

Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Anne-Marie Pastorkovich, Mail Code 6405A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 343-9623; email address: pastorkovich.anne-marie@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Pursuant to section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA), EPA is soliciting comments and information to enable it to: (i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** document to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: This ICR is related to information collected under 40 CFR part 1090, Fuels Regulatory Streamlining. The final rule, entitled "Fuels Regulatory Streamlining" has been published in the **Federal Register**. In general, the information to be collected will be used to ensure that gasoline meets standards for sulfur, benzene, RVP and oxygenate blending, and that diesel fuel meets the appropriate standard for sulfur. These fuel standards

are designed to protect human health and the environment, and to reduce the harmful effects of emissions from motor vehicles and motor vehicle fuels.

The recordkeeping and reporting associated with each party is directly related to that party's opportunity to create, control, or alter the product's characteristics. Parties who manufacture fuels (e.g., refiners) generally have more recordkeeping and reporting requirements than those who merely distribute them.

The information under this ICR will be collected by the EPA's Compliance Division, within the Office of Transportation and Air Quality, Office of Air and Radiation, and by the EPA's Air Enforcement Division, within the Office of Civil Enforcement, Office of Enforcement and Compliance Assurance. The information collected will be used by the EPA to evaluate compliance with the fuel quality requirements of part 1090 under the final rule. This oversight by EPA is necessary to ensure the goals of the Clean Air Act are met. Proprietary information (i.e., information claimed as CBI) may be submitted by regulated parties; such information must be clearly marked by the submitter. Information claimed as CBI by the submitter will be handled in accordance with EPA regulations at 40 CFR part 2 and established Agency procedures. Registration and reporting activities will be conducted via EPA systems that will provide a method of identifying information claimed as CBI by the submitter (e.g., reporting formats contain a Y/N field asking submitters if they would like to claim the information as CBI).

Form numbers: EPA form numbers 5900-364, 5900-474, 5900-475, 5900-476, 5900-477, 5900-478, 5900-479, 5900-480, 5900-624, 5900-625, 5900-626, 5900-627, 5900-628, 5900-629, 5900-630.

Respondents/affected entities:

- Manufacturers of fuels—including refiners of gasoline and diesel.
- Manufacturers of regulated blendstocks, such as those who manufacturer butane, pentane, ethanol denaturant.
- Blenders, including those who blend oxygenate and detergent into gasoline.
- Transmix processors and blenders.
- Additive manufacturers, including those who produce oxygenate, detergent, or other additives.
- Parties in fuel distribution system, including pipelines, terminals, trucks, wholesale, and retail gasoline stations.

• Third parties who submit reports on behalf of the parties listed above, such as laboratories, auditors, and surveyors.

Respondent's obligation to respond: Mandatory, under 40 CFR part 1090.

Estimated number of respondents: 134,918 (total).

Frequency of response: Annually, quarterly, on occasion.

Total estimated burden: 550,205 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$37,542,321 (per year), includes \$5,744,016 annualized capital or operation & maintenance costs.

Changes in estimates: The OMB inventory for the expiring collection is 7,905,905 responses; for this renewal, the total will be 7,926,769. The change is an increase of 20,864 responses. The OMB inventory for the expiring collection is 608,992 hours; for the renewal, the total will be 550,205 hours. The change is a decrease of (58,787). The total cost for the expiring collection is \$36,787,434; for the renewal, the total will be \$37,542,321. The change is an increase of \$754,887. Most of the change is due to minor updates to assumptions about respondents or time required to report. Decrease in hours is expected because most parties will have completed registration and other initial changes and updates by now. It should be noted that we changed our multiplier for calculating purchased services, based upon consultation with industry on the RFS ICR renewal (OMB Control No. 2060-0725); specifically, we now use a 2.5 multiplier to calculate purchased services cost rather than 2.0. This is based upon feedback from industry about increased overhead/benefit costs.

Byron J. Bunker,

Director, Compliance Division, Office of Transportation and Air Quality.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0405; FR ID 143030]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as

required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before July 31, 2023. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0405.

Title: Form 2100, Schedule 349—FM Translator or FM Booster Station Construction Permit Application.

Form Number: FCC Form 2100, Schedule 349.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; State, Local or Tribal Government; Not-for-profit institutions.

Number of Respondents and Responses: 1,250 respondents; 3,750 responses.

Estimated Time per Response: 0.5 hours–1.5 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is contained in Sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

Total Annual Burden: 4,050 hours.

Total Annual Cost: \$4,447,539.

Needs and Uses: The Commission is requesting an extension of this information collection in order to receive approval/clearance from the Office of Management and Budget (OMB) for three years.

Form 2100, Schedule 349, FM Translator or FM Booster Station Construction Permit Application, is used to apply for authority to construct a new FM translator or FM booster broadcast station, or to make changes in the existing facilities of such stations.

Schedule 349's Online Notice (third party disclosure) Requirement; 47 CFR 73.3580. Schedule 349 also contains a third-party disclosure requirement, pursuant to 47 CFR 73.3580. Section 73.3580, as amended in the Commission's 2020 Public Notice *Second Report and Order*, discussed below, requires local public notice of the filing of all applications to construct a new broadcast station, including an FM translator or booster station. Notice is given by an applicant posting notice of the application filing on its station website, its licensee website, its parent entity website, or on a publicly accessible, locally targeted website, for 30 consecutive days beginning within five business days of acceptance of the application for filing. The online notice must link to a copy of the application as filed in the Commission's LMS licensing database.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.
