I. Funding Opportunity Description

Purpose of Program: The Credit Enhancement program provides grants to eligible entities to demonstrate innovative methods of helping charter schools address the cost of acquiring, constructing, and renovating facilities by enhancing the availability of loans and bond financing.

Background:

Charter schools are public schools that serve large percentages of underserved student groups. Lack of access to adequate facilities is one of the biggest obstacles to creating and expanding charter schools as cited by charter school leaders.¹ In 2021, the General Accounting Office (GAO) issued a report identifying the challenges charter schools encounter with locating and securing charter school facilities and government assistance. In this report, the GAO identified the following four challenges unique to charter schools when trying to secure charter school facilities and funding: (1) affordability and limited access to state and local funding and affordable private loans as well as rising real estate costs and renovation expenses; (2) availability of safe and secure building space and lack of amenities (e.g., a cafeteria or playground) or safe and secure building space and limited access to buildings; (3) lack of consistent local support and inconsistent assistance by local governments and school districts for charter school facilities' needs; and (4) limited staff expertise in facilities

management.² The Credit Enhancement grant program responds to all of these challenges and the underlying, shared cause—accessing capital.

The Credit Enhancement program provides grant funds to financial institutions to enhance the credit of charter schools so they can access private and non-federal capital to finance facility projects and pay affordable interest rates. Access to capital via the Credit Enhancement program allows participating charter school leaders to focus on the educational mission while the Credit Enhancement grantees focus on the business of financing, designing, and constructing a facility built to suit the unique needs of the school model, student population, and budget. Access to high-quality school facilities is an essential component of providing equitable, high-quality education to all students.

In his January 2023 speech, the Secretary encouraged all stakeholders to “raise the bar” in education to provide opportunities for students to reach new heights in the classroom, in their careers, and in their lives and communities, making a positive difference in the world for generations to come. One component of raising the bar for the charter school sector is to ensure that charter schools, including those operating in our most distressed communities, have access to and operate high-quality facilities. The unique challenges charter schools face in accessing high-quality facilities mean that a disproportionate number of low-income students and students of color in distressed communities are left waiting and denied opportunities for comprehensive and rigorous learning experiences. In expanding access to high-quality facilities with the Credit Enhancement grant program, we raise the bar for those charter schools that serve low-income students and students of color located in low-resourced, underfunded areas.³

Definitions:

The following definitions apply to this program. The definition of “charter school” is from section 4310 of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESEA) (20

(h) Is a school to which parents choose to send their children, and that—(i) Admits students on the basis of a lottery, consistent with section 4303(c)(3)(A) of the ESEA (20 U.S.C. 7221b(c)(3)(A)), if more students apply for admission than can be accommodated; or (ii) In the case of a school that has an affiliated charter school (such as a school that is part of the same network of schools), automatically enrolls students who are enrolled in the immediate prior grade level of the affiliated charter school and, for any additional student openings or student openings created through regular attrition in student enrollment in the affiliated charter school and the enrolling school, admits students on the

(m) May serve students in early childhood education programs or postsecondary students.

Performance measure means any quantitative indicator, statistic, or metric used to gauge program or project performance.

4. *Funding Restrictions*:

(a) Reserve accounts. Under 20 U.S.C. 7221c(f), an eligible entity receiving a grant must, in accordance with State and local law, directly or indirectly, alone or in collaboration with others, deposit the funds received, other than funds used for administrative costs, in a reserve account established and maintained by the eligible entity for this purpose. Amounts deposited in such account must be used by the eligible entity for one or more of the following purposes: (1) Guaranteeing, insuring, and reinsuring bonds, notes, evidences of debt, loans, and interests therein, the proceeds of which are used for an objective described in paragraph (b). (2) Guaranteeing and insuring leases of personal and real property for an objective described in paragraph (b). (3) Facilitating financing by identifying potential lending sources, encouraging private lending, and other similar activities that directly promote lending to, or for the benefit of, charter schools. (4) Facilitating the issuance of bonds by charter schools, or by other public entities for the benefit of charter schools, by providing technical, administrative, and other appropriate assistance (including the recruitment of bond counsel, underwriters, and potential investors, and the consolidation of multiple charter school projects within a single bond issue). Funds received and deposited in the reserve account must be invested in obligations issued or guaranteed by the United States or a State, or in other similarly low-risk securities. Any earnings on funds received must be deposited in the reserve account and used in accordance with this program.

(b) Charter school objectives. Under 20 U.S.C. 7221c(e), an eligible entity receiving a grant must use the funds deposited in the reserve account to assist one or more charter schools to access private sector capital to accomplish one or more of the following objectives: (1) The acquisition (by purchase, lease, donation, or otherwise) of an interest (including an interest held by a third party for the benefit of a charter school) in improved or unimproved real property that is necessary to commence or continue the operation of a charter school. (2) The construction of new facilities, or the renovation, repair, or alteration of existing facilities, necessary to commence or continue the operation of a charter school. (3) The predevelopment costs required to assess sites for purposes of paragraph (1) or (2) and that are necessary to commence or continue the operation of a charter school.

(c) Reasonable costs. Grantees must ensure that all costs incurred using funds from the reserve account are reasonable and allowable. We specify unallowable costs in 34 CFR 225.21.

(d) No full faith and credit for grantee obligation. No financial obligation of a grantee under this program (such as an obligation under a guarantee, bond, note, evidence of debt, or loan) shall be an obligation of, or guaranteed in any respect by, the United States. The full faith and credit of the United States are not pledged to the payment of funds that may be required to be paid under any obligation made by a grantee under this program. In the event of a default on any debt or other obligation, the United States has no liability to cover the cost of the default.

(e) Performance Agreement. Grantees must enter into a written Performance Agreement with the Department and may not draw down funds prior to approval of the agreement by the Department, unless the grantee receives written permission from the Department in the interim to draw down a specific limited amount of funds.

(f) Standards of conduct. Grantees must maintain and enforce standards of conduct governing the performance of their employees, officers, directors, trustees, and agents engaged in the selection, award, and administration of contracts or agreements related to this grant. The standards of conduct must mandate disinterested decision-making.

(g) Recovery of funds. The Secretary, in accordance with chapter 37 of title 31 of the United States Code, will collect the funds in the reserve account established with grant funds (including any earnings on those funds) as follows:

(1) All or a portion of the funds if the Secretary determines that the grantee has permanently ceased to use such funds to accomplish the purposes described in the authorizing statute and the Performance Agreement; or (2) All of the funds if the Secretary determines that, not earlier than 2 years after the date on which it first receives these funds, the grantee has failed to make substantial progress in undertaking the grant project.

(h) We reference additional regulations outlining funding restrictions in the *Applicable Regulations* section of this notice.

5. *Recommended Page Limit*: The application narrative is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. We recommend that you (1) limit the application narrative to no more than 40 pages and (2) use the following standards:

- A "page" is 8.5" x 11", on one side only, with 1" margins at the top, bottom, and both sides.

- Double-space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.

- Use a font that is either 12 point or larger or no smaller than 10 pitch (characters per inch).

- Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial.

The recommended page limit does not apply to the cover sheet; the budget section, including the narrative budget justification; the assurances and certifications; or the one-page abstract, and resumes. However, the recommended page limit does apply to all of the application narrative.

6. *Notice of Intent to Apply*: The Department will be able to review grant applications more efficiently if we know the approximate number of applicants that intend to apply. Therefore, we strongly encourage each potential applicant to notify us of their intent to submit an application. To do so, please email the program contact person listed under **FOR FURTHER INFORMATION CONTACT** with the subject line "Intent to Apply," and include the applicant's name, a contact person's name and email address, and the Assistance Listing Number. Applicants that do not submit a notice of intent to apply may still apply for funding.

V. Application Review Information

1. *Selection Criteria*: The selection criteria for this competition are from 34 CFR 225.11 and are as follows:

(a) *Quality of project design and significance (35 points)*. In determining the quality of project design and significance, the Secretary considers—

(1) The extent to which the grant proposal would provide financing to charter schools at better rates and terms than they can receive absent assistance through the program;

(2) The extent to which the project goals, objectives, and timeline are clearly specified, measurable, and appropriate for the purpose of the program;

(3) The extent to which the project implementation plan and activities, including the partnerships established, are likely to achieve measurable objectives that further the purposes of the program;

(4) The extent to which the project is likely to produce results that are replicable;

(5) The extent to which the project will use appropriate criteria for selecting charter schools for assistance and for determining the type and amount of assistance to be given;

(6) The extent to which the proposed activities will leverage private or public sector funding and increase the number and variety of charter schools assisted in meeting their facilities needs more than would be accomplished absent the program;

(7) The extent to which the project will serve charter schools in States with strong charter laws, consistent with the criteria for such laws in section 4303(g)(2) of the ESEA; and

(8) The extent to which the requested grant amount and the project costs are reasonable in relation to the objectives, design, and potential significance of the project.

(b) *Quality of project services (15 points)*. In determining the quality of the project services, the Secretary considers—

(1) The extent to which the services to be provided by the project reflect the identified needs of the charter schools to be served;

(2) The extent to which charter schools and chartering agencies were involved in the design of, and demonstrate support for, the project;

(3) The extent to which the technical assistance and other services to be provided by the proposed grant project involve the use of cost-effective strategies for increasing charter schools' access to facilities financing, including the reasonableness of fees and lending terms; and

(4) The extent to which the services to be provided by the proposed grant project are focused on assisting charter schools with a likelihood of success and the greatest demonstrated need for assistance under the program.

(c) *Capacity (35 points)*. In determining an applicant's business and organizational capacity to carry out the project, the Secretary considers—

(1) The amount and quality of experience of the applicant in carrying out the activities it proposes to undertake in its application, such as enhancing the credit on debt issuances, guaranteeing leases, and facilitating financing;

(2) The applicant's financial stability;

(3) The ability of the applicant to protect against unwarranted risk in its loan underwriting, portfolio monitoring, and financial management;

(4) The applicant's expertise in education to evaluate the likelihood of success of a charter school;

(5) The ability of the applicant to prevent conflicts of interest, including conflicts of interest by employees and members of the board of directors in a decision-making role;

(6) If the applicant has co-applicants (consortium members), partners, or other grant project participants, the specific resources to be contributed by each co-applicant (consortium member), partner, or other grant project participant to the implementation and success of the grant project;

(7) For State governmental entities, the extent to which steps have been or will be taken to ensure that charter schools within the State receive the funding needed to obtain adequate facilities; and

(8) For previous grantees under the charter school facilities programs, their performance in implementing these grants.

Note: The 35 available points under this selection criterion will be allocated evenly among the factors applicable to a particular applicant. For example, for an applicant for which none of factors (6)–(8) apply, the 35 available points will be allocated among the first five factors. Similarly, for an applicant that is a State governmental entity that is a previous grantee under the charter school facilities programs, the 35 available points will be allocated evenly among factors (1)–(5), (7), and (8).

(d) *Quality of project personnel (15 points)*. In determining the quality of project personnel, the Secretary considers—

(1) The qualifications of project personnel, including relevant training and experience, of the project manager and other members of the project team,

including consultants or subcontractors; and

(2) The staffing plan for the grant project.

2. *Review and Selection Process*: We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality. In addition, in making a competitive grant award, the Secretary requires various assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. *Risk Assessment and Specific Conditions*. Consistent with 2 CFR 200.206, before awarding grants under this competition the Department conducts a review of the risks posed by applicants. Under 2 CFR 200.208, the Secretary may impose specific conditions and, under 2 CFR 3474.10, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

4. *Integrity and Performance System*. If you are selected under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently \$250,000), under 2 CFR 200.206(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Awardee Performance and Integrity Information System (FAPIIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIIS. Please note that, if the total value of your currently active grants, cooperative agreements, and

procurement contracts from the Federal Government exceeds \$10,000,000, the reporting requirements in 2 CFR part 200, Appendix XII, require you to report certain integrity information to FAPIIS semiannually. Please review the requirements in 2 CFR part 200, Appendix XII, if this grant plus all the other Federal funds you receive exceed \$10,000,000.

The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Open Licensing Requirements*: Unless an exception applies, if you are

awarded a grant under this competition, you will be required to openly license to the public grant deliverables created in whole, or in part, with Department grant funds. When the deliverable consists of modifications to pre-existing works, the license extends only to those modifications that can be separately identified and only to the extent that open licensing is permitted under the terms of any licenses or other legal restrictions on the use of pre-existing works.

Additionally, a grantee or subgrantee that is awarded competitive grant funds must have a plan to disseminate these public grant deliverables. This dissemination plan can be developed and submitted after your application has been reviewed and selected for funding. For additional information on the open licensing requirements please refer to 2 CFR 3474.20.

4. Reporting:

(a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

5. *Performance Measures*: The Department has developed the following performance measures for the purpose of Department reporting under 34 CFR 75.110:

(a) *Program Performance Measures*. The performance measures for this program are: (1) The amount of funding grantees leverage for charter schools to acquire, construct, and renovate school facilities; and (2) the number of charter schools served. Grantees must provide information that is responsive to these measures as part of their annual performance reports.

(b) *Project-Specific Performance Measures*. Applicants must propose project-specific performance measures and performance targets consistent with the objectives of the project and

program. Applicants must provide the following information, as directed by 34 CFR 75.110(b):

(1) *Project Performance Measures*. How each proposed project-specific performance measure would accurately measure the performance of the project and how the proposed project-specific performance measure would be consistent with the performance measures established for the program funding the competition.

(2) *Project Performance Targets*. Why each proposed performance target is ambitious yet achievable compared to the baseline for the performance measure and when, during the project period, the applicant would meet the performance target(s).

Note: The Secretary encourages applicants to consider measures and targets tied to their grant activities during the grant period. The measures should be sufficient to gauge the progress throughout the grant period and show results by the end of the grant period.

(3) *Data Collection and Reporting*. (i) The data collection and reporting methods the applicant would use and why those methods are likely to yield reliable, valid, and meaningful performance data; and (ii) The applicant's capacity to collect and report reliable, valid, and meaningful performance data, as evidenced by high-quality data collection, analysis, and reporting in other projects or research.

Note: If applicants do not have experience with collection and reporting of performance data through other projects or research, they should provide other evidence of their capacity to successfully carry out data collection and reporting for their proposed project.

6. *Project Directors' Meeting*: Applicants approved for funding under this competition must attend a meeting for project directors at a location to be determined in the continental United States during each year of the project. Applicants may include the cost of attending this meeting as an administrative cost in their proposed budgets.

7. *Technical Assistance*: Grantees under this competition must participate in all Credit Enhancement program technical assistance offerings provided by the Department and its contractual technical assistance providers and partners throughout the life of the project.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NCES Data Security Requirements for Accessing Restricted Use Data

AGENCY: National Center for Education Statistics, Institute of Education Sciences, Department of Education.

ACTION: Notice.

SUMMARY: The National Center for Education Statistics (NCES) within the Institute of Education Sciences, U.S. Department of Education invites the general public and other federal agencies to comment on a proposed information collection. NCES plans to collect information from individuals to fulfill its data security requirements when providing access to restricted-use microdata for the purpose of evidence building. NCES's data security agreements and other paperwork along with the corresponding security

protocols allow the agency to maintain careful controls on confidentiality and privacy, as required by law. NCES published this proposal for 60 days of public comment beginning November 25, 2022. The purpose of this notice is to allow for an additional 30 days of public comment on the proposed data security information collection, prior to submission of the information collection request (ICR) to the Office of Management and Budget (OMB).

DATES: Written comments on this notice must be received by June 9, 2023 to be assured of consideration. Comments received after that date will be considered to the extent practicable. Send comments to the address below.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. SUPPLEMENTARY INFORMATION: The Foundations for Evidence-Based Policymaking Act of 2018 mandates that the Office of Management and Budget (OMB) establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. While the adoption of the SAP is required for statistical agencies and units designated under the Confidential Information Protection and Statistical Efficiency Act of 2018, it is recognized that other agencies and organizational units within the Executive branch may benefit from the adoption of the SAP to accept applications for access to confidential data assets. The SAP is to be a process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply to access confidential data assets held by a federal statistical agency or unit for the

purposes of developing evidence. With the Interagency Council on Statistical Policy (ICSP) as advisors, the entities upon whom this requirement is levied are working with the SAP Project Management Office (PMO) and with OMB to implement the SAP. The SAP Portal is to be a single web-based common application for requesting access to confidential data assets from federal statistical agencies and units. The National Center for Science and Engineering Statistics (NCSES) within the National Science Foundation submitted a **Federal Register** Notice in September 2022 announcing plans to collect information through the SAP Portal (87 FR 53793). OMB approved the SAP Portal for data collection in December 2022.

Once an application for confidential data is approved through the SAP Portal, NCES will collect information to meet its data security requirements. This collection will occur outside of the SAP Portal.

Abstract

Title III of the Foundations for Evidence-Based Policymaking Act of 2018 (hereafter referred to as the Evidence Act) mandates that OMB establish a Standard Application Process (SAP) for requesting access to certain confidential data assets. Specifically, the Evidence Act requires OMB to establish a common application process through which agencies, the Congressional Budget Office, State, local, and Tribal governments, researchers, and other individuals, as appropriate, may apply for access to confidential data assets collected, accessed, or acquired by a statistical agency or unit. This new process will be implemented while maintaining stringent controls to protect confidentiality and privacy, as required by law.

Data collected, accessed, or acquired by statistical agencies and units is vital for developing evidence on conditions, characteristics, and behaviors of the public and on the operations and outcomes of public programs and policies. This evidence can benefit the stakeholders in the programs, the broader public, as well as policymakers
