Commission of changes in ownership, to ensure accurate

information is on file for participants and to help protect the Reimbursement Program against waste, fraud, and abuse.

This submission proposes to revise this currently-approved collection by deleting an existing question on FCC Form 5640 and replacing it with a more detailed query. The new question will ask program participants to describe in detail how they have spent Reimbursement Program funds. The addition of this question will allow the Bureau to satisfy its statutory obligations to collect information about how Reimbursement Program funds have been spent, including detailed accounting of the covered communications equipment and services permanently removed and disposed of, and the replacement equipment or services purchased, rented, leased, or otherwise obtained using Reimbursement Program funds, as well as to combat waste, fraud, and abuse, as required under the Secure Networks Act. The Bureau determined that FCC Form 5640 required this revision in order to elicit the information necessary for the Bureau to better satisfy its statutory obligations.

This proposed addition will increase the information collected, and will impose an additional burden on respondents, which will vary with the number of invoices respondents submit during the relevant reporting period. However, this submission also reflects a decrease in the estimated total annual responses, total annual burden hours, and total annual costs for this collection. These adjustments are due to a reduction of the number of respondents for several categories of information to be collected on Form 5640, based on the Bureau's experience with the Reimbursement Program since this collection was first approved.

Federal Communications Commission.

Secretary, Office of the Secretary.
