

procedures in the United States Tax Court. IRC section 7526(c)(5) requires clinics to provide dollar-for-dollar matching funds, which may consist of funds from other sources or contributions of volunteer time. See IRS Pub. 3319 for additional details.

Mission Statement

Low Income Taxpayer Clinics ensure the fairness and integrity of the tax system for taxpayers who are low-income or ESL by providing *pro bono* representation on their behalf in tax disputes with the IRS; educating them about their rights and responsibilities as taxpayers; and identifying and advocating for issues that impact low-income and ESL taxpayers.

Expansion of the Type of Qualified Services an Organization Can Provide

IRC section 7526(b)(1)(A) authorizes the IRS to award grants to organizations that represent low-income taxpayers in controversies before the IRS or provide education to ESL taxpayers regarding their taxpayer rights and responsibilities. In recent years, the IRS has not awarded grants to organizations that solely refer taxpayers to other qualified representatives. Similarly, the IRS has required organizations receiving grants to provide both controversy representation and ESL education.

To achieve maximum access to justice for low-income and ESL taxpayers, the IRS has expanded the eligibility criteria for a grant by removing the requirement for eligible organizations to provide direct controversy representation. In addition, pursuant to the new ESL Education Pilot Program started in 2023 and continuing for 2024, a grant may be awarded to an organization to operate a program to inform ESL taxpayers about their taxpayer rights and responsibilities under the IRC without the requirement to also provide tax controversy representation to low-income taxpayers. See IRS Pub. 3319 for examples of what constitutes a “clinic.”

Selection Consideration

Despite the IRS’s efforts to foster parity in availability and accessibility in choosing organizations receiving LITC matching grants and the continued increase in clinic services nationwide, there remain communities that are underserved by clinics. The states of Hawaii, Montana, Nevada, and North Dakota, and the territory of Puerto Rico currently do not have an LITC. In addition, two states—Arizona and Florida—have only partial coverage. The uncovered counties in Florida are Baker, Bradford, Citrus, Clay, Columbia, Dixie, Duval, Flagler, Hamilton,

Hemando, Lafayette, Madison, Nassau, St. Johns, Sumter, Suwannee, and Taylor. The uncovered counties in Arizona are Apache, Coconino, and Navajo.

Although each application for the 2024 grant year will be given due consideration, the IRS is especially interested in receiving applications from organizations providing services in these underserved geographic areas. For organizations that intend to refer low-income taxpayers in controversies with the IRS to other qualified representatives rather than providing representation directly to low-income taxpayers, priority will be given to established organizations that can help provide coverage to underserved geographic areas. For the ESL Education Pilot Program, special consideration will be given to established organizations with existing community partnerships that can swiftly implement and deliver services to the target audiences.

As in prior years, the IRS will consider a variety of factors in determining whether to award a grant, including: (1) the number of taxpayers who will be assisted by the organization, including the number of ESL taxpayers in that geographic area; (2) the existence of other LITCs assisting the same population of low-income and ESL taxpayers; (3) the quality of the program offered by the organization, including the qualifications of its administrators and qualified representatives, and its record in providing services to low-income taxpayers; (4) the quality of the organization, including the reasonableness of the proposed budget; (5) the organization’s compliance with all Federal tax obligations (filing and payment); (6) the organization’s compliance with all Federal nontax monetary obligations (filing and payment); (7) whether debarment or suspension (31 CFR part 19) applies or whether the organization is otherwise excluded from or ineligible for a Federal award; and (8) alternative funding sources available to the organization, including amounts received from other grants and contributors and the endowment and resources of the institution sponsoring the organization.

For programs where all or the majority of cases will be placed with volunteers, we will also consider the following: (1) the quality of the representatives (attorneys, certified public accountants, or enrolled agents who have agreed to accept taxpayer referrals from an LITC and provide representation or consultation services free of charge; and (2) the ability of the

organization to monitor referrals and ensure that the *pro bono* representatives are handling the cases properly, including taking timely case actions and ensuring services are offered for free.

Applications and requests for continued funding that pass the eligibility screening process will then be subject to technical review. An organization submitting a request for continued funding for the second or third year of a multi-year grant will be required to submit an abbreviated Non-competing Continuation Request and will be subject to a streamlined screening process. Details regarding the scoring process can be found in Publication 3319. The final funding decisions are made by the National Taxpayer Advocate, unless recused. The costs of preparing and applying are the responsibility of each applicant. Applications may be released in response to Freedom of Information Act requests after any necessary redactions are made. Therefore, applicants must not include any individual taxpayer information. The IRS will notify each applicant in writing once funding decisions have been made.

Kim S. Stewart,

Deputy National Taxpayer Advocate.
