Agency Information Collection Activities; Submission to the Office of Management and Budget; Northeast Region Hunter Participation Surveys

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of information collection;
request for comment.

SUMMARY: In accordance with the
Paperwork Reduction Act of 1995, we,
the U.S. Fish and Wildlife Service
(Service), are proposing a new
information collection not in use
without Office of Management and
Budget (OMB) approval.

DATES: Interested persons are invited to
submit comments on or before July 3,
2023.

ADDRESSES: Written comments and
recommendations for the proposed
information collection should be
submitted within 30 days of publication
of this notice at [https://

telecommunications relay services.
Individuals outside the United States
should use the relay services offered
within their country to make
international calls to the point-of-
contact in the United States.

SUPPLEMENTARY INFORMATION:

In accordance with the Paperwork
Reduction Act (PRA; 44 U.S.C. 3501 *et
seq.*) and its implementing regulations
in the Code of Federal Regulations
(CFR) at 5 CFR 1320, all information
collections require approval under the
PRA. We may not conduct or sponsor
and you are not required to respond to
a collection of information unless it
displays a currently valid OMB control
number.

On February 9, 2023, we published in
the **Federal Register** (88 FR 8448) a
notice of our intent to request that OMB
approve this information collection. In
that notice, we solicited comments for
60 days, ending on April 10, 2023. In an
effort to increase public awareness of,
and participation in, our public
commenting processes associated with
information collection requests, the
Service also published the **Federal
Register** notice on [Regulations.gov](https://www.regulations.gov)
(Docket No. FWS-R5-NWRS-2022-
0152) to provide the public with an
additional method to submit comments
(in addition to the typical [Info_Coll@
fws.gov](mailto:Info_Coll@fws.gov) email and U.S. mail submission
methods). We received one anonymous
comment in response to that notice
which did not address the information
collection requirements. Therefore, no
response is required to that comment.

As part of our continuing effort to
reduce paperwork and respondent
burdens, we are again inviting the
public and other Federal agencies to
comment on new, proposed, revised,
and continuing collections of
information. This helps us assess the
impact of our information collection
requirements and minimize the public’s
reporting burden. It also helps the
public understand our information

collection requirements and provide the
requested data in the desired format.

We are especially interested in public
comment addressing the following:

(1) Whether or not the collection of
information is necessary for the proper
performance of the functions of the
agency, including whether or not the
information will have practical utility;

(2) The accuracy of our estimate of the
burden for this collection of
information, including the validity of
the methodology and assumptions used;

(3) Ways to enhance the quality,
utility, and clarity of the information to
be collected; and

(4) How might the agency minimize
the burden of the collection of
information on those who are to
respond, including through the use of
appropriate automated, electronic,
mechanical, or other technological
collection techniques or other forms of
information technology, *e.g.*, permitting
electronic submission of response.

Comments that you submit in
response to this notice are a matter of
public record. Before including your
address, phone number, email address,
or other personal identifying
information in your comment, you
should be aware that your that your
entire comment—including your
personal identifying information—may
be publicly available at any time. While
you can ask us in your comment to
withhold your personal identifying
information from public review, we
cannot guarantee that we will be able to
do so.

Abstract: The Service has overall
Federal responsibility for managing the
Nation’s fish and wildlife resources.
Part of the Service’s mission is to
provide the public with wildlife-based
outdoor recreation opportunities on
National Wildlife Refuges, National Fish
Hatcheries, and other Service lands
(collectively, refuges). These outdoor
recreation opportunities include
hunting, which is an important
opportunity for people to connect with
nature, harvest food, and assist the
Service in managing wildlife
populations.

The National Wildlife Refuge System
Administration Act, as amended by the
National Wildlife Refuge System
Improvement Act (the Act; 16 U.S.C.
668dd *et seq.*) stipulates that refuges
undergo a comprehensive conservation
planning process that, among other
things, must look at the compatibility of
wildlife-dependent recreation
(including hunting) on refuges. We will
use the information from the proposed
survey effort to inform planning on
refuges as mandated by the Act.

Hunting on refuges is regulated by both State and Federal laws, as well as through refuge-specific regulations. These refuge-specific regulations are made in accordance with hunt plans required to be developed for each refuge. These hunt plans outline refuge-specific bag limits, season dates, areas open and closed to hunting, allowed hunting time, and other requirements. The hunt plans are an important tool that refuges use to manage harvest, safety, and visitor experience.

Creating hunt plans relies on sound biological and social data. Understanding hunter experience, preference, and harvest helps refuge

managers and planners tailor hunt plans to suit biological and visitor objectives and maintain a safe environment for hunters and non-hunting visitors.

To ensure the surveys were comprehensive, the Service convened an interdisciplinary team made up of biologists, managers, visitor services specialists, social scientists, and law enforcement officers. The team identified data gaps needed to inform future hunt plan development, identified safety concerns, and considered methods to better understand hunter preference in order to improve visitor experience.

The public may request copies of any form or document contained in this

information collection by sending a request to the Service Information Collection Clearance Officer in ADDRESSES, above.
