DATES: This action was effective as of May 9, 2023.

ADDRESSES: Copies of the petition reissuance and pertinent information relating thereto are on file at the following location: Environmental Protection Agency (EPA), Region 6, Water Division, Safe Drinking Water Branch (6WD-D), 1201 Elm Street, Suite 500, Dallas, Texas 75270-2102.

SUPPLEMENTARY INFORMATION: As required by 40 CFR part 148, Dow adequately demonstrated to the EPA by the petition reissuance application and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by the Dow Beaumont Aniline Plant, of the specific restricted hazardous wastes identified in this exemption reissuance, into Class I hazardous waste injection Wells WDW-188 and WDW-391 until December 31, 2040, unless EPA terminates this exemption under provisions of 40 CFR 148.24. Additional conditions included in this final decision may be reviewed by contacting the Region 6 Ground Water/UIC Section. As required by 40 CFR 148.22(b) and 124.10, a public notice comment period started on January 26, 2023, and closed on March 13, 2023. No comments were received. EPA made inconsequential edits to the fact sheet after the public comment period. This decision constitutes final Agency action, and there is no Administrative appeal.

Dated: May 25, 2023.

Charles W. Maguire,
Director, Water Division, Region 6.

Procedures for Providing Public Input: Public comment for consideration by EPA's federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to the EPA. Members of the public can submit relevant comments pertaining to the committee's charge or meeting materials. Input from the public to the SAB will have the most impact if it provides specific scientific or technical information or analysis for the SAB to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comments should follow the instructions below to submit comments.

Oral Statements: In general, individuals or groups requesting an oral presentation at a meeting conducted virtually will be limited to three minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Persons interested in providing oral statements should contact the DFO, in writing (preferably via email) at the contact information noted above in the **FOR FURTHER INFORMATION CONTACT**, by July 10, 2023, to be placed on the list of registered speakers for the July 19, 2023.

Written Statements: Written statements will be accepted throughout the advisory process; however, for timely consideration by SAB members, statements should be submitted to the DFO by July 10, 2023, for consideration at the July 19, 2023, meeting. Written statements should be supplied to the DFO at the contact information above via email. Submitters are requested to provide a signed and unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its websites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB website. Copyrighted material will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with

disabilities, please contact the DFO, at the contact information noted above, preferably at least ten days prior to the meeting(s), to give the EPA as much time as possible to process your request.

Meeting cancellation: The July 27, 2023, meeting date is tentative and may be canceled if the panel is able to complete its deliberations on July 19, 2023. If the July 27, 2023, meeting is canceled, notice will be posted on the SAB website.
