BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-552 and 731-TA-1308 (Review)]

Pneumatic Off-the-Road Tires from India

Determination

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing and antidumping duty orders on pneumatic off-the-road tires from India would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on February 1, 2022 (87 FR 5505) and determined on May 9, 2022, that it would conduct full reviews (87 FR 33209, June 1, 2022). Notice of the scheduling of the Commission's reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on October 21, 2022 (87 FR 64110). The Commission conducted its hearing on March 2, 2023. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It

completed and filed its determinations in these reviews on April 27, 2023. The views of the Commission are contained in USITC Publication 5417 (April 2023), entitled *Pneumatic Off-the-Road Tires from India: Investigation Nos. 701-TA-552 and 731-TA-1308 (Review)*.

By order of the Commission.

Issued: April 27, 2023.

Lisa Barton,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Pre-Implementation Planning Checklist Report for State Unemployment Insurance Information Technology Modernization Projects

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Employment and Training Administration (ETA)-sponsored information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before June 1, 2023.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of

automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Mara Blumenthal by telephone at 202-693-8538, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: This collection is authorized under the Social Security Act, Title III, section 303(a)(6). Building on lessons learned from previous state implementations of modernized UI IT systems, DOL facilitated the development of the ETA 9177—Pre-Implementation Planning Checklist for SWAs to use prior to "going live" with a modernized UI IT system. This comprehensive report denotes critical functional areas that SWAs should verify prior to launching a new UI IT system including, but not limited to, technical IT functions and UI business processes that interface with the new system. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 19, 2022 (87 FR 77638).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL-ETA.

Title of Collection: Pre-Implementation Planning Checklist Report for State Unemployment Insurance Information Technology Modernization Projects.

OMB Control Number: 1205-0527.

Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Respondents: 9.

Total Estimated Number of Responses: 6.

Total Estimated Annual Time Burden: 540 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

¹ The record is defined in § 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

Dated: April 25, 2023.

Mara Blumenthal,

Senior PRA Analyst.

BILLING CODE 4510-FW-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-608; NRC-2023-0029]

SHINE Technologies, LLC; SHINE Medical Isotope Production Facility

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an environmental assessment (EA) and finding of no significant impact (FONSI) regarding the NRC's consideration of issuance of a proposed amendment to the SHINE Technologies, LLC (SHINE, the licensee) Construction Permit No. CPMIF-001, issued on February 29, 2016, as amended. The permit authorizes the construction of the SHINE Medical Isotope Production Facility (SHINE facility) in Rock County, Wisconsin. If approved, the proposed amendment would authorize the receipt and possession of contained special nuclear material (SNM) necessary for the continued construction of the SHINE facility.

DATES: The EA and FONSI referenced in this document are available on May 2, 2023.

ADDRESSES: Please refer to Docket ID NRC-2023-0029 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC-2023-0029. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann; telephone: 301-415-0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION**

CONTACT section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact

the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to PDR.Resource@nrc.gov. For the convenience of the reader, instructions about obtaining materials referenced in this document are provided in the "Availability of Documents" section.

- **NRC's PDR:** You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1-800-397-4209 or 301-415-4737, between 8 a.m. and 4 p.m. eastern time (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Michael Balazik, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2856; email: Michael.Balazik@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of an amendment to Construction Permit No. CPMIF-001, issued to SHINE for the construction of the SHINE facility in Rock County, Wisconsin. SHINE requested the amendment by letter dated October 6, 2022, as supplemented by letter dated February 17, 2023, in accordance with section 50.90 of title 10 of the *Code of Federal Regulations* (10 CFR), "Application for amendment of license, construction permit, or early site permit." The amendment would authorize the receipt and possession of SNM (*i.e.*, uranium-235) contained in the form of neutron detectors (*i.e.*, fission chambers) necessary for the continued construction of the SHINE facility.

In accordance with 10 CFR 51.21, "Criteria for and identification of licensing and regulatory actions requiring environmental assessments," the NRC prepared an EA, pursuant to 10 CFR 51.30, "Environmental assessment," that analyzes the environmental impacts of the proposed amendment and alternatives as appropriate. Based on the results of this EA, which is set forth in section II in this document, and in accordance with 10 CFR 51.31, "Determinations based on environmental assessment," paragraph (a), the NRC has determined not to prepare an environmental impact statement for the proposed amendment and is issuing a FONSI, which is set forth in section III in this document.

II. Environmental Assessment

Description of the Proposed Action

The proposed action would amend Construction Permit No. CPMIF-001 to authorize SHINE to receive and possess the SNM contained in the form of neutron detectors, which is necessary for the continued construction of the SHINE facility in Rock County, Wisconsin. The proposed action is requested in the licensee's application dated October 6, 2022, as supplemented by letter dated February 17, 2023.

Need for the Proposed Action

The SNM described in the licensee's application is contained in the form of neutron detectors, which are required for the continued construction of the SHINE facility and would be installed within the facility's neutron flux detection system (NFDS). The licensee's request to receive and possess this SNM is in accordance with applicable provisions in 10 CFR part 70, "Domestic Licensing of Special Nuclear Material." The SNM consisting of uranium-235 is contained in neutron detectors, as described in section 7.8, "Neutron Flux Detection System," of the SHINE final safety analysis report, for installation within the NFDS. The NFDS monitors variables important to the safety functions of an irradiation unit that provide input to the facility's target solution vessel reactivity protection system to perform its safety functions.

The NRC regulations in 10 CFR part 70 contain requirements for the receipt, possession, use, and transfer of SNM.

Environmental Impacts of the Proposed Action

The NRC has completed its environmental review of the proposed action and concludes that there are no significant environmental impacts associated with the proposed action.

As an initial matter, the proposed action would amend the SHINE construction permit to authorize the receipt and possession of SNM necessary for continued construction of the SHINE facility in accordance with applicable provisions in 10 CFR part 70, which ensure the safety of such receipt and possession. Thus, before the NRC could approve the proposed action, it would have to conclude that the applicable provisions in 10 CFR part 70 are satisfied.

Additionally, the NRC previously evaluated the environmental impacts associated with constructing, operating, and decommissioning the SHINE facility in NUREG-2183, "Environmental Impact Statement for the Construction Permit for the SHINE
