[Project No. 1927–140]

PacifiCorp; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC) regulations, 18 CFR part 380, Commission staff reviewed PacifiCorp's application for an amendment to the license of the North Umpqua Hydroelectric Project No. 1927 and have prepared an Environmental Assessment (EA) for the proposed amendment. The licensee proposes to amend the project license to include the construction, operation, and maintenance of new pumped storage facilities connecting the existing Toketee and Fish Creek developments. The North Umpqua project consists of eight developments located on the North Umpqua River and two of its tributaries, the Clearwater River and Fish Creek, in Douglas County, Oregon and is partially located on lands administered by the U.S. Department of Agriculture's Forest Service and the U.S. Department of the Interior's Bureau of Land Management.

The EA contains Commission staff's analysis of the potential environmental effects of the proposed amendment to the license, and concludes that the proposed amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "elibrary" link. Enter the docket number (P–1927) in the docket number field to access the document. A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or

In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. What action is the Agency taking?

This notice announces receipt by the Agency of requests from registrants to cancel certain pesticide products registered under FIFRA section 3 (7 U.S.C. 136a) or 24(c) (7 U.S.C. 136v(c)). These registrations are listed in sequence by registration number (or company number and 24(c) number) in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the requests or the registrants withdraw their requests, EPA intends to issue a cancellation order in the **Federal Register** canceling all of the affected registrations.

III. What is the Agency’s authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time

request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of

receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation,

EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrants in Table 2 of Unit II, have not requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 180-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. If the requests for voluntary cancellation are granted, the Agency intends to publish the cancellation order in the **Federal Register**.

In any order issued in response to these requests for cancellation of product registrations, listed in Table 1 of Unit II, EPA proposes to include the following provisions for the treatment of any existing stocks of the products listed in Table 1 of Unit II.

For: 264–328, 432–885, 432–1213, and 432–1226

For 264–328, 432–885, 432–1213, and 432–1226, listed in Table 1 of Unit II, the registrants have requested 18-months after cancellation to sell existing stocks. Thereafter, registrants will be prohibited from selling or distributing the pesticides identified in Table 1 of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

Persons other than registrants will generally be allowed to sell, distribute,

or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 17, 2023.

Daniel Rosenblatt,

Acting Director, Registration Division, Office of Pesticide Programs.

Proposed Settlement Agreement, Clean Water Act and Administrative Procedure Act Claims

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed settlement agreement; request for public comment.

SUMMARY: In accordance with the Environmental Protection Agency (EPA) Administrator’s March 18, 2022, memorandum regarding “Consent Decrees and Settlement Agreements to resolve Environmental Claims Against the Agency,” notice is hereby given of a proposed settlement agreement in *Center for Biological Diversity v. EPA and FWS*, No. 21–71306 (9th Cir.). In October 2021, Center for Biological Diversity (Plaintiff) filed a petition in the U.S. Court of Appeals for the Ninth Circuit challenging EPA’s issuance of the 2021 Pesticide General Permit (PGP), a permit issued by EPA pursuant to the Clean Water Act (CWA). The petition alleged that EPA failed to comply with the CWA in issuing the 2021 PGP, and that EPA and the U.S. Fish and Wildlife Service (FWS) failed to comply with the Endangered Species Act (ESA) in issuing the 2021 PGP. EPA seeks public input on a proposed settlement agreement prior to its final decision-making with regard to potential settlement of the litigation.

DATES: Written comments on the proposed settlement agreement must be received by May 24, 2023.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OGC–2023–0247 online at <https://www.regulations.gov> (EPA’s preferred method). Follow the online instructions for submitting comments.

Instructions: All submissions received must include the Docket ID number for this action. Comments received may be

posted without change to <https://www.regulations.gov>, including any personal information provided. For detailed instructions on sending comments, see the “Additional Information About Commenting on the Proposed Settlement Agreement” heading under the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Alec Mullee, Water Law Office, Office of General Counsel, U.S. Environmental Protection Agency; telephone: (202) 564–9616; email address: mullee.alec@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Settlement Agreement

The PGP covers discharges to waters of the United States from the following pesticide use patterns: mosquito and other flying insect pest control; weed and algae pest control; animal pest control; and forest canopy pest control. Shortly after EPA issued the 2021 PGP, Plaintiff filed a petition for review in the Ninth Circuit. The parties requested a stay before briefing commenced, which the court granted. During the stay, the Parties negotiated this proposed settlement agreement. Under the proposed agreement, EPA would take specified steps with respect to implementation of the 2021 PGP. EPA and FWS would complete ESA consultation on EPA’s next issuance of the PGP (the 2026 PGP) by October 31, 2024. When EPA proposes the 2026 PGP, EPA would propose for public comment certain changes to its monitoring and recordkeeping provisions. EPA would issue the 2026 PGP by December 17, 2024, to be effective in October 2026.

For a period of thirty (30) days following the date of publication of this notice, EPA will accept written comments relating to the proposed settlement agreement from persons who are not parties to the litigation. EPA or the Department of Justice may withdraw or withhold consent to the proposed settlement agreement if the comments received disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the CWA, ESA or APA.
